Creation Accounts In The Ancient Near East And In The Bible:

Creation Accounts in the Ancient Near East and in the Bible Richard J. Clifford SJ, 2023-12-07 *Creation Accounts in the Ancient Near East and in the Bible* Richard J. Clifford, 1994 The book examines the concept of creation in the ancient Near East noting four differences from modern concepts process result manner of reporting and criterion of truth It next surveys in detail ancient Near Eastern corpora Sumerian Akkadian Egyptian and Canaanite mostly Ugaritic giving the relevant ancient text in English translation The second part of the book *Creation Accounts in the Bible* looks at texts in Genesis 1 11 the Psalms Isaiah 40 55 and the Wisdom literature A conclusion summarizes the results and makes suggestions about interpreting the Bible Ancient Near Eastern Thought and the Old Testament John H. Walton, 2006-11-01 Much of the Old Testament seems strange to contemporary readers However as we begin to understand how ancient people viewed the world the Old Testament becomes more clearly a book that stands within its ancient context as it also speaks against it John Walton provides here a thoughtful introduction to the conceptual world of the ancient Near East Walton surveys the literature of the ancient Near East and introduces the reader to a variety of beliefs about God religion and the world In helpful sidebars he provides examples of how such studies can bring insight to the interpretation of specific Old Testament passages Students and pastors who want to deepen their understanding of the Old Testament will find this a helpful and instructive study **Introduction to the Hebrew Bible** John J. Collins, 2025-05-06 John J Collins s Introduction to the Hebrew Bible is one of the most reliable and widely adopted critical textbooks at undergraduate and graduate levels alike and for good reason Enriched by decades of classroom teaching it is aimed explicitly at motivated students regardless of their previous exposure to the Bible or faith commitments The approach is ecumenical in the sense that it seeks not to impose any particular theological perspective but to provide information and raise questions that should be relevant to any student Collins proceeds through the canon of the Old Testament and the Apocrypha judiciously presenting the current state of historical archaeological and literary understanding of the biblical text and engaging the student in questions of significance and interpretation for the contemporary world The fourth edition is supplemented in areas that go beyond historical criticism and answer questions crucial for students today John J Collins discusses the issues that arise when studying the Hebrew Bible that aren t always addressed in introductory textbooks The issues discussed include gender patriarchy social justice violence race and ethnicity environment salvation and death the messiah and colonialism In addition to the new essays John J Collins has updated bibliographies to include the most recent scholarship that students and professors need to know Old Testament Today John H. Walton, Andrew E. Hill, 2004 This full color textbook shows college students how the Old Testament uniquely reveals the God of the universe Theological Themes of the Old Testament Marty E. Stevens, 2010-07-19 The Old Testament is an ancient collection of theological reflections on life with God that the church has claimed as authoritative Scripture Whereas most introductory books march from Genesis to Malachi this book engages four prominent themes across

the breadth of the Old Testament canon creation covenant cultus and character By taking this approach Stevens is articulates key issues that impact the reading of the entire Old Testament This engaging volume is intended for laypeople who want to know more about the Old Testament whether in personal study church groups college classrooms or seminary courses

New Approaches to Human Dignity in the Context of Qur'ānic Anthropology Rüdiger Braun,Hüseyin I. Cicek,2017-05-11 In recent years the challenge of relating one's own theological concept of man and his destiny to secular topics such as the inviolability of human dignity has generated a dynamic discourse about how Islamic anthropology can help cultivate and perfect the individual self and social humanisation This anthology brings together contemporary Muslim and non Muslim approaches to the secular notion of human dignity with reference to the Islamic tradition in general and the anthropology of the Qur'an in particular The collection presents approaches to Islamic theological anthropology across a range of fields especially with regard to the narrative of Adam and Iblis which occurs in all monotheistic traditions It focuses on the specific grammars of anthropological narratives at the levels of the canonical text of the Qur'an itself Section I and the interpretations that focus on its performative discourse Section II Further to this the normative implications of the human images that are derived from the canonical text and its interpretations are discussed in Section III The dynamic interdependencies between the hermeneutics of the Qur'an theological anthropology and legal philosophy particularly in the European context are a promising field of research that not only allows a deeper insight into the multiperspectivity and indexicality of theological anthropology but also has the potential to facilitate the long overdue discursive cooperation and rapprochement between Muslim and non Muslim scholarship

