Inventing the Alphabet Johanna Drucker, 2022-08-08 The first comprehensive intellectual history of alphabet studies Inventing the Alphabet provides the first account of two and a half millennia of scholarship on the alphabet Drawing on decades of research Johanna Drucker dives into sometimes obscure and esoteric references dispelling myths and identifying a pantheon of little known scholars who contributed to our modern understandings of the alphabet one of the most important inventions in human history Beginning with Biblical tales and accounts from antiquity Drucker traces the transmission of ancient Greek thinking about the alphabet s origin and debates about how Moses learned to read The book moves through the centuries finishing with contemporary concepts of the letters in alpha numeric code used for global communication systems Along the way we learn about magical and angelic alphabets antique inscriptions on coins and artifacts and the comparative tables of scripts that continue through the development of modern fields of archaeology and paleography This is the first book to chronicle the story of the intellectual history through which the alphabet has been invented as an object of scholarship

The Alphabet of Discord Giustina Selvelli, 2021-10-20 What is the relationship between writing systems and nationalism How can different alphabets coexist in the same country What is the destiny of the Cyrillic alphabet in Europe Giustina Selvelli s original work provides detailed answers to these far reaching and potentially divisive questions and many more by examining several intriguing debates on topics of alphabets and national identity in a number of countries from the Balkan area over the course of the last 100 years Following an encompassing perspective on alphabetic diversity Selvelli an expert on Southeast European Studies reconstructs the ideological context of national discourses connected to the Latin and Cyrillic alphabets also taking a look at the Arabic and Glagolitic scripts and interweaving issues on the symbolism of the alphabet with the complex recent history of the region marked by the parallel influences of the East and the West She also sheds light on the impact of a range of alphabet policies on ethnolinguistic minorities proposing a new definition of alphabetic rights with special regard to the multiethnic legacy of the former Ottoman and Habsburg empires This comprehensive book makes us discover the privileged role that writing systems played in the region s delicate post imperial and post socialist transitions leaving us captivated by peculiar stories such as that of the utopian Yugoslav alphabet

Textual Practice Various, 1997-03-13 In this issue some of the most influential critics in the field encounter their colleagues in debate A sad tale s best for South Africa Martin Orkin Shakespeare and Hanekom King Lear and land Nicholas Visser Questioning Robert Young s post colonial criticism Laura Chrisman

't Hart, Joost Jonker, Jan Luiten van Zanden, 1997-09-11 Overview of the financial history of the Netherlands from the sixteenth century onwards James Merrill, Postmodern Magus Evans Lansing Smith, 2008-09 One of the unique voices in our century James Merrill was known for his mastery of prosody his ability to write books that were not just collected poems but unified works in which each individual poem contributed to the whole and his astonishing evolution from the formalist lyric tradition that influenced his early work to the spiritual epics of his later career Merrill's accomplishments were recognized with a Pulitzer Prize in 1977 for *Divine Comedies* and a National Book Critics Circle Award in 1983 for *The Changing Light at Sandover* In this meticulously researched carefully argued work Evans Lansing Smith argues that the nekylia the circular Homeric narrative describing the descent into the underworld and reemergence in the same or similar place confers shape and significance upon the entirety of James Merrill's poetry Smith illustrates how pervasive this myth is in Merrill's work not just in *The Changing Light at Sandover* where it naturally serves as the central premise of the entire trilogy but in all of the poet's books before and after that central text By focusing on the details of versification and prosody Smith demonstrates the ingenious fusion of form and content that distinguishes Merrill as a poet Moving beyond purely

literary interpretations of the poetry Smith illuminates the numerous allusions to music art theology philosophy religion and mythology found throughout Merrill's work

The Story of A Patricia Crain, 2000 Richly illustrated with often antique images from alphabet books and primers The Story of A relates the history of the alphabet as a genre of text for children and of alphabetization as a social practice in America from early modern reading primers to the literature of the American Renaissance Offering a poetics of alphabetization and explicating the alphabet's tropes and rhetorical strategies the author demonstrates the far reaching cultural power of such apparently neutral statements as A is for apple The new market for children's books in the eighteenth century established for the republic of ABC a cultural potency equivalent to its high culture counterpart the republic of letters while shaping its child readers into consumers As a central rite of socialization alphabetization schooled children to conflicting expectations as well as to changing models of authority understandings of the world and uses of literature In the nineteenth century literacy became a crucial aspect of American middle class personality and subjectivity Furnishing the readers and writers needed for a national literature the alphabetization of America between 1800 and 1850 informed the sentimental reform novel as well as the self consciously aesthetic novel of the 1850s Through readings of conduct manuals reading primers and a sentimental bestseller the author shows how the alphabet became embedded in a maternal narrative which organized the world through domestic affections Nathaniel Hawthorne by contrast insisted on the artificiality of the alphabet and its practices in his antimimetic hermetic The Scarlet Letter with its insistent focus on the letter A By understanding this novel as part of the network of alphabetization The Story of A accounts for its uniquely persistent cultural role The author concludes in an epilogue with a reading of postmodern alphabets and their implications for the future of literacy

