Creating The American Mind Intellect And Politics In The Colonial Colleges

Jonathan Yeager

Creating The American Mind Intellect And Politics In The Colonial Colleges:

Creating the American Mind J. David Hoeveler, 2007-04-09 The nine colleges of colonial America confronted the major political currents of the seventeenth and eighteenth centuries while serving as the primary intellectual institutions for Puritanism and the transition to Enlightenment thought The colleges also confronted the most partisan and divisive cultural movement of the eighteenth century the Great Awakening *Creating the American Mind* is the first book to present a synthetic treatment of the colonial colleges tracing their role in the intellectual development of early Americans through the Revolution Distinguished historian J David Hoeveler focuses on Harvard William and Mary Yale the College of New Jersey Princeton King s College Columbia the College of Philadelphia University of Pennsylvania Queen s College Rutgers the College of Rhode Island Brown and Dartmouth Hoeveler pays special attention to the collegiate experience of prominent Americans including Jefferson Hamilton and Madison Written in clear and engaging prose *Creating the American Mind* will be of great value to historians and educators interested in rediscovering the institutions that first fostered American intellectual thought

Common Law and Natural Law in America Andrew Forsyth, 2019-04-11 Presents an ambitious narrative and fresh re assessment of common law and natural law s varied interactions in America 1630 to 1930 **Beyond Toleration** Chris Beneke, 2008-08-29 At its founding the United States was one of the most religiously diverse places in the world Baptists Methodists Catholics Episcopalians Presbyterians Congregationalists Quakers Dutch Reformed German Reformed Lutherans Huguenots Dunkers Jews Moravians and Mennonites populated the nations towns and villages Dozens of new denominations would emerge over the succeeding years What allowed people of so many different faiths to forge a nation together In this richly told story of ideas Chris Beneke demonstrates how the United States managed to overcome the religious violence and bigotry that characterized much of early modern Europe and America The key Beneke argues did not lie solely in the protection of religious freedom Instead he reveals how American culture was transformed to accommodate the religious differences within it The expansion of individual rights the mixing of believers and churches in the same institutions and the introduction of more civility into public life all played an instrumental role in creating the religious pluralism for which the United States has become renowned These changes also established important precedents for future civil rights movements in which dignity as much as equality would be at stake *Beyond Toleration* is the first book to offer a systematic explanation of how early Americans learned to live with differences in matters of the highest importance to them and how they found a way to articulate these differences civilly Today when religious conflicts once again pose a grave danger to democratic experiments across the globe Beneke s book serves as a timely reminder of how one country moved past toleration and towards religious pluralism *A Documentary History of Religion in America to 1877* Edwin S. Gaustad, Mark A. Noll, 2003-09-19 A richly variegated selection of short documents illustrative of the history of religion in America The best source book available to contemporary students and general readers **Wisdom's Workshop** James Axtell, 2023-03-07 An

essential history of the modern research university When universities began in the Middle Ages Pope Gregory IX described them as wisdom's special workshop He could not have foreseen how far these institutions would travel and develop Tracing the eight hundred year evolution of the elite research university from its roots in medieval Europe to its remarkable incarnation today Wisdom's Workshop places this durable institution in sweeping historical perspective In particular James Axtell focuses on the ways that the best American universities took on Continental influences developing into the finest expressions of the modern university and enviable models for kindred institutions worldwide Despite hand wringing reports to the contrary the venerable university continues to renew itself becoming ever more indispensable to society in the United States and beyond Born in Europe the university did not mature in America until the late nineteenth century Once its heirs proliferated from coast to coast their national role expanded greatly during World War II and the Cold War Axtell links the legacies of European universities and Tudor Stuart Oxbridge to nine colonial and hundreds of pre Civil War colleges and delves into how U S universities were shaped by Americans who studied in German universities and adapted their discoveries to domestic conditions and goals The graduate school the PhD and the research imperative became and remain the hallmarks of the American university system and higher education institutions around the globe A rich exploration of the historical lineage of today's research universities Wisdom's Workshop explains the reasons for their ascendancy in America and their continued international preeminence

John Witherspoon's American Revolution Gideon Mailer, 2016-11-23 In 1768 John Witherspoon Presbyterian leader of the evangelical Popular party faction in the Scottish Kirk became the College of New Jersey's sixth president At Princeton he mentored constitutional architect James Madison as a New Jersey delegate to the Continental Congress he was the only clergyman to sign the Declaration of Independence Although Witherspoon is often thought to be the chief conduit of moral sense philosophy in America Mailer's comprehensive analysis of this founding father's writings demonstrates the resilience of his evangelical beliefs Witherspoon's Presbyterian evangelicalism competed with combined with and even superseded the civic influence of Scottish Enlightenment thought in the British Atlantic world John Witherspoon's American Revolution examines the connection between patriot discourse and long standing debates already central to the 1707 Act of Union about the relationship among piety moral philosophy and political unionism In Witherspoon's mind Americans became different from other British subjects because more of them had been awakened to the sin they shared with all people Paradoxically acute consciousness of their moral depravity legitimized their move to independence by making it a concerted moral action urged by the Holy Spirit Mailer's exploration of Witherspoon's thought and influence suggests that for the founders in his circle civic virtue rested on personal religious awakening

