Bismarck The Story Of A Fighter:

Bismarck Emil Ludwig, 2013-02-08 Otto von Bismarck was more than a politician and a leader he was the single driving force that turned the disparate states of Germany into one cohesive empire He then went on to lead Germany and the rest of Europe into an age of political peace that lasted from 1871 until the outbreak of World War I Under his influence Germany thrived Bismarck's use of statesmanship to fight for the interests of his country was legendary As one of the most influential and powerful individuals in his country's history Bismarck became a symbol of leadership and pride for German nationalists The historical conception of him was as the Iron Chancellor an unbending and untouchable figure In his landmark biography of the man of blood and iron Emil Ludwig rejects the pedestal that history has placed Bismarck upon and instead seeks a historical and psychological understanding of the chancellor as he really was and not as distorted by worship Bismarck was not merely a hard and calculating statesman but a man ruled by pride courage and hatred To fully comprehend the actions this enigmatic and important character we must first understand his feelings his motivations and his private life Beginning with Bismarck's childhood and delving more fully into his early life than any other work Ludwig's landmark volume is invaluable in understanding the forces behind one of the most influential men in modern history **Bismarck** Emil

Bruce Basset-Powell, 2013-07-19 The riveting story of the nineteenth century rise of the Prussian army a key factor in the unification of Germany with maps and illustrations On July 3 1866 a Prussian force overwhelmed and defeated an Austrian army near the fortress city of K nigr tz in a bloody battle that lasted all day At a stroke the foremost power in Germany and central Europe had been reduced to a second rate player The event caused anxiety and alarm in the capitals of the western world How was an upstart country like Prussia able to upset the balance of power in Europe Only sixteen years before it had been put in its place by Austria with the treaty of Olm tz Its performance as an Austrian ally had been less than stellar in the Second Schleswig War of 1864 despite its defeat of the Danes at D ppe Yet within five years a Prussian led army would humble France and a Prussian king would be crowned emperor of a united Germany The history of the world would be changed forever This book tells the story of this army chronicling its growth from the end of the Napoleonic Wars to the reforms of the 1860s then offering a full account of the wars against Denmark in 1864 and Austria in 1866 The author shows how the confluence of three men s lives King William I Helmuth von Moltke and Otto von Bismarck provided the essential ingredients that created this victorious army The growth and influence of the General Staff is examined along with the recruitment and training of officers and men Powell fully describes the organization of the army and the fledgling navy as well as the weapons with which they fought Special Bibliographic Series US Army Military History Research
