Crapshoot Rolling The Dice On The Vice Presidency:

Crapshoot Jules Witcover,1992 Examination and history of the vice presidency with behind the scenes drama from the earliest days of the republic to the present *The White House Vice Presidency* Joel K. Goldstein,2017-03-03 I am nothing but I may be everything John Adams the first vice president wrote of his office And for most of American history the nothing part of Adams s formulation accurately captured the importance of the vice presidency at least as long as the president had a heartbeat But a job that once was not worth a bucket of warm spit according to John Nance Garner became in the hands of the most recent vice presidents critical to the governing of the country on an ongoing basis It is this dramatic development of the nation s second office that Joel K Goldstein traces and explains in *The White House Vice Presidency* The rise of the vice presidency took a sharp upward trajectory with the vice presidency of Walter Mondale In Goldstein s work we see how Mondale and Jimmy Carter designed and implemented a new model of the office that allowed the vice president to become a close presidential adviser and representative on missions that mattered Goldstein takes us through the vice presidents from Mondale to Joe Biden presenting the arrangements each had with his respective president showing elements of continuity but also variations in the office and describing the challenges each faced and the work each did The book also examines the vice presidential selection process and campaigns since 1976 and shows how those activities affect and or are affected by the newly developed White House vice presidency The book presents a comprehensive account of the vice presidency as the office has developed from Mondale to Biden But *The White House Vice Presidency* is more than that it also shows how a constitutional office can evolve through the repetition of accumulated precedents and demonstrates the critical role of political leadership in institutional development In doing so the book offers lessons that go far beyond the nation s second office important as it now has become *The American Vice Presidency* Jules Witcover,2014 An all inclusive examination of the vice presidency over the course of American history Witcover chronicles each of the forty seven vice presidents during their tenures and explores how the roles and responsibilities were first subject to the whims of the presidents under whom they served but came to be expanded to a de facto assistant presidency *Veeps* Bill Kelter,2008 *Veeps* tells the sordid head scratching perversely entertaining stories of the men the US has chosen over the years to become Vice President including the rogues cowards drunks featherweights doddering geriatrics bigots and atrocious spellers *Attack Politics* Emmett H. Buell Jr.,Lee Sigelman,2009-09-01 This second edition of *Attack Politics* updates Emmett Buell and Lee Sigelman s highly regarded study of negativity in presidential campaigns since 1960 with a substantial new chapter on the 2008 contest between Barack Obama and John McCain That campaign the authors contend proved to be the least negative in the last half century and reinforces their central argument that these campaigns have actually not grown dirtier and more negative since the election of JFK In this new edition Buell and Sigelman address the same questions that guided their research in the original book Who attacked whom How frequently On what issues In what ways And at what point in the race They also

update their analysis of whether presidential campaigns have gotten more negative since 1960 whether opposing sides addressed the same issues or avoided subjects owned by the other side and whether trailing candidates wage more negative campaigns than leading candidates The authors expand their analysis well beyond their original research base 17 000 campaign statements extracted from nearly 11 000 news items in the New York Times focusing on both presidential and vice presidential nominees as sources and targets of attacks and examining the actions of surrogate campaigners They also compare their findings with previously published accounts of these campaigns including firsthand accounts by candidates and their confidants Each chapter features echoes from the campaign trail that reflect the invective exchanged by rival campaigns Their new chapter shows that rather than neatly resembling either of their typology s extremes runaways or dead heats the 2008 race began as a dead heat in late summer but began to take on all the characteristics of a somewhat competitive affair by the end of September Campaign discourse that began with an anticipated focus on the Iraq War and other national security issues came to be dominated by concerns about the economic meltdown As the campaign headed toward the home stretch anxiety about the economy seemed to eclipse national security health care immigration and other concerns This shift of emphasis they argue doomed whatever chance McCain had of winning Like the first edition this update of *Attack Politics* systematically analyzes negative campaigning pinning down much that has previously been speculated on but left unsubstantiated It offers the best overview yet of modern presidential races and remains must reading for anyone interested in the vagaries of those campaigns