In the Beginning Bernard F. Batto,2013-05-01 Bernard F Batto spent the bulk of his career examining the ancient Near Eastern context of the Hebrew Bible with particular interest in the influence of the surrounding cultures on the biblical creation stories This collection gathers six of his most important previously published essays and adds two new contributions Among the essays Batto identifies various creation motifs prevalent in the ancient Near East and investigates the reflexes of these motifs in Genesis 1:1-11 and other biblical accounts of the primeval period He demonstrates how the biblical writers adapted and responded to the creation ideas of Mesopotamia Egypt Ugarit and elsewhere The articles in the volume were written as independent essays Nevertheless they are united by theme Throughout Batto makes clear his understanding of the Hebrew Bible as a patently unique text yet one that cannot possibly be understood independent of greater cultural sphere in which it developed In the Beginning will serve as an indispensable resource for those interested in both the biblical ideas of

creation and the mythology of the ancient Near East that influenced them **Sibyls, Scriptures, and Scrolls** Joel Baden, Hindy Najman, Eibert J.C. Tigchelaar, 2016-10-11 This volume a tribute to John J Collins by his friends colleagues and students includes essays on the wide range of interests that have occupied John Collins's distinguished career Topics range from the ancient Near East and the Hebrew Bible to the Dead Sea Scrolls and Second Temple Judaism and beyond into early Christianity and rabbinic Judaism The contributions deal with issues of text and interpretation history and historiography philology and archaeology and more The breadth of the volume is matched only by the breadth of John Collins's own work

The Search for Ultimate Reality Dan Liroy, 2005 In analyzing the intertextuality between the Genesis and Johannine Prologues Dr Liroy maintains that both passages utilize polemical theology to refute distorted views of ultimate reality Furthermore he theorizes that the author of the Johannine Prologue deliberately reflected the structure and themes found in the Genesis Prologue to emphasize that the God man Jesus Christ created all things and is a new spiritual beginning for all who believe in Him Ultimate reality is found through faith in the Son **A Handbook to Old Testament Exegesis** William P. Brown, 2017-03-17 Designed for both Hebrew and non Hebrew students A Handbook to Old Testament Exegesis offers a fresh hands on introduction to exegesis of the Old Testament William P Brown begins not with the biblical text itself but with the reader helping students to identify their own interpretive lenses before engaging the biblical text Brown guides the student through a wide variety of interpretive approaches including modern methodologies feminist womanist Latino a queer postcolonial disability and ecological approaches alongside more traditional methods This allows students to critically reflect on themselves as bona fide interpreters While covering a wide range of biblical passages Brown also highlights two common biblical texts throughout the work to help show how each interpretive approach highlights different dimensions of the same texts Students will appreciate the value of an empathetic inquiry of Scripture that is both inclusive of others and textually in depth

Old Testament Cosmology and Divine Accommodation John W. Hilber, 2020-04-03 In order to reconcile the discrepancies between ancient and modern cosmology confessional scholars from every viewpoint on the interpretation of the early chapters of Genesis agree that God accommodated language to finite human understanding But in the history of interpretation no consensus has emerged regarding what accommodation entails at the linguistic level More precise consideration of how the ancient cognitive environment functions in the informative intention of the divine and human authors is necessary Not only does relevance theory validate interpretative options that are inherently most probable within the primary communication situation but the application of relevance theory can also help disentangle the complexities of dual authorship inherent in any model of accommodation The results also make a salutary contribution to the theological reading of Scripture **The New Interpreter's® Bible One-Volume Commentary** Prof. Beverly Roberts Gaventa, David L. Petersen, 2010-10-01 Pastors and students who want a one volume commentary to complement the New Interpreter's Study Bible will be pleased to find in this resource the quality of scholarship that is a hallmark of other New Interpreter's

