

FIGURE C-7 Hornet/WAM.

submunition or sublet with an infrared sensor is launched over the target and fires an explosively formed projectile down into the engine compartment. The Hornet/WAMs has an antihandling feature that causes the mine to detonate when disturbed. The Hornet/WAMS is designed to operate for 30 days after emplacement and to then self-destruct. The sublet is similar to the sublets in the Air Force Sensor-Fuzed Weapon. Original plans called for the Hornet/WAM to be dispensed from a Volcano launcher or a deep-attack asset, such as the Multiple-Launch Rocket System (MLRS) or the Tactical Missile System (TACMS), in addition to hand emplacement. However, subsequent evolutions of requirements

and the exigencies of the development program have precluded these options. Therefore, for the foreseeable future, Hornet/WAM will be hand emplaced, which sharply limits its utility.

Remotely Delivered (Scatterable) Mines

The Remote Antiarmor Mine System (RAAMS) (Figure C-8) consists of a 155-mm howitzer projectile containing nine AT mines. RAAMS is usually used with the ADAM, but can be used alone. Each mine in the projectile is a right-circular cylinder, 11.25 cm in diameter and 7.5 cm high, weighing 1.8 kg and containing about 0.78 kg of pressed explosive in the main charge. RAAMS have factory-set self-destruct times of either 4 or 48 hours. About 20 percent have an antihandling feature that causes them to explode when tilted at an angle of 17 degrees or more. RAAMS are designed to destroy mounted targets by perforating the underside of the vehicle. The mines have magnetic-influence fuzes designed to stop mounted vehicles when they are detonated, as intended, between the tracks; if they are detonated directly under a track, they may not stop the vehicle.

The Ground-Emplaced Mine-Scattering System (GEMSS/Flipper) was the first scatterable mine system fielded by the Army (RAAMS/ADAM was the second). Although GEMSS (Figure C-9) is now obsolete, the mines are still in the U.S. inventory. The GEMSS dispenser is a large trailer that can be towed by a variety of wheeled and tracked vehicles. A relatively large tactical minefield can be laid in areas controlled by friendly forces. The dispenser holds 800 mines and can lay mines in 26, 34, or 60-meter wide strips in five different densities. The mines come in sleeves of five mines each. The operator sets self-destruct times at either 5 or 15 days. Because the system is unwieldy to tow and operators were vulnerable to small arms fire, the utility of the system was limited. Flipper is a relatively small,

Alternative Technologies To Replace Antipersonnel Landmines:

Alternative Technologies to Replace Antipersonnel Landmines National Research Council, Division on Engineering and Physical Sciences, Office of International Affairs, Commission on Engineering and Technical Systems, Committee on Alternative Technologies to Replace Antipersonnel Landmines, 2001-04-21 This book examines potential technologies for replacing antipersonnel landmines by 2006 the U S target date for signing an international treaty banning these weapons Alternative Technologies to Replace Antipersonnel Landmines emphasizes the role that technology can play to allow certain weapons to be used more selectively reducing the danger to uninvolved civilians while improving the effectiveness of the U S military Landmines are an important weapon in the U S military s arsenal but the persistent variety can cause unintended casualties to both civilians and friendly forces New technologies could replace some but not all of the U S military s antipersonnel landmines by 2006 In the period following 2006 emerging technologies might eliminate the landmine totally while retaining the necessary functionalities that today s mines provide to the military Alternative Technologies to Replace Antipersonnel Landmines National Research Council (États-Unis). Committee on Alternative Technologies to Replace Antipersonnel Landmines, 2001 **Alternative Technologies to Replace Antipersonnel Landmines** , 2001

Landmine Monitor Report 2001 Human Rights Watch (Organization), 2001 **Anti-Personnel Mines under Humanitarian Law : A View from the Vanishing Point** Stuart Maslen, 2021-10-25 Anti Personnel Mines under Humanitarian Law A View From the Vanishing Point considers in depth the various customary and conventional legal regimes applicable to the use of anti personnel mines All involved with the global effort to control and eliminate anti personnel mines as well as the policy makers who are concerned about the devastation resulting from the widespread deployment of these arbitrary weapons need to familiarize themselves with the information presented in this timely volume Published under the Transnational Publishers imprint Landmines and Human Security Richard A. Matthew, Bryan McDonald, Kenneth R. Rutherford, 2012-02-01 An impressive array of activists scholars government officials journalists and landmine victims themselves are gathered here to tell the dramatic and inspiring story of the International Campaign to Ban Landmines ICBL Organized in the early 1990s the ICBL is a network of more than one thousand nongovernmental organizations worldwide working for a global ban on landmines It was an important force behind the treaty to ban antipersonnel landmines that was signed in Ottawa in 1997 and which led to its being awarded the 1997 Nobel Peace Prize along with its coordinator **Military Law Review** , Norms Without the Great Powers Adam Bower, 2017 This book explores the nature of power in world politics and the particular role that law plays in defining the meaning and deployment of power in the international system *Negotiating Minefields* Leon V. Sigal, 2013-05-13 Against all odds the International Campaign to Ban Landmines helped to enact a global treaty banning antipersonnel mines in 1997 For that achievement it was awarded the Nobel Peace Prize In this volume Leon Sigal shows how a handful of NGOs with almost no mass base got

