Racism and Xenophobia in Early Twentieth-Century American Fiction Wisam Abughosh Chaleila, 2020-12-29 The Melting Pot The Land of The Free The Land of Opportunity These tropes or nicknames apparently reflect the freedom and open armed welcome that the United States of America offers However the chronicles of history do not complement that image These historical happenings have not often been brought into the focus of Modernist literary criticism though their existence in the record is clear This book aims to discuss these chronicles displaying

in great detail the underpinnings and subtle references of racism and xenophobia embedded so deeply in both fictional and real personas whether they are characters writers legislators or the common people In the main chapters literary works are dissected so as to underline the intolerance hidden behind words of righteousness and blind trust as if such is the norm Though history is taught it is not so thoroughly examined To our misfortune we naively think that bigoted ideas are not a thing we could become afflicted with They are antiques from the past yet they possessed many hundreds of people and they surround us still Since we've experienced very little change it seems discipline is necessary to truly attempt to be rid of these ideas