Edmund J. James and the Making of the Modern University of Illinois, 1904-1920 Winton U Solberg, J. David Hoeveler, 2024-11-12 In 1904 Edmund J James inherited the leadership of an educational institution in search of an identity His sixteen year tenure transformed the University of Illinois from an industrial college to a major state university that fulfilled his vision of a center for scientific

investigation Winton U Solberg and J David Hoeveler provide an account of a pivotal time in the university's evolution A gifted intellectual and dedicated academic reformer James began his tenure facing budget battles and antagonists on the Board of Trustees But as time passed he successfully campaigned to address the problems faced by women students expand graduate programs solidify finances create a university press reshape the library and faculty and unify the colleges of liberal arts and sciences Combining narrative force with exhaustive research the authors illuminate the political milieu and personalities around James to draw a vivid portrait of his life and times The authoritative conclusion to a four part history Edmund J James and the Making of the Modern University of Illinois 1904 1920 tells the story of one man's mission to create a university worthy of the state of Illinois Abraham Lincoln as a Man of Ideas Allen C. Guelzo, 2016-12-29 Despite the most meager of formal educations Lincoln had a tremendous intellectual curiosity that drove him into the circle of Enlightenment philosophy and democratic political ideology And from these Lincoln developed a set of political convictions that guided him throughout his life and his presidency This compilation of ten essays from Lincoln scholar Allen C Guelzo uncovers the hidden sources of Lincoln's ideas and examines the beliefs that directed his career and brought an end to slavery and the Civil War *Testing the Elite* David Willock, 2024-04-23 This volume explores the extent to which the Revolutionary period 1740 1815 impacted the faculty students and institutional life of Yale College and how those changes shed insight into the nature of the American Revolution itself as a conservative or radical event Throughout the eighteenth century Yale continued a tradition of producing individuals who would perpetuate the economic and social status quo At the same time the institution was undergoing an evolution reflective of the broader movements in America that would persist into the era of the early republic In order to examine Yale's influence on those who attended this study uses the student experience as a major source of evidence Yale's curriculum and culture prior to 1776 were beginning to embrace Enlightenment ideas though not fully and due in no small part to the petitions of students From literary societies to student militias there were ways for students to engage in an exchange of ideas about new courses and new modes of national government outside the classroom The book is intended for both undergraduate and graduate students as well as general readers who are interested in the history of higher education the American Revolutionary Era and the history of Connecticut Taking Sides in Revolutionary New Jersey Maxine N. Lurie, 2022-08-12 The American Revolution in New Jersey lasted eight long years during which many were caught in the middle of a vicious civil war Residents living in an active war zone took stands that varied from Loyalist to Patriot to neutral and or trimmer those who changed sides for a variety of reasons Men and women Blacks and whites Native Americans and those from a wide variety of ethnic backgrounds with different religious affiliations all found themselves in this difficult middle ground When taking sides sometimes family was important sometimes religion or political principles the course of the war and location also mattered Lurie analyzes the difficulties faced by prisoners of war the refugees produced by the conflict and those Loyalists who remained left as exiles or

surprisingly later returned Their stories are interesting often dramatic and include examples of those literally caught in the crossfire They illustrate the ways in which this was an extremely difficult time and place to live In the end more of the war was fought in New Jersey than elsewhere resulting in the highest number of casualties and a great deal of physical damage The costs were high no matter what side individuals took Taking Sides uses numerous brief biographies to illustrate the American Revolution s complexity it quotes from documents pamphlets diaries letters and poetry a variety of sources to provide insight into the thoughts and reactions of those living through it all It focuses on people rather than battles and provides perspective for the difficult choices we make in our own times Supplemental Instructor Resources for Taking Sides in Revolutionary New Jersey Questions <https://d3tto5i5w9ogdd.cloudfront.net/wp-content/uploads/2022/07/19144155-Taking-Sides-Supplementary-Instructor-Resources-Questions.pdf> Bibliography <https://d3tto5i5w9ogdd.cloudfront.net/wp-content/uploads/2022/07/19144154-Taking-Sides-Supplementary-Instructor-Resources-Bibliography.pdf>