At the President's Side Timothy Walch, 1997 Essays by presidential scholars Washington insiders and Dan Quayle discuss the past present and future of the job John Adams called the most insignificant office ever the invention of man contrived or his imagination conceived Chapters discuss men chosen because of their native states or their political acumen but not their leadership abilities the tragic stories of Richard Nixon Lyndon Johnson Hubert Humphrey and Spiro Agnew the vice presidency as defined by Nelson Rockefeller Walter Mondale George Bush and Dan Quayle and Richard E Neustadt s analysis of the nucleus of vice presidential power proximity to the president Annotation copyrighted by Book News Inc Portland OR

Images, Issues, and Attacks Edwin D. Dover, 2006-01-01 *Images Issues and Attacks* explores important differences between incumbents and challengers in the uses of televised advertising in modern presidential elections Elections since 1956 can be divided into three categories elections with strong incumbents the incumbent wins elections with weak incumbents the incumbent loses and elections with surrogate incumbents the vice president runs Incumbent and challenger advertising emphasizes personal imagery links the imagery to specific issues and attacks rivals for opposing those images and issues The first part of the book describes how incumbents and challengers used these themes in the elections from 1980 to 2000 The second part applies those findings to the 2004 election and shows how George W Bush presented himself as a strong incumbent and how he and his challengers varied their mix of images issues and attacks over different periods of the election campaign

The White House Physician Ludwig M. Deppisch,

M.D.,2025-02-28 Since the early days of George Washington's presidency physicians have played a significant role in the health and well being of American presidents This text delves into the history of American medicine as it intersects with the specialized treatment and care provided to presidents It also focuses on the changes that have occurred over time to the doctor patient relationship This new edition updates the original 2007 publication through the presidency of Joe Biden The book covers presidential physicians education background accomplishments successes and failures of their professional care as well as social relationships with their president patients Also highlighted are the new developments in the White House Medical Unit WHMU the 25th Amendment of the United States Constitution and post White House careers of featured physicians The book is enhanced by interviews with every presidential physician from Ronald Reagan's last to Joe Biden's illuminating the contrasts and similarities between American medical and political history By reviewing the progression of presidential medical care this book shows the interplay between medicine politics and the well being of our nation's leaders

Encyclopedia of American Political Parties and Elections Larry Sabato,Howard R. Ernst,2014-05-14 Presents a complete reference guide to American political parties and elections including an A Z listing of presidential elections with terms people and events involved in the process

The Making of an Ink-stained Wretch Jules Witcover,2005 Wherever politics has been happening in the past half century Jules Witcover has been on the scene watching interviewing reporting David S Broder The Washington Post

United States Senate Catalogue of Fine Art William Kloss,2005-08 The U S Capitol abounds in magnificent art that rivals its exterior architectural splendor The fine art held by the U S Senate comprises much of this treasured heritage It spans over 200 years of history contains works by such celebrated artists as Augustus Saint Gaudens Hiram Powers Daniel Chester French Charles Willson Peale Gilbert Stuart Walker Hancock Alexander Calder This volume provides previously unpublished information on the 160 paintings sculptures in the U S Senate Each work of art from portraiture of prominent senators to scenes depicting significant events in U S history is illustrated with a full page color photo accompanied by an essay secondary images that place the work in historical aesthetic context

George Bush and the Guardianship Presidency David Mervin,2016-07-27 A clearly written provocative analysis of the Bush presidency that draws on extensive interviews with White House staff The Budget crisis of 1990 and the Gulf war receive particular attention as defining events in Bush's incumbency demonstrating the strengths and weaknesses in his approach to presidential leadership This book not only casts light on Bush's record in office it also helps to resolve methodological problems that arise in the study of the presidency generally

Vice Presidents L. Edward Purcell,2010 The majority of our vice presidents have been people of extraordinarily high aspiration ability and achievement For some the vice presidency was the deflating end of a political career for others the office was a stepping stone to the presidency

The ^APresidency of the United States Richard M. Pious,2010-04-10 The Presidency of the United States is an illustrated A to Z guide to the U S Presidency including biographical sketches of each President and Vice President along with articles on presidential powers presidential

