Knickerbocker,2017-03-15 Young adults are actively looking for anything that connects them with the changes happening in their lives and the books discussed throughout Literature for Young Adults have the potential to make that connection and motivate them to read It explores a great variety of works genres and formats but it places special emphasis on contemporary works whose nontraditional themes protagonists and literary conventions make them well suited to young adult readers It also looks at the ways in which contemporary readers access and share the works they re reading and it shows teachers ways to incorporate nontraditional ways of accessing and sharing books throughout their literature programs In addition to traditional genre chapters Literature for Young Adults includes chapters on literary nonfiction poetry short stories and drama cover art picture books illustrated literature and graphic novels and film It recognizes that while

films can be used to complement print literature they are also a literacy format in their own right and one that young adults are particularly familiar and comfortable with The book s discussion of literary language including traditional elements as well as metafictional terms enables readers to share in a literary conversation with their students and others when communicating about books It will help readers teach young adults the language they need to articulate their responses to the books they are reading

Fostering on the Farm Megan Birk,2015-06-15 From 1870 until after World War I reformers led an effort to

place children from orphanages asylums and children's homes with farming families The farmers received free labor in return for providing room and board Reformers meanwhile believed children learned lessons in family life citizenry and work habits that institutions simply could not provide Drawing on institution records correspondence from children and placement families and state reports Megan Birk scrutinizes how the farm system developed and how the children involved may have become some of America's last indentured laborers Between 1850 and 1900 up to one third of farm homes contained children from outside the family Birk reveals how the nostalgia attached to misplaced perceptions about healthy family based labor masked the realities of abuse overwork and loveless upbringings endemic in the system She also considers how rural people cared for their own children while being bombarded with dependents from elsewhere Finally Birk traces how the ills associated with rural placement eventually forced reformers to transition to a system of paid foster care adoptions and family preservation

Cultural Orphans in America Diana Loercher Pazicky, 2008-10-01 Images of orphanhood have pervaded American fiction since the colonial period Common in British literature the orphan figure in American texts serves a unique cultural purpose representing marginalized racial ethnic and religious groups that have been scapegoated by the dominant culture Among these groups are the Native Americans the African Americans immigrants and Catholics In keeping with their ideological function images of orphanhood occur within the context of family metaphors in which children represent those who belong to the family or the dominant culture and orphans represent those who are excluded from it In short the family as an institution provides the symbolic stage on which the drama of American identity formation is played out Applying aspects of psychoanalytic theory that pertain to identity formation specifically Ren Girard's theory of the scapegoat *Cultural Orphans in America* examines the orphan trope in early American texts and the antebellum nineteenth century American novel as a reaction to the social upheaval and internal tensions generated by three major episodes in American history the Great Migration the American Revolution and the rise of the republic In Puritan religious texts and Anne Bradstreet's poetry orphan imagery expresses the doubt and uncertainty that shrouded the mission to the New World During the Revolutionary and post Revolutionary periods the separation of the colony from England inspired an identification with orphanhood in Thomas Paine's writings and novels by Charles Brockden Brown and James Fenimore Cooper encode in orphan imagery the distinction between Native Americans and the new Americans who have usurped their position as children of the land In women's sentimental fiction of the 1850s images of orphanhood mirror class and ethnic conflict and *Uncle Tom's Cabin* like
