Diverse Administrators in Peril Edna Chun, Alvin Evans, 2015-12-03 *Diverse Administrators in Peril* is the first in depth examination of the work experiences of minority female and LGBT administrators in higher education. Written by two award winning practitioners in higher education, this vivid and intensive study of American leadership from the inside out illuminates how the collision between everyday life and systems of power takes place in patterns of subtle discrimination. Based on scores of interviews with diverse administrators, the book examines patterns of racism, sexism, and heterosexism that persist in the highest administrative ranks and provides concrete strategies and models for inclusive leadership practices.

The Minority Voice in Educational Reform Louis A. Castenell, Jill M. Tarule, 1997-12-15 It is a core premise of this book that the thoughts and voices of those excluded are distinct. It is also our belief that once heard, there is insight and new visions embedded in these voices. Just as we came to know more about racism from DuBois, more about the Holocaust from Anne Frank, so can we come to know more about the critical issues facing education from the chapters of this book.

Women in Higher Education Ana M. Martínez Alemán, Kristen A. Renn, 2002-12-13 The only comprehensive encyclopedia on the subject of women in higher education. America's first wave of feminists, Susan B. Anthony, Elizabeth Cady Stanton, and others included expanded opportunities for higher education in their Declaration of Sentiments at the first Women's Rights Convention in Seneca Falls, New York, in 1848. By then, the first American institutions to educate women had been founded, among them Mt. Holyoke Seminary in 1837. However, not until after the Civil War did most universities admit women, and not for egalitarian purposes. War casualties had caused a drop in enrollment, and the states needed teachers. Women students paid tuition, but as teachers, they were paid salaries half that of men. By the late 20th century, there were more female than male students of higher education, but women remained underrepresented at the higher levels of educational leadership and training. This volume covers everything from historical and cultural context and gender theory to women in the curriculum and as faculty and administrators.
