Alone The Classic Polar Adventure:

Alone Richard E. Byrd, 2003-08-08 When Admiral Richard E Byrd set out on his second Antarctic expedition in 1934 he was already an international hero for having piloted the first flights over the North and South Poles His plan for this latest adventure was to spend six months alone near the bottom of the world gathering weather data and indulging his desire to taste peace and quiet long enough to know how good they really are But early on things went terribly wrong Isolated in the pervasive polar night with no hope of release until spring Byrd began suffering inexplicable symptoms of mental and physical illness By the time he discovered that carbon monoxide from a defective stovepipe was poisoning him Byrd was already engaged in a monumental struggle to save his life and preserve his sanity When *Alone* was first published in 1938 it became an enormous bestseller This edition keeps alive Byrd's unforgettable narrative for new generations of readers **Alone** Richard Evelyn Byrd, 1938 **Alone** Richard Evelyn Byrd, 1995 Facsimile edition of the 1938 memoir of Admiral Richard E Byrd's expedition to the South Pole where he spent over four months in the polar darkness and cold almost losing his life to carbon monoxide poisoning from a faulty stovepipe before being rescued **Alone: The Classic Polar Adventure** Richard E. Byrd, 2014-12-03 Richard E Byrd 1888 1957 was an American naval officer and explorer Originally published in 1938 *Alone* provides a gripping account of his second expedition to Antarctica in 1934 Contents Richard E Byrd Preface 1933 The Idea March The Decision April i God of 2 5 April ii The Night May i The intimation May ii The Blow June i Despair June ii The Struggle June iii The Proposal July i Cold July ii The Tractors August The Searchlight Many early books are becoming extremely scarce and increasingly expensive We are republishing this classic work which has been carefully selected for its interest and relevance to a modern audience in a high quality and affordable edition It features a specially written concise biography and reproductions of the artwork from the original text Solitude Netta Weinstein, Heather Hansen, Thuy-vy T. Nguyen, 2024 Most of us spend a sizable chunk of each day alone Whether we love it or try to avoid it we can make better use of that time The science of solitude shows that alone time can be a powerful space used to tap into countless benefits *A Frozen Field of Dreams, Science, Strategy, and the Antarctic in Norway, Sweden, and the British Empire, 1912-1952* Peder William Chelley Roberts, 2010 The dissertation examines how actors in Norway Sweden and the British Empire conceived the Antarctic as a space for science during the years 1912 to 1952 Instead of tracing a narrative of enlightenment how science became the dominant form of activity in the Antarctic I examine a series of episodes with particular attention to why particular kinds of science held sway within specific political cultural and economic contexts Concerned more with how Antarctic science was planned and justified than how it was executed in the field the project draws upon recent scholarship in geography and geopolitics as well as the history of exploration The six case studies involve an aborted Anglo Swedish Antarctic expedition in 1912 Britain's interwar Antarctic whaling research program debates among whaling magnates and their associates over the relationship between Antarctic science and whaling in interwar Norway the culture of polar

exploration that emerged at Cambridge and to some extent Oxford between the world wars the approach to polar exploration and quantitative glaciology pioneered by the Swedish geographer Hans Ahlmann and the complicated history of the Norwegian British Swedish Antarctic Expedition 1949 52 I conclude with an epilogue arguing that the rise of international science in the Antarctic during the 1950s reflected the geopolitical dynamics of the Cold War rather than the triumph of science over politics

Robert Bryan Robert Bryan,2014-11-07 Since his boyhood days watching test pilots roar through the sky over his Long Island NY home Robert Bryan was fascinated with flight Add to that his love of a good story and his vocation as an Episcopal priest and you have the three great themes of his life After his graduation from Yale Divinity School where he met Marshall Dodge and the two created the immensely popular storytelling duo Bert and I Bryan became a minister to the remote settlements of Quebec s North Shore In the mid 20th century the best way to reach parishioners was by bush plane so Robert rose to the task He went on to spend 50 years as a bush pilot and minister logging more than 12 000 hours at the controls This endearing memoir traces his life and adventures during that time and weaves in his experiences performing and recording with Dodge

