**Essential Difference** James Blachowicz, 2012-08-02 Finalist for the 2015 John N Findlay Award in Metaphysics presented by the Metaphysical Society of America Is metaphysics possible This book argues that the greatest threat to its viability derives from a self destructive formalism If what is essential to the nature of physical entities are the properties they have in common as formalism holds the inevitable result will be a reductionist collapse leaving only being or physical matter or some other underlying ground In Essential Difference James Blachowicz first constructs a one to one historical parallel between the modern crisis surrounding formalism Hume Kant Hegel and the ancient version Parmenides Plato Aristotle focusing on the principles of differentiation and individuation that underlie Aristotle's and Hegel's antireductionist programs He then proposes a contemporary metaphysical theory of emergence in the context of recent philosophy of science This theory founded on the principle of the nonderivability of actual states from possible states holds that the differences among physical biological and mental phenomena are essential to any metaphysics Essential Difference is the only focused treatment of this problem and is itself essential for any understanding of the nature of metaphysics Bulletin of Pharmacy Youth's Companion ,1899 The Philosophical Review Jacob Gould Schurman, James Edwin Creighton, Frank ,1896 Thilly, Gustavus Watts Cunningham, 1972 An international journal of general philosophy The Iewelers' Circular and Mechanisms of Syntactic Change Charles N. Li,2014-09-10 Historical linguistics the oldest Horological Review ,1884 field in linguistics has been traditionally dominated by phonological and etymological investigations Only in the late twentieth century have linguists begun to focus their interest and research on the area of syntactic change and the insight it provides on the nature of language This volume represents the first major contribution on the mechanisms of syntactic change The fourteen articles that make up this volume were selected from the Symposium on the Mechanisms of Syntactic Change held at the University of California Santa Barbara in 1976 one of a series of three conferences sponsored by the National Science Foundation These papers clearly demonstrate that the generative approach to the study of language does not explain diachronic processes in syntax This collection is enlightening provocative and carefully documented with data drawn from a great variety of language families The Cave of Gold Everett McNeil, 1926