Poetics of Cognition Jessica Lewis Luck, 2023-08-14 Poetics of Cognition investigates the material effects of experimental poetics using new evidence emerging from cognitive science It asks How do experimental poems think and how do we think through them Examining experimental modes such as the New Sentence proceduralism projective verse sound poetry and visual poetry Jessica Lewis Luck argues that

experimental poems materialize not so much the content as the activity of the embodied mind and they can thus function as a powerful scaffolding for extended cognition both for the writer and the reader While current critical approaches tend to describe the effects of experimentalism solely in terms of emotion and sensation Luck shifts from the feeling to the thinking that these poems can generate expanding the potential blast radius of experimental poetic effects into areas of linguistic sonic and visual processing and revealing a transformational potency that strictly affective approaches miss The cognitive research Luck draws upon suggests that the strangeness of experimental poetry can reshape the activity of the reader's mind creating new forms of attention perception and cognition This book closes by shifting from theory to praxis extracting forms of teaching from the forms of thinking that experimental poems instill in order to better enable their transformative effects in readers and to bring poetry pedagogy into the twenty first century

"Sefer Yeṣirah" and Its Contexts Tzahi Weiss, 2018-04-13 Sefer Ye irah or Book of Formation is one of the most influential Jewish compositions of late antiquity First attested to in the tenth century C E and attributed by some to the patriarch Abraham himself Sefer Ye irah claims that the world was created by the powers of the decimal number system and the twenty two letters of the Hebrew alphabet This short enigmatic treatise was considered canonical by Jewish philosophers and Kabbalists and has fascinated Western thinkers and writers as diverse as Leibnitz and Borges Nonetheless Sefer Yesirah is nearly impossible to contextualize mainly owing to its unique style and the fact that it does not refer to nor is it referenced by any other source in late antiquity After a century and a half of modern scholarship the most fundamental questions regarding its origins remain contested Who wrote Sefer Ye irah Where and when was it written What was its original version What is the meaning of this treatise In Sefer Ye irah and Its Contexts Tzahi Weiss explores anew the history of this enigmatic work Through careful scrutiny of the text s evolution he traces its origins to the seventh century C E to Jews who lived far from rabbinic circles and were familiar with the teachings of Syriac Christianity In addition he examines the reception of Sefer Ye irah by anonymous commentators and laypeople who as early as the twelfth century C E regarded Sefer Ye irah as a mystical mythical or magical treatise thus significantly differing from the common rabbinic view in that period of the text as a philosophical and scientific work Examined against the backdrop of this newly sketched historical context Sefer Ye irah provides a unique and surprising aperture to little known Jewish intellectual traditions of late antiquity and the early Middle Ages which despite their distance from the rabbinic canon played a vital role in the development of medieval Jewish learning and culture

The Sound of Writing Christopher Cannon, Steven Justice, 2023-11-14 An interdisciplinary exploration of how writers have conveyed sound through text Edited by Christopher Cannon and Steven Justice The Sound of Writing explores the devices and techniques that writers have used to represent sound and how they have changed over time Contributors consider how writing has channeled sounds as varied as the human voice and the buzzing of bees using not only alphabets but also the resources of the visual and musical arts Cannon and Justice have assembled a constellation of classicists medievalists modernists literary historians and musicologists to trace the sound of writing from the beginning of the Western record to poetry written in the last century This rich series of essays considers the writings of Sappho Simonides Alldhem Marcabru Dante Alighieri William Langland Charles Butler Tennyson Gertrude Stein and T S Eliot as well as poems and songs in Ancient Greek Old and Middle English Italian Old French Occitan and modern English The book will interest anyone curious about the way sound has been preserved in the past and the kinds of ingenuity that can recover the process of that preservation Essays focus on questions of language and expression and each contributor sets out a distinct method for understanding the relationship between sound and writing Cannon and Justice open the volume with a survey of the various ways sound has been understood as the object of our senses Each ensuing

chapter presents a case study for a sonic phenomenology at a specific time in history With approaches from a wide variety of disciplines The Sound of Writing analyzes writing systems and the aural dimensions of literary cultures to reconstruct historical soundscapes in vivid ways

Poetic Language and Religion in Greece and Rome J. Virgilio García,Angel Ruiz,2014-01-08 This volume contains twenty five contributions adapted from papers presented at the International Conference on Poetic Language and Religion in Greece and Rome held at the University of Santiago de Compostela on 31st May 1st June 2012 The book fulfils two principal aims to highlight the impulse and continuity of a research field that combines Indo European and Classical Studies which has generally been recognised for several decades as a very fruitful collaboration and to provide the academic community with the current results of one of the most important topics of Classical Studies The first part of the book focuses on the Indo European tradition tracking its remnants particularly in the Classical languages The Indo European poetic tradition can be traced through linguistic reconstruction formulae onomastics and some scattered mentions in literary texts In the second part the focus is placed on the poetic language in Greece and Rome The rich and complex tradition of Classical literatures makes a clear cut description of the inherited or innovative aspects of the religious and literary development more problematical Ritual or cultic poetry onomastics phraseology paeans and hymns oracles as divine language and magic all receive deep and thorough treatment from a reliable ensemble of scholars