more than 100 countries to outlaw a weapon that their armies had long used. It is a story of intrigue and misperception of clashing norms and interests of contentious bureaucratic and domestic politics. It is also a story of effective leadership of sustained commitment to a cause of alliances between campaigners and government officials of a US senator who championed the ban and of the skilful use of the news media. Despite this monumental effort the campaign failed to get the United States to sign the treaty. Drawing on extensive internal documents and interviews with US officials and ban campaigners Sigal tells the story of the in fighting inside the Clinton administration in the Pentagon and within the ban campaign itself that led to this major setback for an otherwise unprecedented successful global effort. Negotiating Minefields will be of interest to students and scholars of military and strategic studies and politics and international relations.

Norm Dynamics in Multilateral Arms Control Harald Müller, Carmen Wunderlich, 2013-04-01 This volume comprehensively covers a range of issues related to dynamic norm change in the current major international arms control regimes related to nuclear biological and chemical weapons small arms and light weapons cluster munitions and antipersonnel mines. Arms control policies of all of the key established and rising state actors are considered as well as those of nonaligned countries nongovernmental organizations and international governing bodies. Recent studies on multilateral arms control tend to focus mostly on structure by which opportunities and constraints for action are created. This volume pays equal attention to agency through which opportunities and constraints to produce change or maintain the status quo are handled. In addition and in greater depth than in recent studies the volume acknowledges the force of moral and ethical impulses alongside such factors as political legal and technological change in the evolution of arms control norms. The volume begins with a look at the structure of regimes at the conflicts residing in these structures and at the dynamic processes in which these conflicts are worked out. The impact of extrinsic factors on norm dynamics is considered next including technological change and shifts in attitudes and power structures. Essays on the role of agency in driving norm change conclude the volume with a particular focus on norm entrepreneurship and the importance of acknowledging the competing justice claims surrounding norm change efforts. Landmine Monitor Report 2001 Human Rights Watch (Organization), 2001

Landmine Monitor Report 2000, 2000 East Timor Taiwan

Avoiding Technology Surprise for Tomorrow's Warfighter National Research Council, Division on Engineering and Physical Sciences, Committee for the Symposium on Avoiding Technology Surprise for Tomorrow's Warfighter—2010, 2010-12-30 The Symposium on Avoiding Technology Surprise for Tomorrow's Warfighter is a forum for consumers and producers of scientific and technical intelligence to exchange perspectives on the potential sources of emerging or disruptive technologies and behaviors with the goal of improving the Department of Defense's technological

warning capability This volume summarizes the key themes identified in the second and most recent symposium a two day event held in Suffolk Virginia on April 28 and 29 2010 The symposium combined presentations highlighting cutting edge technology topics with facilitated discourse among all participants Three categories of surprise were identified breakthroughs in product and process technology new uses of existing technology and the unexpectedly rapid progression of a technology to operational use The incorporation of an adversary s own culture history beliefs and value systems into analyses also emerged in discussions as an important factor in reducing surprise *Naval Mine Warfare* National Research Council, Division on Engineering and Physical Sciences, Naval Studies Board, Committee for Mine Warfare Assessment, 2001-09-19 Sea mines have been important in naval warfare throughout history and continue to be so today They have caused major damage to naval forces slowed or stopped naval actions and commercial shipping and forced the alteration of strategic and tactical plans The threat posed by sea mines continues and is increasing in today s world of inexpensive advanced electronics nanotechnology and multiple potential enemies some of which are difficult to identify This report assesses the Department of the Navy s capabilities for conducting naval mining and countermining sea operations

