Alport Mark Garnett,1999 Ideologies of Conservatism E. H. H. Green,2002 This work charts developments in the nature of conservative political thought and the meaning of conservatism throughout the 20th century It explores the ideology of the Conservative Party from the Edwardian certainties of Balfour to the present day The Conservatives Since 1945 Tim Bale,2012-09-20 The Conservatives since 1945 is about how and why parties in general and the Conservative Party in particular make changes to the face they present to the electorate the way they organize themselves and the policies they come up with This is an in depth but comprehensive study based on original archival sources **Who Killed**

Hammaraskjold? Susan Williams,2014-08-15 One of the outstanding mysteries of the twentieth century and one with huge political resonance is the death of Dag Hammarskjold and his UN team in a plane crash in central Africa in 1961 Just minutes after midnight his aircraft plunged into thick forest in the British colony of Northern Rhodesia Zambia abruptly ending his mission to bring peace to the Congo Across the world many suspected sabotage accusing the multi nationals and the governments of Britain Belgium the USA and South Africa of involvement in the disaster These suspicions have never gone away British High Commissioner Lord Alport was waiting at the airport when the aircraft crashed nearby He bizarrely insisted to the airport management that Hammaraskjold had flown elsewhere even though his aircraft was reported overhead This postponed a search for so long that the wreckage of the plane was not found for fifteen hours White mercenaries were at the airport that night too including the South African pilot Jerry Puren whose bombing of Congolese villages led in his own words to flaming huts destruction and death These soldiers of fortune were backed by Sir Roy Welensky Prime Minister of the Rhodesian Federation who was ready to stop at nothing to maintain white rule and thought the United Nations was synonymous with the Nazis The Rhodesian government conducted an official inquiry which blamed pilot error But as this book will show it was a massive cover up that suppressed and dismissed a mass of crucial evidence especially that of African eye witnesses A subsequent UN inquiry was unable to rule out foul play but had no access to the evidence to show how and

why Now for the first time this story can be told Who Killed Hammarskjold follows the author on her intriguing and often frightening journey of research to Zambia South Africa the USA Sweden Norway Britain France and Belgium where she unearthed a mass of new and hitherto secret documentary and photographic evidence At the heart of this book is Hammarskjold himself a courageous and complex idealist who sought to shield the newly independent nations of the world from the predatory instincts of the Great Powers It reveals that the conflict in the Congo was driven not so much by internal divisions as by the Cold War and by the West's determination to keep real power from the hands of the post colonial governments of Africa It shows too that the British settlers of Rhodesia would maintain white minority rule at all costs

Keith Joseph Andrew Denham, Mark Garnett, 2014-12-18 Hailed by Margaret Thatcher as the founder of modern conservatism Keith Joseph is commonly ranked among the most influential politicians of the late 20th century A complex and enigmatic figure Joseph was almost unique among Mrs Thatcher's senior ministers in refusing to write his own memoirs Challenging both the mad monk view held by his critics and his status of mythical hero to his admirers the authors present a picture of Joseph as a thinker and decision maker the authors tell of Joseph's formative years before he entered Parliament in 1956 the powerful Jewish dynasty into which Joseph was born his time at Harrow at Oxford his war years in the Royal Artillery and his Fellowship at All Souls This volume charts the political career of Keith Joseph The authors challenge Joseph's self declared conversion to Conservatism in 1974 and the importance of his education of Margaret Thatcher His own ambition intellectual integrity and consistency are all examined and a different picture emerges of his role as the intellectual driving force behind Conservative Government policy in the 1980s *The Conservatives in crisis* Mark Garnett, Philip Lynch, 2018-07-30 This electronic version has been made available under a Creative Commons BY NC ND open access license The Conservative Party's survival as a significant political force was now open to serious question for the first time since the crisis over the Corn Laws The Labour Party has commanded a fairly consistent level of attention whether in office or in opposition But it seems that the Conservatives are fated to be regarded either as unavoidable or irrelevant This book presents an analysis that suggests that the party leader plays a less important role in Conservative recoveries than a distinctive policy programme and an effective party organization It examines the Conservative position on a series of key issues highlighting the difficult dilemmas which confronted the party after 1997 notably on economic policy New Labour's acceptance of much of the main thrust of Thatcherite economic policy threw the Conservatives off balance The pragmatism of this new position and the In Europe not run by Europe platform masked a significant move towards Euro skepticism The book also traces how the Scottish Conservative and Unionist Parties adapted to the creation of the Scottish Parliament exploring the re organisation of the Scottish party its electoral fortunes and political prospects in the new Scottish politics It examines issues of identity and nationhood in Conservative politics in the 1997 2001 period focusing on the English Question and the politics of race The predictable results of the Conservatives failure to develop an attractive consistent narrative are then

