Image Brokers Zeynep Devrim Gursel, 2016-04-12. *Image Brokers* is an in-depth ethnography of the labor and infrastructure behind news images and how they are circulated. Zeynep Gursel presents an intimate look at the ways image brokers, the people who manage the distribution or restriction of images, construct and culturally mediate the images they circulate. Through this framework, news images become visual commodities that impact how politics and culture are visualized in the world. Set against the backdrop of the War on Terror and the industry-wide transition from analog to digital technologies, *Image Brokers* is a multi-sited ethnography based on fieldwork conducted at the industry's centers of power in New York and Paris. It also explores how new digital and social media platforms continue to change photojournalism and create ever-widening distribution networks. The book is a powerful investigation of the processes of decision-making amid the changing infrastructures of representation.

Image Makers, Image Takers Anne-Celine Jaeger, 2007. This essential guide draws on in-depth interviews with established photographers from the fields of fashion, art, portraiture, documentary photography, and advertising, as well as comments from picture editors, curators, agency directors, and publishers who reveal what they look for when choosing an image. The book first focuses on photographers' working practices: What made the photographer start taking pictures? How did he or she develop a signature style? What is the process involved in going from concept to shoot? How important is postproduction? Then the book turns to selection: How does a picture editor decide which photographer to commission for the next fashion spread? What kind of photograph is worthy of being hung in a gallery? What advice would an art book publisher give a budding photographer? Whether it is the question of what to look for in an image, views on cropping, or the pros and cons of color versus black and white, the shapers of taste give acute and useful accounts of their methods. This updated edition includes five new interviews: Pascal Daignan, who pioneered a revolutionary digital scanning technique; Fabrice Dall'Anese, a celebrated French portrait photographer for *Vanity Fair*, *GQ*, *Elle*, and others; Jrg Colberg, creator of the photography blog *Conscientious*; Jihad Nga, a self-taught photographer whose focus has recently shifted from photojournalism to fine art photography; and Tim Barber, who launched *tinyvices.com* in 2005, an online gallery and image archive.