Recent Themes in Early American History Donald A. Yerxa, 2008 Described as the New York Review of Books for history Historically Speaking has emerged as one of the most distinctive historical publications in recent years actively seeking out contributions from a pantheon of leading voices in historical discourse Recent Themes in Early American History represents the best writing on colonial and revolutionary era American history to appear in its pages the past five years This collection of recent essays and interviews from Historically Speaking demonstrates that traditional approaches still foster fresh understanding of the early American past and that original contributions to traditional topics continue to be made

The Christian College (Renewed Minds) William C. Ringenberg, 2006-04-01 When it first appeared in 1984 The Christian College was the first modern comprehensive history of Protestant higher education in America Now this second edition updates the history featuring a new chapter on the developments of the past two decades a major introduction by Mark Noll a new preface and epilogue and a series of instructive appendixes

Gumport, 2016-03-30 American Higher Education in the Twenty first century offers a comprehensive introduction to the central issues facing American colleges and universities The contributors address major changes in higher education including the rise of organized social movements the problem of income inequality and stratification the growth of for profit and distance education online education community colleges and teaching and learning will placing American higher education and its complex social and political context Cover

American Higher Education in the Twenty-First Century Philip G. Altbach, Robert Oliver Berdahl, Robert O. Berdahl, Patricia J. Gumport, 2005-02-25 This new edition explores current issues of central importance to the academy leadership accountability access finance technology academic freedom the canon governance and race Chapters also deal with key constituencies students and faculty in the context of a changing academic environment

Revolutionary War Almanac John C. Fredriksen, 2006 Offering a day by day chronology of the people and events important to the American Revolution this title provides a look at this historic time It

covers people battles and other details and includes more than 130 maps photographs and illustrations pair with an index a bibliography cross references and a chronology Schools for Statesmen Andrew H. Browning,2022-06-16 Whatever Principles are imbibed at College will run thro a Man s whole future Conduct William Livingston signer of the Constitution Schools for Statesmen explores the fifty five individual Framers of the Constitution in close detail and argues that their different educations help explain their divergent positions at the 1787 Constitutional Convention Those educations ranged from outlawed Irish hedge schools to England s venerable Inns of Court from the grammar schools of New England to ambitious new academies springing up on the Carolina frontier The more traditional schools that focused on Greek and Latin classics Oxford Harvard Yale William and Mary were deeply conservative institutions resistant to change But the Scottish colleges and the newer American schools Princeton Philadelphia King s College introduced students to a Scottish Enlightenment curriculum that fostered more radical forward thinking leaders Half of the Framers had no college education and were often self taught or had private tutors most were quiet at the convention although a few stubbornly opposed the new ideas they were hearing Nearly all the delegates who took the lead at the convention had been educated at the newer innovative colleges but of the seven who rejected the new Constitution three had gone to the older traditional schools while three others had not gone to college at all Schools for Statesmen is an unprecedented analysis of the sharply divergent educations of the Framers of the Constitution It reveals the ways in which the Constitutional Convention rather than being a counterrevolution by conservative elites was dominated by forward thinking innovators who had benefited from the educational revolution beginning in the mid eighteenth century Andrew Browning offers a new and persuasive explanation of key disagreements among the Framers and the process by which they were able to break through the impasse that threatened the convention he provides a fresh understanding of the importance of education in what has been called the Critical Period of US history Schools for Statesmen takes a deep dive into the diverse educational world of the eighteenth century and sheds new light on the origins of the US Constitution The New American Antiquarian, Volume III, Fall 2024 Ian Tonat,Francesca Langer,E.M. Rose,Ricardo Padrón,Jeremy D. Popkin,Mark Meuwese,2024-09-15 ISSN 2769 4100 **No Longer Invisible** Rhonda Hustedt Jacobsen,Douglas Jacobsen,2012-08-03 Drawing on interviews with hundreds of university professors co curricular educators administrators and students from public and private colleges and universities across the United States Douglas and Rhonda Hustedt Jacobsen demonstrate that religion is essential for the work of higher education in the twenty first century *Higher Education: Handbook of Theory and Research* Michael B. Paulsen,2017-02-09 Published annually since 1985 the Handbook series provides a compendium of thorough and integrative literature reviews on a diverse array of topics of interest to the higher education scholarly and policy communities Each chapter provides a comprehensive review of research findings on a selected topic critiques the research literature in terms of its conceptual and methodological rigor and sets forth an agenda for future research intended to advance knowledge on the chosen topic The

Handbook focuses on a comprehensive set of central areas of study in higher education that encompasses the salient dimensions of scholarly and policy inquiries undertaken in the international higher education community Each annual volume contains chapters on such diverse topics as research on college students and faculty organization and administration curriculum and instruction policy diversity issues economics and finance history and philosophy community colleges advances in research methodology and more The series is fortunate to have attracted annual contributions from distinguished scholars throughout the world
