Am I Alive A Surviving Flight Attendants Struggle And Inspiring Triumph Over Tragedy:

Am I Alive? Sandy Purl, 1986 *Am I Alive?* Sandy Purl, Gregg Lewis, 1996-03-01 Sandy Purl fought for her life and the lives of her passengers when twenty years ago Southern Flight 242 went down in a violent April hailstorm in New Hope Georgia And after the crash after her heroic efforts to aid the few survivors she fought for her sanity This story tells of one flight attendant s struggle with posttraumatic stress syndrome before resources were available in the airline industry to help survivors cope At the time of Sandy s crash the concept of critical incident stress management was only partially developed Sandy tells the story of the crash and the history of critical incident stress management s entry into the aviation industry Both her story and her efforts have been paramount in helping the industry develop official programs of support and rehabilitation for airline personnel and their families who are involved in airline disasters **Am I Alive?** Sandy Purl, Gregg A. Lewis, 1986 Tells the story of flight attendant Sandy Purl who survived a 1977 jet crash only to experience anguishing nightmares and guilt feelings which she eventually overcame through the help of God and therapy *Critical Incident Stress Management in Aviation* Joachim Vogt, 2016-04-22 Critical incident stress management CISM is now a well established method in crisis intervention and one that is clearly needed within aviation However there are many peculiarities in this branch of CISM which require thorough consideration People working in high reliability environments need to be sensitive to others reactions to critical stress They are the normal reactions of normal people in abnormal situations However to ensure this a proper programme must be put in place based on a scientific and standardized approach This book describes the various methods and elements of the CISM model as well as their interventions It also investigates the benefits of CISM on the individual level and on an organisational strategic level It details CISM training and courses and features a case study based on the berlingen accident of 2002 Critical Incident Stress Management in Aviation will be of direct relevance to human factors experts safety managers ATCOs and air navigation service providers though there is also much that will be of interest to aviation physicians psychologists and airport airline managers **Southern Storm** Samme Chittum, 2018-04-03 The gripping true tale of a devastating plane crash the investigation into its causes and the race to prevent similar disasters in the future On the afternoon of April 4 1977 Georgia housewife Sadie Burkhalter Hurst looked out her front door to see a frantic stranger running toward her his clothes ablaze and behind him the mangled fuselage of a passenger plane that had just crashed in her yard The plane a Southern Airways DC 9 31 had been carrying eighty one passengers and four crew members en route to Atlanta when it entered a massive thunderstorm cell that turned into a dangerous cocktail of rain hail and lightning Forced down onto a highway the plane cut a swath of devastation through the small town of New Hope breaking apart and killing bystanders on the ground before coming to rest in Hurst s front yard Ultimately only twenty two people would survive the crash of Flight 242 and urgent questions immediately arose What caused the pilots to fly into the storm instead of away from it Could the crash have been prevented Southern Storm addresses these issues and many more

recognition that aviation security is a deadly serious business Still around the world today the practice of aviation security is
rooted in a hodgepodge of governmental rules industry traditions and local idiosyncrasies In fact nearly seven years after the
largest single attack involving the air transport industry there remains no viable framework in place to lift aviation security
practice out of the mishmash that currently exists It is the ambitious intent of Aviation Security Management to change that
The goals of this set are nothing less than to make flying safer to make transporting goods by air safer and to lay the
foundation for the professionalization of this most important field This dynamic set showcases the most current trends issues
ideas and practices in aviation security management especially as the field evolves in the context of globalization and
advances in technology Written by leading academic thinkers practitioners and former and current regulators in the field the
three volumes highlight emerging and innovative practices illustrated with examples from around the world Volume 1 takes a
penetrating look at the overall framework in which aviation security management has taken place in the past and will likely
do so in the foreseeable future It covers the major areas of focus for anyone in the aviation security business and it provides a
basis for educational programs Volume 2 delves into the emerging issues affecting aviation security managers right now
Volume 3 Perspectives on Aviation Security Management covers the full spectrum of international aviation security related
issues It will serve as part of the foundation for the next generation of research in the area in both a business and cultural
context Collectively these volumes represent the state of the art in the field today and constitute an essential resource for
