Creation And Reality:

The Creation of Reality Bernhard Poerksen, 2013-07-09 Constructivism has been traded as a new paradigm by its advocates and criticised by its opponents as legitimating deceit and lies as justifying a trendy post modern Anything goes In this book Bernhard Poerksen draws up a new rationale for constructivist thinking and charts out directions for the imaginative examination of personal certainties and the certainties of others of ideologies great and small The focus of the debate is on the author's thesis that our understanding of journalism and in particular the education and training of journalists would profit substantially from constructivist insights These insights instigate the claim is an original kind of scepticism they provide the underpinnings of a modern type of didactics oriented by the autonomy of learners and they supply the sustaining arguments for a radical ethic of responsibility in journalism Beliefs, Emotions, and the Creation of Reality

Gina Lake, 2014-05-29 Beliefs are very powerful shapers of reality They can create a heaven on earth or a hell We have the power to be happy because we have the ability to choose what we believe However until we realize that we have this power our beliefs are likely to make us unhappy because the beliefs or conditioning we were given and the beliefs we have acquired along the way largely misrepresent reality If we are not aware of what we believe and not aware that we have a choice about what we believe then our life will be shaped by those mistaken and limiting beliefs and we will be a passive recipient of the results of those beliefs rather than a conscious co creator of our life Beliefs Emotions and the Creation of Reality explores the exciting arena of creation how beliefs determine our internal reality and consequently our external reality how beliefs that stem from the ego and our conditioning distort our perception of ourselves others and reality and specific ways to move beyond these distorted perceptions to a clearer perception of reality and therefore greater happiness and fulfillment This book was dictated to Gina Lake by Jesus It is one in a trilogy of books by Jesus which includes Love and Surrender and Choice and Will The books in the trilogy can be read in any order They are also available in a single volume called The Jesus Trilogy **Reality Creation Quotes: Create the Life You Love with These Powerful Reality Creation**

What is Reality? Francis Howe Johnson,1891 **THE MIND CODE** SANJEEV SAREEN,2023-08-11 We perceive and interact with the outside world but only in the context of how our minds and intellects interpret it Only through our minds can the outer world reach us and cause us to smile in happiness or cry in sadness Our emotions interpersonal interactions and decision making are all impacted by our mental health which affects how we think feel and act Stress management resilience building and overcoming obstacles in life are all facilitated by good mental health The world is as our mind is Therefore mental development and control are of utmost importance Finding a mind that is unaffected by its interaction with fluctuation is truly unusual like heat which cannot exist without fire But most people let their minds wander and follow their own sweet wills and desires It wanders and is erratic like a poorly trained animal or a spoiled child who receives excessive indulgence from their parents But there is nothing to feel any guilt sort of thing because it is normal It is the very nature of the mind everyone is facing the mind like that only But yes it is not good a thing to be led by it compulsively It unnecessarily creates a lot of mental stress and mental health problems It doesn't necessarily have to be like that only We can make conscious efforts to understand the mind establish some control over it and bring some order into it for a better life And the good thing is it is possible the nature of the mind can be changed It's crucial to understand that mindsets have a crucial role in behavior and health rather than being merely incidental Real happiness is not found in positions of power or material wealth Happiness is the result of a pure peaceful and controlled mind It is the mind which is the source of both our pleasure and misery Although these are common occurrences for us we don't classify them as significant We frequently overlook the reality that our thoughts mindsets and aspirations are influencing our lives Every human action can be explained in terms of the mind that causes it Every action that results from the mind has at least two components the physical and the mental We have to strive to keep a balance between the two to act effectively When the mind and body cooperate without overwhelming one another it becomes spiritual in the process The nature of the human mind is a bit challenging to comprehend because it is hidden and nuanced But if you make an effort to know about the mind and how to manipulate it you can shape it in whatever way you like Even science validates the possibility of rewiring the brain It is plastic and incredibly malleable Understandably every study ought to contain both a theoretical and a practical component The intellect tries to settle for the theory alone but the actual perception of the truth that the theory contains is bigger and more magnificent Success comes from applying the sermons not just hearing them This book covers the psychological philosophical and Spiritual aspects of Mind management This is a guidebook containing techniques and practical exercises Working on these guidelines you will learn how to have mind control for a growth mindset and peace of mind control negative thoughts and master your emotions It is basically all about mental health and improving the state of mind This book contains the Universal Secrets that govern every area of life Remember one who conquers the mind conquers the world So let's make the best use of the opportunity here to understand various aspects of the mind and the way to harness it *The British Controversialist and Literary*

