Cradle Of Empire A Preparatory School Through Nine Reigns:

Cradle of Empire Meston Batchelor, 1981 A history of Temple Grove School **Gerald Howard-Smith and the 'Lost Generation' of Late Victorian and Edwardian England** John Benson, 2016-11-18 Gerald Howard Smith's life is intriguing both in its own right and as a vehicle for exploring the world in which he lived Tall boisterous and sometimes rather irascible he was one of the so called Lost Generation whose lives were cut short by the First World War Brought up in London and educated at Eton and Cambridge he excelled both at cricket and athletics After qualifying as a solicitor he moved to Wolverhampton and threw himself into the local sporting scene making a considerable name for himself in the years before the First World War Volunteering for military service in 1914 he was decorated for bravery before being killed in action two years later Reporting his death the War History of the South Staffordshire Regiment claimed that In his men's eyes he lived as a loose limbed hero and in him they lost a very humorous and a very gallant gentleman As well as telling the fascinating story of Gerald Howard Smith for the first time this important new biography explores such complex and important issues as childhood and adolescence class relations sporting achievement manliness and masculinity metropolitan provincial relationships and forms of commemoration It will therefore be of interest to educationalists sports historians local and regional historians and those interested in class gender and civilian military relations indeed all those seeking to understand the economic social and cultural life of late nineteenth and early twentieth century Britain Prep School Children Vyvyan Brendon, 2009-12-12 In a compelling and sometimes shocking account Vyvyan Brendon dwells not on the adult purposes behind a peculiarly British institution but on the lives of the children *Sir Ronald Storrs* Christopher Burnham, 2024-09-09 This volume utilises the personal papers of Sir Ronald Storrs as well as other archival materials to make a microhistorical investigation of his period as Governor of Jerusalem between 1917 and 1926 It builds upon Edward Said's work on the Orientalist determining imprint by arguing that Storrs took a deeply personal approach to governing the city one determined by his upbringing his education in the English private school system and his service as a British official in Colonial Egypt It recognises the influence of these experiences on Storrs' perceptions of and attitudes towards Jerusalem identifying how these formative years manifested themselves on the city and in the Governor's interactions with Jerusalemites of all backgrounds and religious beliefs It also highlights the restrictions placed on Storrs' approach by his British superiors Palestinians and the Zionist movement alongside the limitations imposed by his own attitudes and worldview Placing Storrs' personality at the centre of discussion on early Mandate Jerusalem exposes a nuanced and complex picture of how personality and politics collided to influence its everyday life and built environment The book is aimed at historians and students of the late Ottoman Empire and British Mandate in Palestine colonialism and imperialism and microhistory *Growing Up British in British Columbia* Jean Barman, 2011-11-01 During the first half of this century about fifty non Canadian private boys schools existed in British Columbia virtually all of them founded on the principles of private education in Britain and intended to serve the

offspring of British settlers In this book Jean Barman explains the appeal of the British model of education re creates the ethos of private school life and analyzes the effect of these schools on the social fabric of the province **Privatization and Privilege in Education (RLE Edu L)** Geoffrey Walford,2012-05-16 Can privilege be bought Arguments have raged over whether private education in the UK is the cement in the wall dividing British society or whether parental choice is as has also been argued a key component of a free society The author here describes the traditional private sector schools paying attention to the ways in which parents can purchase privilege for their children through attendance at such schools He argues that the privatized system is kept under tight control if a growth in social and educational inequality and a deepening of social class and ethnic group division is to be avoided The book is unique in combining an account of private schools in Britain with an examination of the process of privatization **Britain's Imperial Muse** C. Hagerman,2013-04-16 Britain s Imperial Muse explores the classics contribution to British imperialism and to the experience of empire in India through the long 19th century It reveals the classics role as a foundational source for positive conceptions of empire and a rhetorical arsenal used by commentators to justify conquest and domination especially of India **Routledge Library Editions: Education Mini-Set L Sociology of Education** Various,2021-06-23 Mini set L Sociology of Education re issues 48 volumes originally published between 1928 and 1990 The books in this mini set discuss Teaching and social change research processes in education class race culture and education marxist perspectives in the sociology of education the family and education the sociology of the classroom and school organization **Britain's Imperial Administrators, 1858-1966** A. Kirk-Greene,2000-02-24 Britain s famous overseas civil services the Colonial Administrative Service the Indian Civil Service and the Sudan Political Service no longer exist as a major and sought after career for Britain s graduates In this detailed study the history of each service is presented within the framework of the need to administer an expanding empire Close attention is paid to the methods of recruitment and training and to the socio educational background of the overseas administrators as well as to the nature of their work The prestigious incumbents of Government House are revealingly examined The impact of decolonisation on overseas officials and the kinds of second careers which they took up are documented This authoritative narrative history is enlivened by recourse to Service lore and anecdotes *Statesman of Europe* T. G. Otte,2020-11-26 The lamps are going out all over Europe We shall not see them lit again in our life time The words of Sir Edward Grey looking out from the windows of the Foreign Office at the end of August 1914 are amongst the most famous in European history and encapsulate the impending end of the nineteenth century world The man who spoke them was Britain s longest ever serving Foreign Secretary in a single span of office and one of the great figures of late Victorian and Edwardian Britain *Statesman of Europe* describes the three decades before the First World War through the prism of his biography which is based almost entirely on archival sources and presents a detailed account of the main domestic and international events and of the main personalities of the era In particular it presents a fresh understanding of

