Creative College Student An Unmet Challenge Jossey Bass Series In Higher Education:

Resources in Education ,1999 Investment in Learning Howard Bowen,2018-01-16 The value of higher education has been under attack as seldom before in American history We are told of the overeducated American of the case against college and of the failure of education to contribute significantly to the reduction of inequality In this environment republication of an exceptionally comprehensive and judicious analysis of all that has been learned and not learned about the consequences of American higher education comes at a most appropriate time Investment in Learning more fully covers the various aspects of this subject than any yet to appear Howard Bowen is optimistic about higher education but his viewpoint is based on profound knowledge of both the economic and social aspects of education Unlike some economists who insist on a strict cost benefit analysis of expenditures on higher education in relation to outcomes Bowen argues that the non monetary benefits are far greater to the point that individual and social decisions should be made primarily on those broader indicators Cameron Fincher in his new opening for the book notes that Publication of Howard Bowen s Investment in Learning was like a break in a long summer drought It was a comprehensive rebuttal to return on investment studies with negativistic findings And in the foreword to the book Clark Kerr simply says Howard Bowen is better prepared to survey the overall consequences of higher education in the United States than anyone else The Creative College Student ,1970 **The Journal of Nursing Education** ,1983 **Prasāra** ,1973 **College Admissions and the Psychology of Talent** Cliff W.
