paradigmatic formulations and bibliographic sources which is now being revised and updated as a resource for the expanding community of researchers on the subject of terrorism

Terrorism, Media, Liberation John David Slocum, 2005 Historical overview of terrorism and how it has been depicted in the media especially films and television In turn these depictions have shaped terrorist tactics and public reaction to terrorism Provided by publisher

The Psychology of Counter-Terrorism Andrew Silke, 2010-10-26 This edited book explores how psychology can be used to improve our understanding of terrorism and counterterrorism This work firstly aims to provide balanced and objective insight into the psychology of terrorists what their motivations are what keeps them involved in terrorist groups and what eventually forces most to end their active involvement in terrorism Secondly the contributors focus on the challenging issue of how to respond to terrorism These chapters provide information for those concerned with short term tactical problems e g interviewing as well as those looking towards the more long term strategic questions of bringing an entire terrorist campaign to an end Ultimately the individuals involved in terrorism require a more complex response from society than simply a quest for their apprehension Believing inaccurate and misleading characterizations leads inevitably to damaging policies and deficient outcomes and campaigns of violence are needlessly prolonged It is from this perspective that the concern arises with how researchers and the policy makers guided by them perceive the psychology of terrorists and of terrorism This innovative book will be of great interest to students of terrorism and counter terrorism security studies psychology and politics as well as security professionals and military colleges

Terrorism, War and International Law Myra Williamson, 2016-04-01 This book analyzes the legality of the use of force by the US the UK and their NATO allies against Afghanistan in 2001 The work challenges the main ground for resorting to force namely self defence under Article 51 of the United Nations Charter by examining each element of Article 51 that ought to have been satisfied in order to legitimise the use of force It also examines the wider context including comparable Security Council resolutions in historic situations as well as modern instances where force has been used such as against Iraq in 2003 and against Lebanon in 2006 As well as making the case against the legality of the use of force the book addresses wider questions such as the meaning of terrorism in international law the changing nature of conflict in the twentieth and twenty first centuries including the impact of non state actors and an overview of terrorism trends as well as the evolution of limitations on the resort to force from the League of Nations through to 2001 The book concludes with some insight into the possible future implications for the use of force by states particularly when force is purportedly justified on the grounds of self defence

The Routledge Handbook of Terrorism Research Alex Schmid, 2011-02-25 This major new Handbook synthesises more than two decades of scholarly research and provides a comprehensive overview of the field of terrorism studies The content of the Handbook is based on the responses to a questionnaire by nearly 100 experts from more than 20 countries as well as the specific expertise and experience of the volume editor and the various contributors Together they guide the reader through the voluminous literature on terrorism and propose a new consensus definition of

terrorism based on an extensive review of existing conceptualisations The work also features a large collection of typologies and surveys a wide range of theories of terrorism Additional chapters survey terrorist databases and provide a guide to available resources on terrorism in libraries and on the Internet It also includes the most comprehensive World Directory of Extremist Terrorist and other Organizations associated with Guerrilla Warfare Political Violence Protest and Organized and Cyber Crime The Routledge Handbook of Terrorism Research will be an essential work of reference for students and researchers of terrorism and political violence security studies criminology political science and international relations and of great interest to policymakers and professionals in the field of counter terrorism International Aviation and Terrorism

John Harrison, 2009-03-03 This book examines terrorism's impact on the international aviation security regime with a focus on the role of the United States Tracing the historical development of the international civil aviation system the volume examines how it has dealt with the evolving security environment caused by international terrorism It begins by exploring the practical implications of the debates over the meaning of terrorism and how the international civil aviation community developed practical solutions to avoid the debilitating debates over the concept while crafting important if weak international conventions As a major civil aviation power the United States was a predominant influence in security developments in the 1960s and 1970s yet US civil aviation policy failed to keep pace with the changing nature of the terrorist threat The commanding position that the United States maintains in international civil aviation provides a microcosm of the promise and perils faced by the world's sole superpower The author examines US efforts to upgrade civil aviation security in the wake of 9 11 and the impacts of these developments on the international civil aviation system The detailed discussion of terrorism past and present places the threat in its proper context for both the international civil aviation community and its largest individual actor the United States This book will be of much interest to students of terrorism aviation security international security and IR in general John Harrison is an Assistant Professor at the S Rajaratnam School of International Studies and Head of Terrorism Research at the International Center for Political Violence and Terrorism Research **Critical**

Terrorism Studies Richard Jackson, Marie Breen Smyth, Jeroen Gunning, 2009-02-05 In direct response to the growth of a critical perspective on contemporary issues of terrorism this edited volume brings together a number of leading scholars to debate the need for and the shape of the exciting new subfield of critical terrorism studies **Human Factors in Effective**

Counter-Terrorism Richard Warnes, 2024-02-29 This book seeks to provide a comparative assessment of the significance of human factors in effective counter terrorism The phrase human factors is used to describe personal relationships individual capabilities effective leadership technical interface organisational culture and the community engagement necessary to effectively minimise counter and control the threat of terrorism Unlike many works in the field this book is constructed around the input of experienced knowledge from over 170 semi structured interviews of specialist military policing intelligence and security practitioners those actors actually involved in countering terrorism These practitioners come from

seven countries the United Kingdom Ireland France Spain Israel Turkey and the United States all of which have suffered over the years from different types of terrorist threat and responded with a mixture of counter terrorist measures Where military practitioners also discussed overseas counter insurgency measures that material has been included since terrorism forms a key aspect of such wider insurgencies The resulting interview data was analysed through a variant of Grounded Theory to identify key emerging themes and issues both positive and negative relevant to human factors in the individual countries and more generically This book incorporates the informed operational experiences and insights of the interviewees while seeking to provide examples of successful counter terrorist measures at the strategic operational and tactical levels This book will be of much interest to students of counter terrorism defence studies and security studies in general Root Causes of Suicide
