**How We Walk** Matthew Beaumont,2024-03-12 In this fascinating and wide ranging book Beaumont reminds us that walking is far from a neutral activity With the help of Frantz Fanon Beaumont locates freedom at the level of the body free from the systems of oppression exploitation and harassment Lauren Elkin author of *Fl neuse* How

race class and politics influence the way we move You can tell a lot about people by how they walk Matthew Beaumont argues that our standing walking body holds the social traumas of history and its racialized inequalities Our posture and gait reflect our social and political experiences as we navigate the city under capitalism Through a series of dialogues with thinkers and walkers his book explores the relationship between freedom and the human body How We Walk foregrounds the work of Frantz Fanon psychiatrist and leading thinker of liberation who was one of the first people to think about the politics of walking while black It also introduces us to the renegade psychoanalyst Wilhelm Reich who wrote that one could discern the truth about a person through their posture and gait For Marxist philosopher Ernst Bloch the ability to walk upright and with ease is a sign of personal and social freedom Through these excursions Beaumont reimagines the canonical literature on walking and presents a new interpretation of the impact of class and race on our physical and political mobility raising important questions about the politics of the body

**Under Pressure** A. J. Hill, 2010-05-11 Hanging on display in the United States Navy Yard in Washington D C is a battered and scratched steel plate two feet in diameter edged with more than one hundred little semicircles For more than eighty years people have wondered how it came to be there and at the story it could tell Under Pressure The Final Voyage of Submarine S Five is that story On Monday August 30 1920 the S Five the newest member of the U S Navy's fleet of submarines departs Boston on her first cruise to Baltimore for a recruiting appearance at the end of the week Two days later as part of a routine test of the submarine's ability to crash dive her crew's failure to close a faulty valve sends seventy five tons of seawater blasting in Before the valve can be jury rigged shut the S Five sits precariously on the ocean floor under 180 feet of water Her electrical system is shut down her radio too weak to transmit and one drive motor is inoperable and because of a last minute course change the sub has gone down in a part of the Atlantic deliberately selected because it is well outside any regularly trafficked sea lanes Rescue by a passing ship is virtually impossible No one expects them in Baltimore for another two days And forty hours worth of air is all they have left The S Fives are on their own Her captain Lieutenant Commander Charles M Savvy Cooke Jr tries to pump the seawater out but each of three pumping systems fails in succession The salt in the seawater combines with the sulfuric acid in the sub's batteries to create a cloud of chlorine gas They have little air no water and only the dimmest of light by which to plan their escape By shifting the water in the sub toward the bow torpedo room Cooke is able to stand the 240 foot long sub on its nose bringing it close to vertical and using trigonometry he calculates that at least part of the boat's stern is now above sea level In a race against time will the crew die of asphyxiation before chlorine gas poisoning Cooke assembles his crew into three man teams charged with cutting a hole out of the highest point in the sub the telephone booth size tiller room With no acetylene torch no power tools nothing but ratchet drills and hacksaws the crew must cut through nearly an inch of strengthened steel or die in the attempt Under Pressure is the story of the thirty six hour long ordeal of the crew of the S Five It is a story of the courage endurance and incredible resourcefulness of the entire forty man crew of Charlie Grisham the

sub's executive officer a mustang promoted to the navy's officer corps from the enlisted ranks of Chief Electrician Ramon Otto whose baby daughter was born just days before the S Five's departure of Machinist's Mate Fred Whitehead who at the last minute is able to dog the all important watertight hatches shut of Chief of the Boat Percy Fox who redeems himself for the failure to close the induction valve that sank the S Five and of the sub's indomitable captain Savvy Cooke leading his crew through sheer force of will An incredible drama a story of heroism and of heroes Under Pressure is that most

remarkable of books a true story far more dramatic than any fiction **Doing Their Bit** Michael S. Shull, David E.

Wilt, 2014-05-23 The golden age of animation stretched from the early 1930s to the mid 1950s with movie cartoons reaching an extraordinarily high level of artistry and technique far higher than today's TV cartoons for instance Nearly 1000 cartoons were produced by the seven major animation studios in the U S between January 1 1939 and September 30 1945 the immediate pre World War II period up to the cessation of hostilities More than a quarter of the cartoons substantially refer to the war and thereby are invaluable in helping to understand American attitudes and Hollywood's reflection of them The meat of Doing Their Bit is a filmography with extremely detailed summaries of the 260 or so commercially produced animated war related shorts 1939 1945 There is also a good bit of overall commentary on these films as a group Two chapters wrap up animated cartoons of World War I and the general political tenor of animated talkies of the 1930s This edition also includes a new chapter on the outrageous government sponsored Pvt Snafus **The Heroes We Needed** Trevor B

McIntyre, 2024-10-31 McIntyre recounts the stories of many airmen who did not return which are undeniably touching as are the photographs he includes Because of their size the B 29s were able to drop the atomic bombs that ended the war But it is the human stories that resonate the most A heartfelt account of the men who flew the combat airplane known as the Superfortress Kirkus Reviews During World War II there were many ways that a B 29er could be killed a ruthless enemy an unforgiving ocean that stretched for thousands of miles or the faulty engines of their own airplanes But they all volunteered for it and they continued flying and dying until they brought the war to an early end and saved hundreds of thousands of American lives They were The Heroes We Needed In this riveting saga of sacrifice and salvation Trevor McIntyre brings to life the courageous American airmen who brought the Japanese Empire to its knees and ended World War II with the greatest bombers the world had ever seen the Boeing B 29 Superfortress and his fight 70 years later to save their stories from being forgotten Annual Report of the Secretary of the Navy United States.
