Craftsmen In Greek And Roman Society:

Craftsmen in Greek and Roman Society Alison Burford,1972 **Mosaics of the Greek and Roman World**

Katherine M. D. Dunbabin,1999 This book provides a comprehensive account of mosaics in the ancient world from the early pebble mosaics of Greece to the pavements of Christian churches in the East Separate chapters in Part I cover the principal regions of the Roman Empire in turn in order to bring out the distinctive characteristics of their mosaic workshops Questions of technique and production of the role of mosaics in architecture and of their social functions and implications are treated in Part II The book discusses both well known works and recent finds and balances consideration of exceptional masterpieces against standard workshop production Two main lines of approach are followed throughout first the role of mosaics as a significant art form which over an unbroken span illuminates the evolution of pictorial style better than any comparable surviving medium and secondly their character as works of artisan production closely linked to their architectural context

Struggle in the Ancient Greek World G. E. M. Ste. Croix, 2025-07-01 The Class Struggle in the Ancient Greek World is an original and provocative reconstruction of 1 400 years of classical antiquity Sharply written it is a major intervention in Marxist theories of class seeking to explain and illustrate the value of Marx's general analysis of society to ancient Greek studies G E M de Ste Croix makes slavery central to the achievements of the Greek city states and wider classical civilisation He traces the social origins of Athenian democracy and advances an innovative explanation for the decline and fall of the Roman Empire Comparing the late Roman political system to a vampire bat Ste Croix argues that serfdom and a tightening fiscal screw left the peasant masses indifferent to the Empire's fate Widely reviewed and debated The Class Struggle in the Ancient Greek World was hailed by the New York Review of Books as the only work in a Western language that has ever attempted to tell the story of the greatest part of the ancient world with the interests of the lower classes as its central theme

The Eerdmans Encyclopedia of Early Christian Art and Archaeology Finney, 2017 One of the most widely respected theological dictionaries put into one volume abridged form Focusing on the theological meaning of each word the abridgment contains English keywords for each entry tables of English and Greek keywords and a listing of the relevant volume and page numbers from the unabridged work at the end of each article or section "The Poor, the Crippled, the Blind, and the Lame" Louise A. Gosbell, 2018-08-03 The New Testament gospels feature numerous social exchanges between Jesus and people with various physical and sensory disabilities Despite this traditional biblical scholarship has not seen these people as agents in their own right but existing only to highlight the actions of Jesus as a miracle worker In this study Louise A Gosbell uses disability as a lens through which to explore a number of these passages anew Using the cultural model of disability as the theoretical basis she explores the way that the gospel writers as with other writers of the ancient world used the language of disability as a means of understanding organising and interpreting the experiences of humanity Her investigation highlights the ways in which the gospel writers reinforce and reflect as well as subvert culturally driven constructions of disability in the ancient world

Luke's Portrait of Paul John Clayton Lentz, 1993 The purpose of this book is to seek a fuller understanding of how the characterisation of Paul in Acts would have been perceived by those who first read or heard the Lucan narrative As the author makes clear the careful reader of Acts should be amazed at the way St Paul is portrayed therein Dr Lentz demonstrates through a careful examination of particular texts the great improbability that a Jew of strict Pharisaic background would have held let alone been proud of Roman citizenship and citizenship of the city of Tarsus By investigating the social and legal expectations of the first century the author shows that Paul is seen to be deferred to in matters of legal minutiae by those in positions of authority He is given high social status and abundant moral virtue in order to attract to Christianity the high ranking citizen who would recognise in Paul the classical cardinal virtues