Magazine, 1871 **Bending Reality** Bernice Kelman, 2011-08 If you could converse with a wise spirit entity and ask any question you wished what would you ask *Bending Reality* The Book traces a path that explores methods for dealing with life's everyday stresses and challenges and ways for expanding perception By conversing with Sir Garrod a spirit entity channeled through author Bernice Kelman we can discover that we are much more than we thought we were and that reality is far greater than we have ever imagined Everything that can be learned from him can be applied in very practical ways by learning how to find and use the energy of unconditional love to lead a more meaningful life The spirit entity can provide guidance on a wide variety of questions ranging from How can I deal with my spouse my boss my mother in law to Who was I in another life or What happens when we die Sir Garrod explores the responses to these and other questions He cautions Believe nothing including what I tell you *Bending Reality* The Book provides the opportunity to test the spirit entity's ideas and suggestions and to see how they work for you Perceptions of Reality Gregory Calise, 2003 Although we are all living in the same world we are simultaneously each living in our own separate universe where each person observes himself as the center of that universe Each person has a unique conditioning and belief structure that create his perspective in which he views reality The world then interfaces with each person to create a reality that conforms to his beliefs A person's conditioning and beliefs affect his attitudes and emotions which then magnetize certain energies that resonate to his state of being In this way each individual is creating a separate reality according to his perceptions of truth What we perceive as reality is only the surface of a much deeper and greater truth Beyond the apparent world lies the essence of life and a vast kingdom of hidden knowledge Our conditioning and beliefs bind us to a certain perspective in which we view our reality *Perceptions of Reality* show us how we can break free of the bondage of our conditioning that holds us in a life of mediocrity When we become free from this bondage we can change our perspective which in turn changes our perceptions From a higher perspective we can see the larger picture of our lives and the world We will see the circumstances that have created our present reality and the relationships of events and experiences that were previously beyond our horizons of perception From this higher perspective we will perceive the world in a new light It will change before our eyes and interface with us in a new and more positive way We will be able to take control of our lives change our destiny and shape a new future From this higher state of awareness we will discover the portal to access the abstract mind which is the mental function of genius and the doorway to revelation From the perspective of revelation we will open the doors into the absolute realms beyond material time and space and describes the perceptions of God the soul the world and the paths to higher consciousness *Perceptions of Reality* will show us how to access the abstract mind and open the doorways into revelation creating a new reality full of abundance harmony and joy *Three Creation Stories* Michael Gold, 2018-11-08 What is reality Is reality both mind and matter body and soul as taught by Western religions such as Judaism Christianity and Islam This is dualism the approach of philosophers from Plato to Descartes Or is reality only matter as taught by many modern scientists and philosophers This is

materialism the approach of philosophers from Hobbes to Marx Or is reality only mind as taught by Eastern religions and Western mystics This is the approach of philosophers from Berkeley to Whitehead The beginning of Genesis allows for multiple translations and interpretations We will read the creation story in Genesis from the point of view of each of these three approaches dualism materialism and idealism In doing so we will tell three very different creation stories These stories will take us on a fascinating journey through science philosophy and religion Join us on this journey as we explore issues such as does God perform miracles why is there evil in the universe was Darwin correct can robots have souls and if light is a wave what is waving
