Alta California:

Exterminate Them Clifford E. Trafzer, Joel R. Hyer, 1999-01-31 Popular media depict miners as a rough and tumble lot who diligently worked the placers along scenic rushing rivers while living in roaring mining camps in the foothills of the Sierra Nevada Mountains Trafzer and Hyer destroy this mythic image by offering a collection of original newspaper articles that describe in detail the murder rape and enslavement perpetrated by those who participated in the infamous gold rush It is a mercy to the Red Devils wrote an editor of the Chico Courier to exterminate them Newspaper accounts of the era depict both the barbarity and the nobility in human nature but while some protested the inhumane treatment of Native Americans they were not able to end the violence Native Americans fought back resisting the invasion but they could not stop the tide of white miners and settlers They became strangers in a stolen land *The Conflict Between the California Indian and White Civilization* Sherburne Friend Cook, 1976-01-01 California Through Russian Eyes, 1806-1848 James R. Gibson, 2013-10-23 In the early nineteenth century Russia established a colony in California that lasted until the Russian American Company sold Fort Ross and Bodega Bay to John Sutter in 1841 This annotated collection of Russian accounts of Alta California many of them translated here into English from Russian for the first time presents richly detailed impressions by visiting Russian mariners scientists and Russian American Company officials regarding the environment people economy and politics of the province Gathered from Russian archival collections and obscure journals these testimonies represent a major contribution to the little known history of Russian America Well educated and curious the visiting Russians were acute observers generous in their appreciation of Hispanic hospitality but outspoken in their criticisms of all they found backward or abhorrent In the various reports and reminiscences contained within this volume they make astute observations of both Hispanic and Native inhabitants describing the Catholic missions with their devout friars and neophyte workers the corruptible Franciscan missionaries the sorry plight of mission Indians the Californios themselves whose religion language dwellings cuisine dress and pastimes were novel to the Russians the economic and social changes in Alta California following Mexican independence and the schemes of American traders and settlers to draw the province into the United States Amplified by James R Gibson's informative annotations and featuring a gallery of elegant color illustrations this unique volume casts new light on the history of Spanish and Mexican California **The Conflict Between the California Indian and White Civilization** Sherburne F. Cook, 2023-07-28 *The Conflict Between the California Indian and White Civilization* presents six groundbreaking essays by Sherburne Cook originally published in the 1940s which transformed the study of California's Native populations and their interactions with European settlers Employing a biologist's analytical rigor Cook approached historical records as if observing a population in a controlled experiment systematically examining the reactions of indigenous communities to the disruptive influences of missionization secularization and Anglo American settlement Through meticulous statistical analysis of mission punishment records food distribution and settlers treatment of Native peoples Cook revealed a sobering narrative

of systemic exploitation and destruction These essays not only challenged the romanticized views of Franciscan missions but also highlighted the devastating impact of Anglo American policies igniting passionate debates upon their release This reissued collection is a timeless contribution to California history and anthropology widely recognized for its pioneering methodologies and transformative insights By placing Cook s earlier works on population trends and dietary adaptation alongside his later essays on Indian white relations this edition offers a comprehensive look at his evolving perspectives A seminal work in the field of ethnohistory it continues to inform and inspire new generations of scholars shedding light on the profound consequences of cultural conflict in California s past This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1976 Federal Justice in California Christian G. Fritz,1991-01-01 For forty years Ogden Hoffman presided over the federal district court for the Northern District of California disposing of more than nineteen thousand cases brought before him Federal Justice in California The Court of Ogden Hoffman 1851 1891 considers a career remarkable for longevity and productivity and at the same time examines the operation of a federal trial court in nineteenth century America the cases adjudicated their significance and the court s impact upon the community Solidly researched Christian G Fritz s book is unique in attending to the law on the level at which it was most often encountered by participants in legal actions During his four decades on the bench from the time of the California gold rush to the anti Chinese movement of the 1880s Hoffman dealt one on one with a cross section of humanity through his court came sea captains seamen seeking their wages wealthy steamship owners and distraught and injured passengers and Chinese immigrants Fritz shows him adjudicating land grant conflicts and bankruptcy cases and presiding over the admiralty criminal and common law and equity dockets The author has examined thousands of Hoffman s cases to gain insight into how nineteenth century federal trial courts were used by whom and with what effect The successful use that a broad range of plaintiffs made of Hoffman s court requires a re examination of theories suggesting that law of the period primarily developed and courts largely operated in ways that promoted commercial and entrepreneurial interest Just as important Fritz s sensitive analysis of an institution never loses sight of the proud life long bachelor native New Yorker and scion of adistinguished family who always identified himself with his court Christian G Fritz is a professor of law at the University of New Mexico **Mission San Fernando Rey de España** Jacqueline Ching,2003-12-15 Discusses the founding building operation closing and restoration of the Spanish mission in San Fernando and its role in California history **Bloody Bay** Darren A. Raspa,2020 Bloody Bay recounts the gritty history of law enforcement in San Francisco Beginning just before the California gold rush and through the six decades leading up to the twentieth century a culture of popular justice and grassroots community peacekeeping was fostered This policing environment was forged in the hinterland