Big Data National Research Council, Division on Engineering and Physical Sciences, Committee for Science and Technology Challenges to U.S. National Security Interests, 2012-12-07 In 2012 the Defense Intelligence Agency DIA approached the National Research Council s TIGER standing committee and asked it to develop a list of workshop topics to explore the impact of emerging science and technology From the list of topics given to DIA three were chosen to be developed by the Committee for Science and Technology Challenges to U S National Security Interests The first in a series of three workshops was held on April 23 24 2012 This report summarizes that first workshop which explored the phenomenon known as big data The objective for the first workshop is given in the statement of task which explains that that workshop will review emerging capabilities in large computational data to include speed data fusion use and commodification of data used in decision making The workshop will also review the subsequent increase in vulnerabilities over the capabilities gained and the significance to national security The committee devised an agenda that helped the committee sponsors and workshop attendees probe issues of national security related to so called big data as well as gain understanding of potential related vulnerabilities The workshop was used to gather data that is described in this report which presents views expressed by individual workshop participants **Big Data A Workshop Report** is the first in a series of three workshops held in early 2012 to further the ongoing engagement among the National Research Council s NRC s Technology Insight Gauge Evaluate and Review TIGER Standing Committee the scientific and technical intelligence S TI community and the consumers of S TI products **Summary of a Workshop on the Future of Antennas** Division on Engineering and Physical Sciences, National Research Council, 2012-11-07 The Workshop on the Future of Antennas was the second of three workshops conducted by the National Research Council s Committee for Science and Technology Challenges to U S National Security

Interests The objectives of the workshop were to review trends in advanced antenna research and design review trends in commercials and military use of advanced antennas that enable improved communication data transfer soldier health monitoring and other overt and covert methods of standoff data collection The first day s sessions consisting of five presentations and discussions on antennas and wireless communications and control were open to committee members staff guests and members of the public The second day was a data gathering session addressing vulnerabilities indicators and observables presentations and discussions during this session included classified material and were not open to the public The committee s role was limited to planning and convening the workshop This report is organized by topic in the order of presentation and discussion at the workshop For Day 1 the topics were Future of Antennas Commercial State of the Art of Wireless Communications and Control Military State of the Art of Wireless Communications and Control and Future Trends in Antenna Design and Wireless Communications and Control For Day 2 the topics were Vulnerabilities of Ubiquitous Antennas and Indicators and Observables followed by a wrap up discussion Summary of a Workshop on the Future of Antennas describes what happened at the workshop

Commentaries on Arms Control Treaties: The convention on the prohibition of the use, stockpiling, production, and transfer of anti-personnel mines and on their destruction Stuart Maslen,2004 This commentary is a detailed guide to the interpretation of the 1997 Convention banning Anti Personnel Mines which was adopted after a worldwide campaign to ban landmines made famous by the late Princess Diana It includes a description of the development of anti personnel mines their military utility and the negotiating history of the Convention

Landmine Monitor Report 2003 ,2003 **Disarming States** Kenneth R. Rutherford,2010-12-07 This book provides a detailed history of the global movement to ban anti personnel landmines APL marking the first case of a successful worldwide civil society movement to end the use of an entire category of weapons In March 1995 Belgium became the first state to pass a domestic anti personnel landmine ban In December 1997 122 states joined Belgium in signing the comprehensive Mine Ban Treaty also known as the Ottawa Treaty The movement to ban landmines became a turning point in global politics that continues to influence policy and strategy decisions regarding weapon use today Disarming States The International Movement to Ban Landmines describes how non government organizations NGOs brought the landmine issue to international attention by forming the International Campaign to Ban Landmines ICBL The author presents new information gleaned from interviews and intensive research conducted around the world The critical role of mid size states such as Austria Canada and Switzerland recruited to back the movement s goals is examined The book concludes by examining how NGOs affect the international political agenda especially in seeking legal prohibitions on weapons and changes in states behaviors

Making Appropriations for the Department of Defense for the Fiscal Year Ending September 30, 1999, and for Other Purposes United States. Congress,1998

Alternative Technologies To Replace Antipersonnel Landmines Introduction

In the digital age, access to information has become easier than ever before. The ability to download Alternative Technologies To Replace Antipersonnel Landmines has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Alternative Technologies To Replace Antipersonnel Landmines has opened up a world of possibilities. Downloading Alternative Technologies To Replace Antipersonnel Landmines provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Alternative Technologies To Replace Antipersonnel Landmines has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Alternative Technologies To Replace Antipersonnel Landmines. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Alternative Technologies To Replace Antipersonnel Landmines. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Alternative Technologies To Replace Antipersonnel Landmines, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Alternative Technologies To Replace Antipersonnel Landmines has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students,

researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Alternative Technologies To Replace Antipersonnel Landmines Books

1. Where can I buy Alternative Technologies To Replace Antipersonnel Landmines books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Alternative Technologies To Replace Antipersonnel Landmines book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Alternative Technologies To Replace Antipersonnel Landmines books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
7. What are Alternative Technologies To Replace Antipersonnel Landmines audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.

9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
10. Can I read Alternative Technologies To Replace Antipersonnel Landmines books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