An Introduction to the Bible Robert Kugler, Patrick Hartin, 2009-07-08 Many current Bible intro volumes focus more on theories about the biblical text than on the text itself They lack the simplicity that has become increasingly crucial as basic biblical literacy has declined Robert Kugler and Patrick Hartin seek to remedy that problem by turning readers back to the text at hand Their Introduction to the Bible surveys the content of all the biblical books section by section focusing on the Bible s theological themes [Themelios, Volume 37, Issue 2](#)

Stephen Witmer Pepperell Christian Fellowship Robert Yarbrough Covenant Seminary *Genesis 1 and the Creationism Debate* Steven DiMattei, 2016-04-08 Modern readers often assume that Genesis 1 depicts the creation of the earth and sky as we know it Yet in an appeal for textual honesty Steven DiMattei shows that such beliefs are more representative of modern views about this ancient text than the actual claims and beliefs of its author Through a culturally contextualized and objective reading of the texts of Genesis 1 and 2 this study not only introduces readers to the textual data that convincingly demonstrate that Genesis two creation accounts were penned by different authors who held contradictory views and beliefs about the origin of the world and of man and woman but also establishes on textual grounds that what the author of Genesis 1 portrayed God creating was the world as its author and culture perceived and experienced it not the objective world but a subjective world subject to the culturally conditioned views and beliefs of its author In the end this book clearly illustrates that the Bible s ancient texts do in fact represent the beliefs and worldviews of ancient peoples and cultures not those of God not those of later readers and especially not those of modern day Creationists *Narrating the Beginnings* Alberto Bernabé Pajares, Raquel Martín Hernández, 2021-04-02 The present book is a compilation of studies on narratives of mythical origins in different cultures written by outstanding specialists It aims to provide a broad view on creation myths from different times and areas of the world with a particular focus on how these texts contributed to the conception of the past as universal history as a common origin of mankind or as the great opening the theatrum mundi On the other hand the purpose of this book is to study the phenomenon from a typological point of view analyzing the specific characteristics of this particular type of texts rather than finding influences between the different cultures in the genesis of these narratives **Character Ethics and the Old Testament** M. Daniel Carroll R., Jacqueline E. Lapsley, 2007-01-01 Throughout the Old Testament the stories laws and songs not only teach a way of life that requires individuals to be moral but they demonstrate how In biblical studies character ethics has been one of the fastest growing areas of interest Whereas ethics usually studies rules of behavior character ethics focuses on how people are formed to be moral agents in the world This book presents the most up to date academic work in Old Testament character ethics covering topics throughout the Torah the Prophets and the Writings in addition to the use of the Bible in the modern world In addition to Carroll and Lapsley contributors are Denise M Ackermann Cheryl B Anderson Samuel E Balentine William P Brown Walter Brueggemann Thomas B Dozeman Bob Eklblad Jose Rafael Escobar R Theodore Hiebert Kathleen O Connor Dennis T Olson J David Pleins Luis R Rivera Rodriguez J J M Roberts and Daniel L Smith Christopher **Five Models of Scripture** Mark Reasoner, 2021-08-24 To relish the feast that is Scripture we need to use multiple models A Christian never gains all that Scripture offers by reading it with just one approach Yet too often this is attempted whether through an academic obsession with the historical critical method or through a consumerist approach that seeks only the motivation of the moment Mark Reasoner broadens the options for scriptural engagement by

describing five models of Scripture documents stories prayers laws and oracles To illustrate each he uses examples from throughout the history of interpretation While he concedes that certain books of the Bible will naturally lend themselves to particular models Reasoner shows how an appreciation for all five will enrich one's scriptural insights while also bridging divides between the various branches of the Christian family In addition to the five models Reasoner surveys Catholic Orthodox and Protestant constructions of the biblical canon and addresses specific issues relevant to their respective interpretations of Scripture including scriptural metanarratives the use of the Bible in Christian worship and the principle of sola Scriptura Through it all Reasoner remains unequivocally focused on his goal to help readers grow in their love for Scripture in ways that will help them plant this love in those to whom they minister
