Sharon MacDonald, Education Consultant. Create an inviting, high-quality early childhood classroom. Many excellent teachers find themselves bewildered when teaching three- to six-year-olds, especially if their professional preparation was focused on the elementary grades. In this updated edition of a classic teacher trainer, Dianne Miller Nielsen guides teachers through the basics from lesson planning and developing daily schedules to arranging furniture and managing classroom activities. The book also offers suggestions to enhance learning through modeling, purposeful interactions, and conversations. The variety of updated topics in *Teaching Young Children, Second Edition* include setting up and managing an ABC center to develop children's understanding of the alphabetic principle; setting up and managing a computer center to bring new technology into the classroom and extend literacy skills; involving parents and families inside and outside the classroom.