the approach to war in the years and months before its outbreak and Grey's role in the unfolding of events Yet Grey's life was not all public affairs momentous as those were He disliked being in London much preferring country life at Fallodon his family estate in Northumberland and displayed none of the ambition of his contemporaries or successors He attended assiduously to his duties as director of the Great North Eastern Railway one of the transformative enterprises in industry and communications of the period and wanted to spend as much time as he could fishing Apart from his memoirs the only book he wrote was called *The Charm of Birds* This hinterland gave quality to his judgements and made his character attractive to his contemporaries This important book is the definitive biography of one of the pivotal figures in European diplomacy and a magnificent portrait of an age

History of Education Society Bulletin, 1982 **Journal of the Society for Army Historical Research** Society for Army Historical Research (London, England), 1984 **Historical Dictionary of London** Kenneth John Panton, 2001 Panton details London's growth from its foundation in Roman times to its modern place as one of the world's preeminent financial commercial and cultural capitals Entries cover general themes such as immigration housing street markets and health care as well as specific topics including individual historic buildings financial institutions museums transport modes major city center hotels and West End theaters Significant contributors to the city's government such as the legendary Dick Whittington also receive attention along with immigrant groups and major events such as the Great Fire the Great Plague the development of the subway system and the growth of the Stock Exchange In addition a chronology details major events there are lists of Lord Mayors and leading local government officials and a table outlines population growth over the last two hundred years Appendices contain borough council contact information and world wide web addresses which provide access to additional information through the Internet

Benjamin Disraeli Letters: 1838-1841 Benjamin Disraeli, 1987 *Whitaker's Cumulative Book List*, 1982 *British Books in Print*, 1979 **The Bookseller**, 1981

Preparing for Blockade 1885-1914 Stephen Cobb, 2016-04-08 Today the First World War is remembered chiefly for the carnage of the Western Front but at the time the Royal Navy's blockade of Germany was a more frequent source of debate For even at a time of war there were influential voices in Britain who balked at a concept of economic warfare that hindered the free passage of goods on the high seas and brought German society to the brink of famine To further our understanding of these issues this book looks at the background to the blockade and the effects of its implementation in 1914 It argues that there was a widely shared but largely unwritten strategic culture within British naval circles which accepted that in a war with a major maritime power the British response would be to attack enemy trade This is demonstrated by the fact that from at least the late 1880s the Royal Navy planned for the use of armed merchantmen to enforce an economic blockade of an enemy This it did by entering into detailed arrangements with major British shipping companies for the design and subsidy of liners with the potential for use as merchant cruisers and stockpiling their prospective armament In line with the contemporary Corbettian view that seapower depends upon free communications the book concludes by asserting that the

primary role of the Grand Fleet in the First World War was to guarantee the ability of the merchant cruisers on the Northern Patrol to interdict German seaborne trade rather than to engage in large set piece battles **Catholic Telegraph** ,1844