Relatos del confín del mundo (y del universo) Juan Diego Soler Pulido, 2021-11-01 En

busca de la Antártida el último lugar de la tierra Una ventana al cosmos En el extremo sur de nuestro planeta se esconde un territorio que fue desconocido para los humanos durante la mayor parte de su historia Antártida Durante siglos los más audaces exploradores cruzaron los océanos y protagonizaron extraordinarias hazañas en búsqueda de sus costas Cuando sus barcos lograron sortear el embate del frío lacerante el embrujo de sus días sin noche y la amenaza de los enormes témpanos el que ha sido llamado el último lugar de la Tierra se convirtió en una obsesión Como los astronautas en los tiempos modernos los humanos atravesaron una nueva frontera y se internaron como hormigas en este inconmensurable desierto de hielo para coronar con sus banderas el punto más austral del mundo Esta es su historia Hoy poco más de un siglo después de que los humanos llegaran al Polo Sur Antártida se ha convertido en un centro de investigaciones a donde llegan cada año expertos de todo el mundo para desarrollar estudios científicos que permiten entender nuestro planeta y el universo El astrofísico colombiano Juan Diego Soler fue uno de ellos En 2010 aterrizó por primera vez en esas gelidas planicies para con el apoyo de la NASA y la Fundación Nacional de Ciencias de los Estados Unidos lanzar a la estratosfera un telescopio robótico impulsado por un globo de helio y ver la luz más allá de las estrellas Esta también es su historia

Relatos del confín del mundo y del universo es un viaje a través de palabras mapas e imágenes a uno de los lugares más misteriosos de la Tierra el hogar de millones de pingüinos y miles de ballenas y focas Es una travesía a un terreno inhóspito e inhumanamente frío en compañía de quienes arriesgaron su vida en nombre de la exploración y de quienes hoy regresan allí en nombre de la ciencia

The Great Polar Fraud Anthony Galvin,2014-11-18 In 1910 Roald Amundsen set off from Oslo toward the North Pole but soon received word that two Americans Frederick Cook and Robert Peary each claimed to have reached the Pole ahead of him Devastated Amundsen famously went south For years Cook and Peary tried to convince the world of their claims Finally the National Geographic Society endorsed Peary and the matter seemed settled In May 1926 an American airman Richard Byrd flew north in a three engine plane and returned with a log showing that he had flown exactly over the geographical North Pole becoming the third man to reach that mythical spot National Geographic again supported the claim However it is now obvious that Peary claimed distances he could not possibly have achieved and it is doubtful that Cooke who had a history of fraud ever got even close to the pole Byrd flew further north than anyone before but he did not have the fuel to have made the journey he claimed his log was falsified Just three days after Byrd s flight Amundsen reenters the story on an airship traveling across the pole from Svalbard to Alaska unknowingly passing directly over the pole becoming the true first to reach it just as he had been the first at the South Pole The Great Polar Fraud explores the history of the three men who claimed the pole their claims and the subsequent doubts of those claims effectively rewriting the history of polar exploration and putting Amundsen center stage as the rightful conqueror of both poles Skyhorse Publishing as well as our Arcade imprint are proud to publish a broad range of books for readers interested in history books about World War II the Third Reich Hitler and his henchmen the JFK assassination conspiracies the American Civil War the American Revolution gladiators Vikings ancient Rome medieval times the old West and much more While not every title we publish becomes a New York Times bestseller or a national bestseller we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home

Antarctica Gabrielle Walker,2013-01-15 The acclaimed science writer presents a wide ranging exploration of Antarctica s history nature and global significance in this rollicking good read Kirkus From the early expeditions of Ernest Shackleton to David Attenborough s documentary series Frozen Planet the continent of Antarctica has captured the world s imagination After the Antarctic Treaty of 1961 decades of scientific research revealed the true extent of its many mysteries Now former Nature magazine staff writer Gabrielle Walker tells the full story of Antarctica from its

fascinating history to its uncertain future and the international teams of researchers who brave its forbidding climate Drawing on her broad travels across the continent Walker weaves all the significant threads of life on the vast ice sheet into a multifaceted narrative illuminating what it really feels like to be there and why it draws so many different kinds of people She chronicles cutting edge science experiments visits to the South Pole and unsettling portents about our future in an age of global warming We are all anxious Antarctic watchers now and Walker s book is the essential primer The Guardian UK
