Bitter Years The Invasion Occupation O:

The Forgotten Axis J. Lee Ready, 2012-09-26 The mention of World War II German soldiers conjures images of strong Aryan young men born in Germany and raised under the Third Reich However throughout the war more than 3 million foreigners served in Nazi Germany's armed services comprising 18 percent of the entire German force These non German soldiers included 1.5 million Austrians 350 000 Sudetenlanders and approximately 200 000 Poles as well as Czechs Slovaks Norwegians Danes Belgians Romanians Finns Bulgarians and other nationalities Whether converts conscripts or reluctant volunteers these foreigners served throughout the armed forces and participated in all major operations This volume offers the first in depth exploration of the motives and experiences of these non German German soldiers providing a new perspective on the military history of the Axis powers

The Path of the Righteous Mordecai Paldiel, 1993 The Path of the Righteous by Mordecai Paldiel recounts the inspiring stories of several hundred Righteous Among the Nations heroic gentile men and women in virtually all the countries of Nazi occupied Europe who put themselves and their families at risk in order to save the lives of Jews fleeing the Nazi terror Drawn from the files of Yad Vashem Memorial in Israel these stories are a badly needed corrective to the pessimistic view of human nature which has become all too common in the Holocaust's aftermath They prove that decency morality and altruism can survive even under the most horrendous of circumstances and that some people will always be willing to act selflessly It also serves to disprove the cruel lie being promulgated by some that the Holocaust never took place or did not take place as described in eye witness accounts The courageous individuals whose tales are recounted in this book are monuments to the nobility of the human spirit They did what they did not for the sake of reward or prestige but because they believed it was right Some of them were pious Christians motivated by religion Others were energized by feelings of intense compassion Neither the threat of punishment nor ostracism by relatives and neighbors deterred them Love for their fellow human beings was a higher value The book contains a foreword by Rabbi Harold Schulweis founding chairman of the Jewish Foundation for Christian Rescuers ADL and an afterword by Abraham H Foxman National Director of the Anti Defamation League and a Holocaust survivor who was saved by his Polish nursemaid poignantly express their recognition of and gratitude to the untold numbers of righteous gentiles many of whom will never be known by us

Operation Weseruebung Brian Baxley, 2010-09 Operation Weseruebung the German invasion of Norway during the Second World War is considered by many military historians to be the first joint military operation involving the combined planning and execution of air land and sea forces After a brief introduction and an explanation of the significance of Norway Chapter Three will analyze the planning process and strategy used by the Germans in late 1939 and early 1940 for devising this joint operation Chapter Four examines primarily from an airpower perspective the plan itself and its execution during the first day of the operation by the Germans and the British response Chapter Five determines how German airpower was used and in particular what effect the Luftwaffe attack on 9 April against the British Home Fleet had against Britain s campaign strategy to control the North Sea The final chapter examines three important lessons United States military planners should extract from Operation Weseruebung and apply to operations in the 21st century They are 1 the joint operation of air land and sea assets produce a synergetic effect greater than the sum of their parts 2 a difficult part of joint operations is the air command and control and 3 airpower can decisively deny the enemy use of the land or the sea

The Politics of Retribution in Europe István Deák, Jan T. Gross, Tony Judt, 2009-11-06 The presentation of Europe's immediate historical past has quite dramatically changed Conventional depictions of occupation and collaboration in World War II of wartime resistance and post war renewal provided the familiar backdrop against which the chronicle of post war Europe has mostly been told Within these often ritualistic presentations it was possible to conceal the fact that not only were the majority of people in Hitler's Europe not resistance fighters but millions actively co-operated with and many millions more rather easily accommodated to Nazi rule Moreover after the war those who judged former collaborators were sometimes themselves former collaborators Many people became innocent victims of retribution while others among them notorious war criminals escaped punishment Nonetheless the process of retribution was not useless but rather a historically unique effort to purify the continent of the many sins Europeans had committed This book sheds light on the collective amnesia that overtook European governments and peoples regarding their own responsibility for war crimes and crimes against humanity an amnesia that has only recently begun to dissipate as a result of often painful searching across the continent In inspiring essays a group of internationally renowned scholars unravels the moral and political choices facing European governments in the war's aftermath how to punish the guilty how to decide who was guilty of what how to convert often unspeakable and conflicted war experiences and memories into serviceable even uplifting accounts of national history In short these scholars explore how the drama of the immediate past was and was not successfully overcome Through their comparative and transnational emphasis they also illuminate the division between eastern and western Europe locating its origins both in the war and in post war domestic and international affairs Here as in their discussion of collaborators trials the authors lay bare the roots of the many unresolved and painful memories clouding present day Europe Contributors are Brad Abrams Martin Conway Sarah Farmer Luc Huyse László Karsai Mark Mazower and Peter Romijn as well as the editors Taken separately their essays are significant contributions to the contemporary history of several European countries Taken together they represent an original and pathbreaking account of a formative moment in the shaping of Europe at the dawn of a new millennium
