Social Meanings of News Daniel A. Berkowitz,1997-03-05 What is news and why does it turn out the way it does These questions are addressed in this Reader Classic news studies representing several methodologies and approaches are presented to guide students in their initial exploration into the topics Berkowitz provides an orientation for a social approach to studying news departing from the premise that news is a human construction that gains its characteristics through the social world from which it emerges The first section of readings introduces a theoretical background for analyzing the sections that follow Each of the eight sections are clearly and concisely introduced by Berkowitz enabling students to interpret the salient points from and implications of representative articles in the field

Rabbis, Reporters and the Public in the Digital Holyland Yoel Cohen,2023-12-21 Focused on the triangular relationship between rabbis journalists and the public this book analyses each group s role in influencing the agenda around religion in Israel The book draws upon the author s original research comprising an analysis of the coverage of religion on four Israeli news websites a series of surveys of rabbis journalists and the public as well as a large number of interviews conducted with a range of stakeholders community rabbis teacher rabbis and religious court judges reporters editors and spokespersons and the Israeli Jewish public

Key questions include What are rabbis philosophical views of the media How does the media define news about Judaism What aspect of news about religion and spirituality interest the public How do spokespersons and rabbis influence the news agenda How is the triangular relationship between rabbis journalists and the public being altered by the digital age Despite a lack of understanding about mass media behaviour among many rabbis and concurrently a lack of knowledge about religion among many journalists it is argued that there is shared interest between the two groups both in support of mass media values like the right to know and freedom of expression It is further argued that the public s attitude to news about religion is significant in determining what journalists should publish The book will be of interest to those studying mass communications the media Judaism and Israeli society as well as researchers of media and religion *Choice* ,1981 **Covering the Body** Barbie Zelizer,1992 Covering the Body the title refers to the charge given journalists to follow a president is a powerful reassessment of the media s role in shaping our collective memory of the assassination at the same time as it used the assassination coverage to legitimize its own role as official interpreter of American reality Of the more than fifty reporters covering Kennedy in Dallas no one actually saw the assassination And faced with a monumentally important story that was continuously breaking most journalists had no time to verify leads or substantiate reports Rather they took discrete moments of their stories and turned them into one coherent narrative blurring what was and was not professional about their coverage

Mass Communication, an Introduction John R. Bittner,1983 **Books in Series** ,1985 Vols for 1980 issued in three parts Series Authors and Titles **Communications in the Twenty-first Century** Colgate Darden Graduate School of Business Administration,Annenberg School of Communications (University of Pennsylvania),Annenberg School of Communications (University of Southern California),1981 Conference papers from a symposium held at the Philip Morris Manufacturing Center Richmond Virginia Spring 1981 **Propaganda and Persuasion** Garth S. Jowett,Victoria O'Donnell,1986-11 Jowett and O Donnell examine propaganda and persuasion from a communication perspective They aim to provide the basis for a value free evaluation of the role of propaganda in contemporary society Their approach isolates the communicative variables of the propagandistic message determines the relationship of the message to its context examines the responses and responsibilities of the audience and traces the development of propagandistic communication as a process

Communication and Education Gavriel Salomon,1981-11 Noted researcher and scholar Gavriel Salomon sheds new light on the complex relationship between education and communication His intriguing analysis is based on the unconventional theory that communication is reciprocally interactive He offers illuminating examples of how expectations values and moods alter perceptions and affect learning patterns Communication and Education is an extraordinarily interesting and insightful book that makes a very significant contribution to a neglected area of endeavor Educational Technology Spring 1982 This knack of Salomon s for provoking thought discourse and argumentation is one I value highly Journal of Communication Spring 1983 **The Politics of TV Violence** Willard D. Rowland,1983-04 Reviews the findings of communication research

on the effects of television on violent behaviour and the history of the use of this information in policy making To what political use has violence research been put What impact has it had on politics The interactions of federal communication policy the broadcasting industry public or citizens interest groups and the communication research community are described The rise of TV violence as an issue is documented in the context of the rise of social science as a policy making resource Rowland uses hearings records and reports of congressional committees and national commissions to reveal the patterns of argument and shared assumptions and the structure of interactions among groups and institutions These records are also part of our rituals of social self examination Rowland s approach rises out of the tradition of critical cultural studies with its emphasis on history and symbolic analysis His book finally is about the symbolic uses to which communication research indeed social science is put to alleviate contemporary tensions and unease

Handbook of Political Communication Dan D. Nimmo, Keith R. Sanders, 1981-12-01 What role does mass communication play in shaping public opinion Why is advertising so effective as a means of political persuasion How have technical advances in communication altered the processes of policy and decision making The massive 28 chapter Handbook of Political Communication addresses these and other questions in this evolving field It is the first book to comprehensively address the origins future potential and findings of the field This book is without pretense a scholarly work and it uses scholarly approaches to the entire field of political communication As Ed McMahon might say EVERYTHING you would ever want to know about political communication is here in this one volume You are right en

Children Communicating Ellen Wartella, 1979-02-01 A collection of essays on how children relate to each other how they interact with the media how their cognitive skills are affected by television and how they understand television narrative Contributors also examine differences in understanding and communicative skills between children of different ages and between children and adults Over all Children Communicating is a solid book the collection is rich in the variety of perspectives it brings together and the array of ideas that it stimulates It quite clearly demonstrates just how valuable to communication research the utilization of a developmental perspective can be Journal of Communication Spring 1980

Media Information Australia, 1982

The Main Source John P. Robinson, Mark R. Levy, 1986 The authors effectively challenge the myth that the public gets most of its news from television In a wide ranging study with European and US data they conclude that television is not the public s main source for news The Main Source uses innovative survey techniques to show that public understanding of news information is considerably higher than previous research has found and that television news presentation could be far more effective

Media Imperialism Reconsidered Chin-Chuan Lee, 1980-08 Lee contrasts the media imperialism view with the liberal free flow of information view of the international effects of mass media by making studies of television in Canada Taiwan and the People s Republic of China deserves a central place in any course dealing with international communication or with the societal effects of mass communication Journalism Quarterly Vol 58 No 2 Summer 1981 It is a very impressive piece of work which has the potential of being an outstanding

contribution to the literature There is no question it is first rate Muriel G Cantor In both conception and conclusions Lee s
book provides reassuring evidence that empirical research really pays *Monographic Series* Library of Congress,
