of the self The activities are selected first because they are fun The second premise have as many children as active as possible at one time This was accomplished through the use of small group games stations and circuits The third premise all children will be treated fairly and affirmatively All children are the leaders all children get to be the taggers all children get to have a turn and all children have an equal opportunity to learn the fundamentals in all areas taught The fourth premise to teach children to compete to practice to persevere The concept of doing the best you can and respecting yourself and others is a necessary thing to teach The fifth premise to teach the children how to cooperate together The big question is this If we call children names or make fun of them will they perform better or worse in the activity We learn to share and help each other in all of our activities The activities are based on ten years of experience teaching beginning skills and games The children decided what activities should be included in this book It is packed full of the things they like to do LET THE CHILDREN PLAY is a compilation of activities that work with average normal children and is useful to the classroom teacher as well as the specialist
