holistic understanding of existence Peace Is Oneness addresses the dangers of accepting the separation that results from our egos along with the ways that separation can be healed Both science and evolutionary religion define the same reality We must awaken from our dream state of separate selves and realize the oneness that is our true self of unconditional love Western culture has largely lost most of its connection to myth because of the dominance of material science We have what the ancient Greeks called logos but we have lost what they called mythos This is about to change as science and religion begin to define reality in the same way Will it happen quickly enough to save us from our own self destruction Your individual consciousness is essential in determining the outcome **Proceedings of IAC-TLEI 2016** collective of authors,2016-04-05 International Academic Conference on Teaching Learning and E learning in Budapest Hungary 2016 IAC TLEI 2016 Friday Saturday April 15 16 2016 **AQA GCSE Religious Studies A (9-1): Christianity and Islam Revision Guide** Marianne Fleming,Harriet Power,2018-03-22 Building on the Oxford AQA GCSE Religious Studies Student Books this Revision Guide offers a structured approach to revising for the new 9 1 exams 1 RECAP key content from the Student Book is condensed and re presented in simple visual styles to make content memorable and help retention 2 APPLY students actively apply the content they have just revised to build the knowledge and evaluative skills needed for the exams 3 REVIEW regular opportunities to practice exam questions and review answers direct students to pinpoint any areas of weakness in knowledge or exam skills identifying where they ll need to concentrate their efforts for further revision This Revision Guide is ideal for students combining Christianity and Islam With all the essential content condensed and made memorable and plenty of exam practice tips and annotated sample answers students can confidently prepare for their new exams *Religious Diversity and Intercultural Education* John Keast,Council of Europe,2007-01-01 This reference book is intended to help teachers teacher administrators policy makers and others deal with the important issue of religious diversity in Europe s schools The religious dimension of intercultural education is an issue that affects all schools whether they are religiously diverse or not because their pupils live and will work in increasingly diverse societies The book is the main outcome of the project 1The Challenge of intercultural education today religious diversity and dialogue in Europe developed by the Council of Europe between 2002 and 2005 It is in four parts theoretical and conceptual basis for religious diversity and intercultural education educational conditions and methodological approaches religious diversity in schools in different settings examples of current practice in some member states of the Council of Europe **Apocalypse Secrets** John Able,2022-06-21 Apocalypse Secrets Baha i Interpretation of the Book of Revelation with 60 illustrations is a fresh provocative Parallel Interpretation of the Apocalypse or Book of Revelation The author John Able MD is a retired intensive care physician He uses Baha i Writings that interpret parts of the Apocalypse to decode it as a global tale of three millennia now passing through four centuries of the events of religious end times It is a tale of the struggles of seven Empires and seven Faiths of their materialism and militarism and the resulting mess into which the world is now crescendoing furiously and fast These events center on the apocalyptic war

One Family Richard Seltzer,2024-12-01 In this mosaic of historical and personal anecdotes fact and fiction are intertwined We lie to ourselves and to one another and coincidence shifts the paths of our lives this way and that We believe what we re ready to believe and what we believe is more important than what actually happens And we all share a common ancestry connected as one family

Creating Religious Childhoods in Anglo-World and British Colonial Contexts, 1800-1950 Hugh Morrison,Mary Clare Martin,2017-01-20 Drawing on examples from British world expressions of Christianity this collection further greater understanding of religion as a critical element of modern children s and young people s history It builds on emerging scholarship that challenges the view that religion had a solely negative impact on nineteenth and twentieth century children or that secularization is the only lens to apply to childhood and religion Putting forth the argument that religion was an abiding influence among British world children throughout the nineteenth and most of the twentieth centuries this volume places religion at the center of analysis and discussion At the same time it positions the religious factor within a broader social and cultural framework The essays focus on the historical contexts in

which religion was formative for children in various British settings denoted as Anglo or colonial during the nineteenth and early to mid twentieth centuries These contexts include mission fields churches families Sunday schools camps schools and youth movements Together they are treated as sites in which religion contributed to identity formation albeit in different ways relating to such factors as gender race disability and denomination The contributors develop this subject for childhoods that were experienced largely but not exclusively outside the metropole in a diversity of geographical settings By extending the geographic range even within the British world it provides a more rounded perspective on children s global engagement with religion

Adolescence, Discrimination, and the Law Roger J.R. Levesque,2017-05 Explores the shifts and the research used to support civil rights claims of discrimination particularly relating to minority youths rights to equal treatment In the wake of the civil rights movement the legal system dramatically changed its response to discrimination based on race gender and other characteristics It is now showing signs of yet another dramatic shift as it moves from considering difference to focusing on neutrality Rather than seeking to counter subjugation through special protections for groups that have been historically and currently disadvantaged the Court now adopts a colorblind approach Equality now means treating everyone the same way This book explores these shifts and the research used to support civil rights claims particularly relating to minority youths rights to equal treatment It integrates developmental theory with work on legal equality and discrimination showing both how the legal system can benefit from new research on development and how the legal system itself can work to address invidious discrimination given its significant influence on adolescents especially those who are racial minorities at a key stage in their developmental life Adolescents Discrimination and the Law articulates the need to address discrimination by recognizing and enlisting the law s inculcative powers in multiple sites subject to legal regulation ranging from families schools health and justice systems to religious and community groups The legal system may champion ideals of neutrality in the goals it sets itself for treating individuals but it cannot remain neutral in the values it supports and imparts This volume shows that despite the shift to a focus on neutrality the Court can and should effectively foster values supporting equality especially among youth *Civil Rights Journal* ,1997