analysed Right wing populist parties with charismatic leaders enjoyed some electoral success under the proportional representation systems in 2002 Training minds for the war of ideas Clarisse Berthezène,2024-06-04 This book examines attempts by the Conservative party in the interwar years to capture the brains of the new electorate and create a counter culture to what they saw as the intellectual hegemony of the Left It tells the fascinating story of the Bonar Law Memorial College Ashridge founded in 1929 as a College of citizenship to provide political education through both teaching and publications The College aimed at creating Conservative Fabians who were to publish and disseminate Conservative literature which meant not only explicitly political works but literary historical and cultural work that carried implicit Conservative messages This book modifies our understanding of the history of the Conservative party and popular Conservatism but also more generally of the history of intellectual debate in Britain It sheds new light on the history of the middlebrow and how that category became a weapon for the Conservatives **Central Africa** University of London: Institute of Commonwealth Studies,2005-11-11 The main purpose of the British Documents on the End of Empire Project BDEEP is to publish documents from British official archives on the ending of colonial rule and the context in which this took place This publication is the second part of a two volume set ISBN 0112905889 which traces British policy towards Northern Rhodesia Zambia Southern Rhodesia Zimbabwe and Nyasaland Malawi from the end of the Second World War to the unilateral declaration of independence UDI by Southern Rhodesia in 1965 including the role of the Central African Federation This publication contains documents from the years 1959 to 1965 *Selections from the Correspondence of Percy Alport Molteno, 1892-1914* Percy Alport Molteno,1981 *Oxford Dictionary of National Biography: Daly-Dewar* Henry Colin Gray Matthew,Brian Harrison,Brian Howard Harrison,2004 55 000 biographies of people who shaped the history of the British Isles and beyond from the earliest times to the year 2002 *Oxford Dictionary of National Biography* British Academy,2004-09-23 55 000 biographies of people who shaped the history of the British Isles and beyond from the earliest times to the year 2002 *Considering Conservative Women in the Gendering of Modern British Politics* Clarisse Berthezène,Julie V. suffrage in 2018 and Astor 100 in 2019 has done much to excite wider attention and public interest in these debates However the role of Conservative women has too often been seen as problematic especially because of general assumption that feminism is only allied to leftist movements and political positions This volume explores these themes through a range of case studies covering the period from the early 20th to the 21st century The chapters in this book were originally published as a special issue of the journal *Women's History Review*

Man of the Century John Ramsden, 2002 A biographical study of Winston Churchill's post war fame and reputation what he was thought to stand for and how that reputation was constructed The book examines how Churchill's personality attitudes and vision of himself have affected our own political perception of ourselves as a nation and argues that his romantic imperial notion of Britain has contributed directly to many of the political debates of recent years particularly our attitudes in Europe

Labour orators from Bevan to Miliband Andrew S. Recovering Power Anthony Seldon, 2005-04-01 The Conservative Party's periods in opposition have been of crucial importance They have seen major changes in direction and often been the springboard for recovering power There have also been leadership crises and bitter divisions and recovery was never inevitable In the first study to examine the topic as a whole leading authorities present new evidence and interpretations The book makes a significant contribution to our understanding of the Conservative Party and of opposition in modern British politics

With Respect, Minister Brian Unwin, 2016-12-18 How have the workings of the British civil service changed over the past forty years In this new memoir Sir Brian Unwin discloses his veritable wealth of experience behind the scenes of British government His reflections chart a course from his education at Oxford and Yale through to a seven year stint as President of the European Investment Bank On the way his vivid and diverse career spanned diplomatic posts in Ghana and Southern Rhodesia time at the Treasury and the chairmanship of HM Customs and Excise Including a first hand eyewitness account of the air crash that killed UN Dag Hammarskjöld these memoirs encounter some of the most iconic moments and personalities of late 20th century politics Over the course of his career Unwin has attained an understanding of the finer details of British government like few others

at once nostalgic personal and deeply knowledgeable his memoirs shed light on the inner workings of Whitehall British Conservatism Peter Dorey, 2010-10-30 Defence of inequality has always been a core principle of the Conservative Party in Great Britain Yet the Conservatives have enjoyed great electoral success in a British society marked by widespread inequalities of wealth and income Peter Dorey here examines the intellectual and political arguments which Conservatives use to justify inequality He also considers debates between Conservatives over how much inequality is desirable or acceptable Should inequality be unlimited in order to promote liberty incentives and rewards Or should inequality be kept within certain bounds to prevent social breakdown and political upheaval Finally he examines why some less prosperous sections of British society have nonetheless supported the Conservatives instead of political parties promoting equality This book will be an important resource for students and commentators of contemporary British politics Conservative thinkers Mark Garnett, Kevin Hickson, 2013-07-19 This book outlines and evaluates the political thought of the Conservative Party through a detailed examination of its principal thinkers from Harold Macmillan to the present Traditionally the Conservative Party has been regarded as a vote gathering machine rather than a vehicle for ideas This book redresses the balance through a series of biographical essays examining the thought of those who have contributed most to the development of ideas within the party The chapters benefit from archival research and interviews with leading Conservatives The recent revival of Conservative fortunes makes the book particularly timely The book begins with an introductory chapter explaining the role of ideology in the Conservative Party It then traces the political thought of the Conservative Party through its principal theorists since the 1930s These are Harold Macmillan R A Butler Quintin Hogg Enoch Powell Angus Maude Keith Joseph the traditionalists Maurice Cowling T E Peter Utley Peregrine Worsthorne Shirley Letwin and Roger Scruton Ian Gilmour John Redwood and David Willetts The book concludes with an overall assessment of the political thought of the Conservative Party and the relevance of past debates for contemporary Conservatism The book will be of considerable interest to academics and non academics alike for those who have a special interest in the Conservative Party but also for any student of contemporary British Politics
