Creating America George Horace Lorimer And The Saturday Evening Post:

Creating America Jan Cohn,1990-07-25 Before movies radio and television challenged the hegemony of the printed word the Saturday Evening Post was the preeminent vehicle of mass culture in the United States And to the extent that a mass medium can be the expression of a single individual this magazine with a peak circulation of almost three million copies a week was the expression of its editor George Horace Lorimer Cohn shows how Lorimer made the Post into a uniquely powerful magazine that both celebrated and helped form the values of the time **The Cultural Front** Michael

Denning,1998 As garment workers longshoremen autoworkers sharecroppers and clerks took to the streets striking and organizing unions in the midst of the Depression artists writers and filmmakers joined the insurgent social movement by creating a cultural front Disney cartoonists walked picket lines and Billie Holiday and Strange Fruit at the left wing cabaret Caf Society Duke Ellington produced a radical musical Jump for Joy New York garment workers staged the legendary Broadway revue Pins and Needles and Orson Welles and his Mercury players took their labor operas and anti fascist Shakespeare to Hollywood and made Citizen Kane A major reassessment of US cultural history The Cultural Front is a vivid mural of this extraordinary upheaval which reshaped American culture in the twentieth century **Creating the Modern**

Man Tom Pendergast,2000 Pendergast traces the shift in US periodicals from Victorian masculinity which valued character integrity hard work and duty to modern masculinity which valued personality self realization and image Arguing that the rise of mass consumer culture was a key factor in the change he describes how such magazines as American Magazine Esquire and True presented masculinity in ways that reflected the magazines relationship to advertisers contributors and readers Annotation copyrighted by Book News Inc Portland OR Creating the College Man Daniel A. Clark,2010-05-25 How did a

college education become so vital to American notions of professional and personal advancement Reared on the ideal of the self made man American men had long rejected the need for college But in the early twentieth century this ideal began to change as white men born in the U S faced a barrage of new challenges among them a stultifying bureaucracy and growing competition in the workplace from an influx of immigrants and women At this point a college education appealed to young men as an attractive avenue to success in a dawning corporate age Accessible at first almost exclusively to middle class white males college funneled these aspiring elites toward a more comfortable and certain future in a revamped construction of the American dream In Creating the College Man Daniel A Clark argues that the dominant mass media of the era popular magazines such as Cosmopolitan and the Saturday Evening Post played an integral role in shaping the immediate and long term goals of this select group of men In editorials articles fiction and advertising magazines depicted the college man as simultaneously cultured and scientific genteel and athletic polished and tough Such depictions underscored the college experience in powerful and attractive ways that neatly united the incongruous strains of American manhood and linked a college education to corporate success *Reframing Rhetorical History* Kathleen J. Turner,Jason Edward Black,2022-05-17

Collection of essays that reassesses history as rhetoric and rhetorical history as practice *Talbot Mundy, Philosopher of Adventure* Brian Taves, 2014-11-26 This critical biography chronicles both the actual travels and the philosophical meanderings of Talbot Mundy one of the pioneers of the fantasy and adventure genre Less celebrated than his contemporaries Rudyard Kipling and Joseph Conrad Mundy was no less gifted when it came to the literary portrayal of faraway lands He was one of the first Western writers to show an appreciation of Eastern culture and his writing became an outlet for his radical ideas on religion and philosophy At the age of sixteen Mundy left his native England to begin his life of adventure a journey that took him from India to the Middle East to Tibet and finally to America which became his adopted home The American spirit of adventure matched Mundy's own and it was here that he found a true audience for his work This book explores Mundy's oeuvre much of it set in exotic locales through which he himself had traveled and considers both his novels and his lesser known writing as well as his film and radio work Books such as *Rung Ho King of the Khyber Rifles* *Caves of Terror* *Purple Pirate* and *Tros of Samothrace* are discussed and placed within the framework of Mundy's life and philosophy The final chapter evaluates the enduring value of his writings Appendices include a comprehensive list of Mundy's works and a chronological listing by their original publication dates **United States History** James Warren Oberly, 1995