history theories about the presidency presidential elections advisors and agencies and information about the daily workings of the White House The second edition is completely revised up to March 2001 with new Biographies of George W Bush and Dick Cheney and completely updated biographies of Bill Clinton and Al Gore *The ^AOxford Guide to the United States Government* John J. Patrick, Richard M. Pious, Donald A. Ritchie, 2001-07-04 The Oxford Guide to the United States Government is the ultimate resource for authoritative information on the U S Presidency Congress and Supreme Court Compiled by three top scholars its pages brim with the key figures events and structures that have animated U S government for more than 200 years In addition to coverage of the 2000 Presidential race and election this Guide features biographies of all the Presidents Vice Presidents and Supreme Court Justices as well as notable members of Congress including current leadership historical commentary on past elections major Presidential decisions international and domestic programs and the key advisors and agencies of the executive branch in depth analysis of Congressional leadership and committees agencies and staff and historic legislation and detailed discussions of 100 landmark Supreme Court cases and the major issues facing the Court today In addition to entries that define legal terms and phrases and others that elaborate on the wide array of government traditions this invaluable book includes extensive back matter including tables of Presidential election results lists of Presidents Vice Presidents Congresses and Supreme Court Justices with dates of service lists of Presidential museums libraries and historic sites relevant websites and information on visiting the White House the Capitol and Supreme Court buildings A one stop comprehensive guide that will assist students educators and anyone curious about the inner workings of government The Oxford Guide to the United States Government will be a valued addition to any home library

Republican Orators from Eisenhower to Trump Andrew S. Crines, Sophia Hatzisavvidou, 2017-11-22 This is the first thorough and systematic interrogation of Republican Party oratory and rhetoric that examines a series of leading figures in American conservative politics It asks How do leading Republican Party figures communicate with and influence their audiences What makes a successful speech and why do some speeches fail to resonate Most importantly it also investigates why orators use different styles of communication with different audiences such as the Senate party conventions public meetings and through the media By doing so it shines important new light into conservative politics from the era of Eisenhower to the more brutal politics of Donald Trump The book will appeal to students and scholars across the fields of US politics contemporary US history and rhetoric and communication studies **The President and the Apprentice** Irwin F. Gellman, 2015-01-01 More than half a century after Eisenhower left office the history of his presidency is so clouded by myth partisanship and outright fraud that most people have little understanding of how Ike s administration worked or what it accomplished We know or think we know that Eisenhower distrusted his vice president Richard Nixon and kept him at arm s length that he did little to advance civil rights that he sat by as Joseph McCarthy s reckless anticommunist campaign threatened to wreck his administration and that he planned the disastrous 1961 Bay of Pigs invasion of Cuba None of this is

true The President and the Apprentice reveals a different Eisenhower and a different Nixon Ike trusted and relied on Nixon sending him on many sensitive overseas missions Eisenhower not Truman desegregated the military Eisenhower and Nixon not Lyndon Johnson pushed the Civil Rights Act of 1957 through the Senate Eisenhower was determined to bring down McCarthy and did so Nixon never contrary to recent accounts saw a psychotherapist but while Ike was recovering from his heart attack in 1955 Nixon was overworked overanxious overmedicated and at the limits of his ability to function

Reagan's Revolution Craig Shirley, 2010-02-22 Today's political scene looks nothing like it did thirty years ago and that is due mostly to Reagan's monumental reshaping of the Republican party What few people realize however is that Reagan's revolution did not begin when he took office in 1980 but in his failed presidential challenge to Gerald Ford in 1975 1976 This is the remarkable story of that historic campaign one that as Reagan put it turned a party of pale pastels into a national party of bold colors Featuring interviews with a myriad of politicians journalists insiders and observers Craig Shirley relays intriguing never before told anecdotes about Reagan his staff the campaign the media and the national parties and shows how Reagan instead of following the lead of the ever weakening Republican party brought the party to him and almost single handedly revived it [Back Channels](#), 1991 **Guide to the Presidency** Michael Nelson, 2015-05-01 The Guide to the Presidency is an extensive study of the most important office of the U S political system Its two volumes describe the history workings and people involved in this office from Washington to Clinton The thirty seven chapters of the Guide arranged into seven distinct subject areas ranging from the origins of the office to the powers of the presidency to selection and removal cover every aspect of the presidency Initially dealing with the constitutional evolution of the presidency and its development the book goes on to expand on the history of the office how the presidency operates alongside the numerous departments and agents of the federal bureaucracy and how the selection procedure works in ordinary and special circumstances Of special interest to the reader will be the illustrated biographies of every president from Washington to the present day and the detailed overview of the vice presidents and first ladies of each particular office Also included are two special appendices one of which gathers together important addresses and speeches from the Declaration of Independence to Clinton's Inaugural Address and another which provides results from elections and polls and statistics from each office
