Alliance Policy In The Cold War:

Alliance Policy in the Cold War Arnold Wolfers,1959 *Alliance Policy in the Cold War* Arnold Wolfers,1959

American Alliance Policy in the Middle East, 1945-1992 John P. Miglietta,2002-01-01 American Alliance Policy in the Middle East provides a stimulating new look at a U S Cold War foreign policy gripped by anticommunist paranoia Through case studies of America s relationships with Iran Israel and Saudi Arabia John P Miglietta reveals how an overriding fear of global communism led to the overcommitment of U S security resources to the region The perceived need to preserve Middle East stability rendered U S policy ineffectual and unresponsive to changing local conditions drastically altering the patron client paradigm to the detriment of American strategic interests This superb analysis of American foreign policymaking illustrates how Cold War anticommunist ideology prevented the evolution of traditional military alliances into broader based relationships and perpetuated authoritarian regimes that mired the Middle East in a cycle of poverty and despotism *War Plans and Alliances in the Cold War* Vojtech Mastny,Sven S. Holtsmark,Andreas Wenger,2013-04-15 This essential new volume reviews the threat perceptions military doctrines and war plans of both the NATO alliance and the Warsaw Pact during the Cold War as well as the position of the neutrals from the post Cold War perspective Based on previously unknown archival evidence from both East and West the twelve essays in the book focus on the potential European battlefield rather than the strategic competition between the superpowers They present conclusions about the nature of the Soviet threat that could previously only be speculated about and analyze the interaction between military matters and politics in the alliance management on both sides with implications for the present crisis of the Western alliance This new book will be of much interest for students of the Cold War strategic history and international relations history as well as all military colleges

The Handbook of European Defence Policies and Armed Forces Hugo Meijer,Marco Wyss,2018 This volume provides the first geographically and thematically comprehensive study of the evolution and current state of the national security and defence policies strategies doctrines capabilities and military operations as well as the alliances and security partnerships of European armed forces *Unipolarity and the Evolution of America's Cold War Alliances* Nigel Thalakada,2012-05-04

Thalakada argues that the principal purpose of US alliances have shifted since the end of the Cold War from containing communist expansionism balance of power to preserving and exercising US power management of power He also looks across all US alliances highlighting the trend from regionally based to more globally active alliances **Research**

The Origins of Alliances Stephen M. Walt, 2013-08-10 The Origins of Alliances offers a different way of thinking about our security and thus about our diplomacy It ought to be read by anyone with a serious interest in understanding why our foreign policy is so often self defeating New Republic How are alliances made In this book Stephen M Walt makes a significant contribution to this topic surveying theories of the origins of international alliances and identifying the most important causes of security cooperation between states In addition he proposes a fundamental change in the present conceptions of alliance systems Contrary to traditional balance of power theories Walt shows that states form alliances not simply to balance power but in order to balance threats Walt begins by outlining five general hypotheses about the causes of alliances Drawing upon diplomatic history and a detailed study of alliance formation in the Middle East between 1955 and 1979 he demonstrates that states are more likely to join together against threats than they are to ally themselves with threatening powers Walt also examines the impact of ideology on alliance preferences and the role of foreign aid and transnational penetration His analysis shows however that these motives for alignment are relatively less important In his conclusion he examines the implications of balance of threat for U S foreign policy

Worse Than a Monolith Thomas J. Christensen, 2011-03-14 In brute force struggles for survival such as the two World Wars disorganization and divisions within an enemy alliance are to one's own advantage However most international security politics involve coercive diplomacy and negotiations short of all out war Worse Than a Monolith demonstrates that when states are engaged in coercive diplomacy combining threats and assurances to influence the behavior of real or potential adversaries divisions rivalries and lack of coordination within the opposing camp often make it more difficult to prevent the onset of conflict to prevent existing conflicts from escalating and to negotiate the end to those conflicts promptly Focusing on relations between the Communist and anti Communist alliances in Asia during the Cold War Thomas Christensen explores how internal divisions and lack of cohesion in the two alliances complicated and undercut coercive diplomacy by sending confusing signals about strength resolve and intent In the case of the Communist camp internal mistrust and rivalries catalyzed the movement's aggressiveness in ways that we would not have expected from a more cohesive movement under Moscow's clear control Reviewing newly available archival material Christensen examines

