ScholarlyEditions com Primary Care Geriatrics Richard J. Ham, Philip D. Sloane, 1997 Geriatrics continues to become a more central and vital component of primary care medicine making it more important than ever that all providers of geriatric medical care maintain continuous awareness of the principles of geriatrics PRIMARY CARE GERIATRICS A CASE BASED APPROACH provides the principles and key clinical information necessary to ensure the optimal management of elderly patients Case studies are integrated throughout the text to provide illustrative patient scenarios The book is divided into three parts the first outlines the principles of geriatric primary care and the characteristics of older persons from which these principles arise the second provides detailed case based approaches to major geriatric syndromes and the third section is a presentation of common conditions and situations Long acknowledged as one of the most practical user friendly texts available this new edition features revised content reflecting the latest advances in the field Gerontological Nursing Competencies for Care Kristen L. Mauk, 2017-04-14 Gerontological Nursing Competencies for Care Fourth Edition focuses on caring for the elderly by employing a holistic and interdisciplinary approach The text follows the framework of the core competencies for baccalaureate nursing education published by the American Association of Colleges of Nursing AACN and the John A Hartford Foundation Institute for Geriatric Nursing This framework is structured to ensure nursing students attain the recommended knowledge to achieve the competencies necessary to provide excellent care to older adults Back cover *Geriatric Medicine* Frank Lally, Christine Roffe, 2014 People are living longer and the population over the age of 60 is burgeoning with repercussions for health services and healthcare expenditure in developed countries Crucially disease aetiology diagnosis and treatment in older people differ from the general adult population Older people often have complicated co morbidities and respond to treatment in different ways compared to younger people Evidence of efficacy of different treatments is often lacking because older people are under represented in clinical trials and the specific needs of older people are rarely discussed specifically in more general texts Geriatric medicine an evidence based approach is a clinical reference for health care professionals who manage older patients and summarizes up to date research literature in a style that can be directly applied by busy healthcare professionals and provide a useful resource for reference
