Criminology Natti Ronel, Dana Segev, 2015-01-30 How can we best help offenders desist from crime as well as help victims heal This book engages with this question by offering its readers a comprehensive review of positive criminology in theory research and practice Positive criminology is a concept a perspective that places emphasis on forces of integration and social inclusion that are experienced positively by target individual and groups and may contribute to a reduction in negative emotions desistance from crime and overcoming the traumatic experience of victimization In essence positive criminology holds a more holistic view which acknowledges that thriving and disengagement from distress addiction mental illness crime deviance or victimization might be fostered more effectively by enhancing positive emotions and experiences rather than focusing on reducing negative attributes Each chapter in this book is written by key scholars in the related fields of criminology victimology and addiction and thus assembles varied and extensive approaches to rehabilitation and treatment These approaches share in common a positive criminology view thereby enriching our understanding of the concept and other strength based approaches to dealing with offenders and victims This edited book elaborates on positive criminology core ideas and assumptions discusses related theories and innovations and presents various benefits that this perspective can promote in the field of rehabilitation For this reason this book will be essential reading for those engaged in the study of criminology criminal justice and victimology and may also assist scholars and professionals to help offenders desist from crime and improve victims well being

Reading Without Maps? Den Tandt Christophe (ed.), 2005 Among the intellectual debates of the last forty years the critique of cultural canons has attracted the highest share of public attention stirring academic educational and media controversies on both sides of the Atlantic Postmodernism feminism postcolonialism and multiculturalism have refashioned the attitudes of educators and audiences towards cultural memory opening up curricula to subjects and traditions previously excluded from the humanities Predictably these new critical practices have triggered heated responses from commentators fearing that culture and education might thereby be deprived of their capacity to provide audiences and learners with proper groundings and landmarks The present volume gathers contributions that throw light on multiple aspects of this reconfiguration of cultural memory It brings together essays focusing on the dynamics of canon formation in several fields literature drama film and music Contributors examine how writers and communities find their bearings in a cultural landscape more complex than that previously envisaged by advocates of the Great Tradition Specifically the present essays throw light on the status of modernist writing drama in English or popular genres within the new canonical topography elaborated at the turn of the twenty first century

Afghanistan in the Post-Cold War Era Barnett R. Rubin, 2013-05-09 A collection of articles written from 1989 to 2009 updated for this volume