mining camps of the 1840s molded in the 1851 and 1856 civilian vigilante policing movements refined in the 1877 joint police and civilian Committee of Safety and perfected by the Chinatown Squad experiment of the late nineteenth century From the American takeover of California in 1846 during the U S Mexico War to Police Commissioner Jesse B Cook s nationwide law enforcement advisory tour in 1912 and San Francisco s debut as the jewel of a new American Pacific world during the Panama Pacific International Exposition in 1915 San Francisco s culture of popular justice its multiethnic environment and the unique relationships built between informal and formal policing created a more progressive policing environment than anywhere else in the nation Originally an isolated gold rush boomtown on the margins of a young nation San Francisco as illustrated in this untold story rose to become a model for modern community policing and police professionalism *En Aquel Entonces* Manuel G. Jones, 1996 Little has been written about the colonists sent by Spanish authorities to settle the northern frontier of New Spain to stake Spain s claim and serve as a buffer against encroaching French explorers Los Paisanos they were called simple country people who lived by their own labor isolated threatened by hostile Indians and restricted by law from seeking opportunity elsewhere They built their homes worked their fields and became permanent residents the forebears of United States citizens as they developed their own society and culture much of which survives today [A Toast to Eclipse](#) Brian McGinty, 2012-08-31 The sparkling wines of California rival the best French Champagnes today but their place at our tables came about through careful craftsmanship that began more than a century ago The predecessor of today s California bubbly was Eclipse Champagne the first commercially successful California sparkling wine produced by Arpad Haraszthy in the mid to late nineteenth century In [A Toast to Eclipse](#) Brian McGinty offers a definitive history of the wine exploring California s winemaking past and two of the people who put the state s varietal wines on the map Arpad and his father Agoston Haraszthy the legendary father of California viticulture Inspired by his father s dream of making California one of the world s great viticultural regions Arpad Haraszthy 1840 1900 pursued that goal at a time when the best grapes for making California wine had yet to be discovered when the best locations for vineyards had not yet been established and when the public could hardly believe that good wine could be made in a country overrun with gold miners and desperados As a young man Arpad spent two years in the Champagne country of northeastern France studying the classic methods of French sparkling wine manufacture before bringing his knowledge home to California As McGinty shows the story of the award winning wine Haraszthy created is also the story of San Francisco during its heyday as the largest most dynamic city in the American West McGinty reveals new information about California varietals and winemaking districts and probes the controversy about whether Agoston Haraszthy introduced the Zinfandel grape to the Golden State Aficionados of wine and of California history will find this narrative insightful and refreshing and all readers will gain an appreciation for Arpad Haraszthy Eclipse and the

quietly built over and forgotten only to resurface every time a new building project began The dead still lie beneath some of the city s most cherished destinations including the Legion of Honor United Nations Plaza the Asian Art Museum and the University of San Francisco Join author Beth Winegarner as she maps the city s early burial grounds and brings back to life the dead who ve been erased

Engaging Children in Vast Early America Julia M. Gossard,Holly N.S. White,2024-09-02

Engaging Children in Vast Early America examines the often overlooked roles that children played in moments of contact between Indigenous groups Europeans and Africans in North and South America over the course of the seventeenth through nineteenth centuries Adulthood is the default lens through which most of history is examined This is because so few historians analyze the age or life stage of those they study As a result people of the past are often assumed to be adults when their actions or experiences align more closely with what modern society deems adultlike Many of these assumed adults however were agentive children This collaborative collection is the first of its kind to invite experts in the field of Vast Early America to engage with the history of childhood and youth The result is nine innovative essays that expand our understanding of childhood and agentive children but also of empire and everyday life in Vast Early America This accessible text is a unique resource for undergraduate courses in childhood and youth history family history and early American history

Animal City Andrew A. Robichaud,2019-12-17 Why do America s cities look the way they do If we want to know the answer we should start by looking at our relationship with animals Americans once lived alongside animals They raised them worked them ate them and lived off their products This was true not just in rural areas but also in cities which were crowded with livestock and beasts of burden But as urban areas grew in the nineteenth century these relationships changed Slaughterhouses dairies and hog ranches receded into suburbs and hinterlands Milk and meat increasingly came from stores while the family cow and pig gave way to the household pet This great shift Andrew Robichaud reveals transformed people s relationships with animals and nature and radically altered ideas about what it means to be human As *Animal City* illustrates these transformations in human and animal lives were not inevitable results of population growth but rather followed decades of social and political struggles City officials sought to control urban animal populations and developed sweeping regulatory powers that ushered in new forms of urban life Societies for the Prevention of Cruelty to Animals worked to enhance certain animals moral standing in law and culture in turn inspiring new child welfare laws and spurring other wide ranging reforms The animal city is still with us today The urban landscapes we inhabit are products of the transformations of the nineteenth century From urban development to environmental inequality our cities still bear the scars of the domestication of urban America
