Black Rebellion in Barbados Hilary Beckles, 1984 Finally the most detailed research to date of the 1816 slave rebellion and its impact upon the emancipation debate is presented which suggests that Barbadian slaves like their counterparts in Demerara and Jamaica who rebelled in 1823 and 1831 respectively were saying to their owners and the Imperial government you will either grant us our freedom by law or force us to make it by war This work is a polemical account of the changing relationships between maturing black radical consciousness and white power in Barbados during the slavery period It goes a long way towards assisting the process of decolonising the island s general Eurocentric historiography Back cover *Race, Culture, and the Revolt of the Black Athlete* Douglas Hartmann, 2003 Ever since 1968 a single iconic image of race in American sport has remained indelibly etched on our collective memory sprinters Tommie Smith and John Carlos accepting medals at the Mexico City Olympics with their black gloved fists raised and heads bowed But what inspired their protest What happened after they stepped down from the podium And how did their gesture impact racial inequalities Drawing on extensive archival research and newly gathered oral histories Douglas Hartmann sets out to answer these questions reconsidering this pivotal event in the history of American sport He places Smith and Carlos within the broader context of the civil rights movement and the controversial revolt of the black athlete Although the movement drew widespread criticism it also led to fundamental reforms in the organizational structure of American amateur athletics Moving from historical narrative to cultural analysis Hartmann explores what we can learn about the complex relations between race and sport in contemporary America from this episode and its aftermath Black Power and Student Rebellion James McEvoy, Abraham

Maddox IV, John Thomas Maddox (IV), 2021 The historical novels of Manuel Zapata Olivella and Ana Maria Gonçalves map black journeys from Africa to the Americas in a way that challenges the Black Atlantic paradigm that has become synonymous with cosmopolitan African diaspora studies Unlike Paul Gilroy who coined the term and based it on W. Bachman, Don Richard Cox, 2003 In the midst of a Victorian culture ingrained with strict social etiquette and societal norms Wilkie Collins composed novels that contained asocial even anarchic impulses A contemporary of Dickens Collins creates a world more Kafkaesque than Dickensian a world populated by doppelgangers secret selves oddballs and grotesques The essays of *Reality's Dark Light* The Sensational Wilkie Collins purposefully work to expand Collins's legacy beyond *The Woman in White* and *The Moonstone* they move well past the simplistic view of Collins's works as sensation novels detective novels or even popular fiction all labels that carry with them pejorative connotations This collection represents the range of Collins's aesthetic project from various critical perspectives New methodological and theoretical approaches are applied both to his most popular and to his lesser known works giving the reader a broader picture of this multifaceted and undervalued writer The Editors Maria K. own realities It raises fundamental issues that have recurred throughout the last century and continue unabated today such as whether black Americans should seek their political destiny apart from white Americans or whether economic growth within the black community can eventually lead to true black power This book is comprised of 31 chapters and begins with a historical overview and social reality of black separatism in America how and why black separatist movements emerge and why separatism appeals to some individuals and not to others The next section explores the similarities of white racist assumptions and black separatism as well as the arguments for and against separatism The prospects of black separatism are analyzed along with Pan Africanism and black studies A comprehensive review of the history of separatist thought and a bibliography concerning the relation of Afro Americans with Africa are presented The possibility of a violent confrontation between whites and blacks is also considered Finally the book ponders the question of whether there is a need for a distinct black social science This monograph will appeal to sociologists social scientists political scientists politicians blacks and scholars of black studies