the instability in relations across the Asian Cold War divide and sheds new light on the Korean and Vietnam wars While recognizing clear differences between the Cold War and post Cold War environments he investigates how efforts to adjust burden sharing roles among the United States and its Asian security partners have complicated U S China security relations since the collapse of the Soviet Union The Weaker Voice and the Evolution of Asymmetric Alliances Andrea Leva,2023-10-24 Military alliances are a constant feature in international politics and a better understanding of them can directly impact world affairs This book examines why alliances endure or collapse As a distinctive feature it analyses asymmetric alliances focusing on the junior allies decision to continue or terminate a military agreement It deepens our knowledge of alliance cohesion and erosion investigating the relevance of the weaker side s preferences and behavior in alliance politics The author examines the literature on alliance persistence and termination and puts forward a theoretical model that helps interpret historical and contemporary cases in a way that is useful for expert researchers and non expert readers alike **Nuclear Weapons and the Atlantic Alliance** United States. Department of the Army,1965 **Alliance policy in the cold war. Ed. by Arnold Wolfers** ,1959 *A Companion to Dwight D. Eisenhower* Chester J. Czarny,2016-10-13 This book focuses on the Nordic countries through a European perspective and wishes to draw attention to their place in the new world order The volume emphasizes the specificity of their cooperation within the region itself as well as within the European Union and stresses the importance of the Nordic region as an area of possibilities and tangible chances resulting from the challenges of globalization The social cultural political and economic dimensions of these countries are characterized by cooperation among states their collaboration with other regional organizations and within international projects as well as exchange of viewpoints on the specificity of the current Norden issues The cooperation of the Nordic countries and their inhabitants as well as migrations between the Scandinavian states have been a trademark of the common and shared history of Norden **The future of NATO and European defence** Great Britain: Parliament: House of Commons: Defence Committee,2008-03-20 This report is presented prior to the

NATO Summit at Bucharest in April 2008 and examines the status of NATO in dealing with the security environment that exists in Europe today The situation in Afghanistan offers a key test of the strengths and failings of the NATO Alliance To bring stability and encourage development and reconstruction in this region requires a long term military and financial commitment on the part of the Alliance Failure in Afghanistan may diminish the effectiveness of NATO and undermine allied unity perhaps pushing the United States to question the purpose of NATO itself The Bucharest Summit will have to address a number of issues in respect of Afghanistan including the need to generate sufficient military forces to carry out operations NATO faces broader questions about its role and relevance in the 21st century and the Defence Committee believes it needs to launch a far reaching review of its strategic concept setting forth a future role and purpose NATO's willingness to fulfil a global role is critical to the continued support of the United States NATO has shortfalls across a range of specific military capabilities which are seen as compromising its ability to mount and sustain the expeditionary operations that underpin the Alliance The creation of the NATO Response Force is seen as representing a significant achievement but it needs to be financed out of NATO Common Funding The Committee states that NATO's biggest shortfall is a lack of political will where a large and growing gap exists between the United States and the European members in defence spending The Committee further states that the relationship between NATO and the EU is plagued by mistrust and characterised by unhealthy competition Improving communication and coordination between the two is seen as essential The Committee views NATO as indispensable to the Alliance

Alliances, Nuclear Weapons and Escalation Stephan Frühling, Andrew O'Neil, 2021-12-14 In an era of great power competition the role of alliances in managing escalation of conflict has acquired renewed importance Nuclear weapons remain the ultimate means for deterrence and controlling escalation and are central to US alliances in Europe and the Indo Pacific However allies themselves need to better prepare for managing escalation in an increasingly challenging geostrategic and technological environment for the US and its allies While the challenge of great power competition is acute at both ends of Eurasia adversary threats geography and the institutional context of US alliances differ This book brings together leading experts from Europe Northeast Asia the United States and Australia to focus on these challenges identify commonalities and differences across regions and pinpoint ways to collectively manage nuclear deterrence and potential escalation pathways in America's 21st century alliances Nuclear weapons play an important role in deterrence and preventing military conflict between great powers while also posing an existential threat to humanity It is vital that we have a nuanced understanding of this important challenge so that such weapons are never used This book offers many important perspectives and makes a significant contribution to the overall debate about these powerful weapons The Hon Julie Bishop Chancellor The Australian

National University Former Foreign Minister of Australia This timely book identifies a wide range of challenges US alliances both in the Indo Pacific and Euro Atlantic face as they seek to ensure the value of US extended deterrence particular the US nuclear umbrella against China and Russia This unique collection of chapters written by experts in US allies in both regions presents widely varying security perceptions and priorities To understand such differences is the key to globally strengthen the US alliance systems which are a significant advantage Washington enjoys over the two competitors Yukio Satoh former President of The Japan Institute of International Affairs JIIA This is a timely and thoughtful collection of essays that should serve to jumpstart public discussion and debate the absence of which is widely noted and much bemoaned Each contributor examines an aspect of the complicated multifaceted nuclear debate by discussing the range of dilemmas from deterrence to disarmament The various views set out here are more relevant than ever as Russia China and the United States flex their nuclear muscles in new and sometimes dangerous ways This book should be read by anyone interested in the preventing the use of nuclear weapons and understanding complexities of alliances in an increasingly dangerous world Madelyn Creedon former Principal Deputy Administrator of the US National Nuclear Security Administration and Assistant Secretary of Defense for Global Strategic Affairs
