Charting the Supernatural Judgements of Planet Earth Jerimiah Asher, 2010-08-10 Chapter 3 The First Judgment The World Prior To Adam There may have been many judgments upon the earth since its beginning millions or billions of years ago however the present commentary will deal only with the last tens of thousands of years of earth's existence In Genesis 1:2 the verses written by Moses as author of the Genesis account portray an earth that was veiled in darkness so that its form could not be discerned The earth at that time was covered with water ice high above the mountain tops so that it gave the appearance of being a dark revolving sphere of frozen water Table 2 God's spirit is described as hovering over this revolving ball of water and brooding over the sad condition of this dark void planet God did not create a dark and dismal planet at the beginning because God does not create darkness in fact darkness is incompatible with His existence and presence So what had happened that God viewed Gen 1:2 such a decrepit state of the world Does scripture attempt to explain this phenomenon or does the inspired word of God remain silent on this issue It was first proposed as a theory by the Scotsman Thomas Chalmers in the early 19th century that a gap in time existed between Genesis 1:1 and Genesis 1:2 This gap in time would encompass a ruin reconstruction theme and the existence of pre Adamic living beings Obviously a huge catastrophic event would have had to occur to produce this decadent state of the world The gap concept was later popularized by mention in the margin notes of the Scofield Reference Bible

The Creationist Debate Arthur McCalla, 2006-06-15 This book places the present Creationist opposition to the theory of evolution in historical context by setting out the ways in which from the seventeenth century onwards investigations of the history of the earth and of humanity have challenged the biblical views of chronology and human destiny and the Christian responses to these challenges The author's interest is not primarily directed to questions such as the epistemological status of scientific versus religious knowledge or the possibility of a Darwinian ethics but rather to the problems and various responses to the problems raised in a particular historical period in the West for the Bible by the massive extension of the duration of geological time and human history

100 Years of Deception Alan R. Adaschik, 2015-06-25 The citizens of the United States have been played for fools for the past 100 years Very few of us know what is behind the events that have shaped our world Most Americans assume that information provided by the news radio and television industries is the truth And most of it is However it is also true that on critical issues we only get part of the story and important information is deliberately left out 100 Years of Deception begins by establishing that passage of the Federal Reserve Act in 1913 constituted an overthrow of our government Since then the conspirators have pulled the strings that make us dance and controlled our Nation's media to keep us in the dark and compliant The conspirators eventually infiltrated most of the key

institutions of our society Through propaganda and undue influence they have shaped how Americans view the world and left us hopelessly brainwashed This book not only demonstrates that our government was overthrown it also provides an accounting of the catastrophic consequences the world has suffered because of these conspirators and offers proposals for rectifying our deplorable state of affairs As Americans we owe it to ourselves and our children to seek the truth and put an end to the 100 Years of Deception that shaped the world within which we live *Science and Religions in America* Greg Cootsona,2022-12-30 What is religion What is science How do they interact with each other Science and Religions in America A New Look offers a cutting edge overview of the diverse range of religious traditions and their complex and fascinating interaction with science Pluralistic in scope the book is different from traditional Christian and or monotheistic approaches to studying the rich interplay of religion and science in multi religious American culture Featuring interviews with specialists in the field Greg Cootsona draws on their insights to provide a comprehensive accessible and engaging introduction to the challenging interrelationship of religion and science Each chapter focuses on a different religion within the United States covering Buddhism Christianity Nature Religions Islam Judaism Hinduism and the Spiritual but Not Religious SBNR Global religious traditions and their inextricable relationship with science and technology are examined in an accessible and interactive format With lightning round Q As contributions from leading thinkers and suggestions for further reading this book primes undergraduate students for studying the interchange of science and religions in the plural and is an exciting new resource for those interested in these topics in contemporary America **Catalog of Copyright Entries. Letis, William Monroe, Claude Patterson, Ron Zielinski, William Bentley Ball, Paul D. Ackerman, Richard Douglas Green, Geoffrey Thomas, Caroline S. Kelly, Michael Tuuri, Peter Leithart, This issue of the Journal of Christian Reconstruction focuses on the specific and immediate application of Christian Reconstruction in our society today Our major concern in this symposium is not with long term future scenarios such as a vast revival although we pray for it every day or some type of economic crisis although this is likely enough but with what we can trace of the blessed work of the Holy Spirit in applying the transforming Gospel of grace to all areas of our contemporary life and society here and now We conservative Christians have been fairly adept at discerning and describing the evils and impending disasters of our time Calling evil by its true name is after all an important part of any biblically based prophetic ministry Diagnosis is an essential part of the curative process in medicine theology and every other field But at the same time many of us have so tended to focus on the diagnosis of evil that we have failed to look up and see the widespread healing and impartation of new life that is going on all around us **Judging God**

Cedric Keith Johnson, 2012-08 Judging is the cognitive process of reaching a decision or drawing conclusions In our society we use judging to break the bounds of untruth that some use to control or lead astray while many are left along because of no harm no foul Many will come to see that this book entitled Judging God is nothing more then the process that one must use to judge the misconception that many use to control other more then themselves While other would see a deeper meaning in this concept of Judging God in that Judging God sets the process of freeing ones mind to understand the harm in the concept itself with the foul being we have all been lead astray Judging God brings into play characters that has been left out concepts that has been removed in order to serve the few to leave the massive in limbo The conclusions is this each person that reads this book understands that in life there are no conclusions we just give up the search By judging God we as a human race un judge ourselves to see each other as we are meant to be seen clearly mask removed no longer needing to confuse one another This is one person life journey of struggle and conflict with the authority of a God that his follows has caused nothing but confusing and dismay while in turn has left his believer in a state of denier this denier has cause them to look away when faced with the possibility of their god being as incomplete as themselves A small child once ask after suffering death of parent their has to be a God because I have a lot of questions that needs to be answered We all have questions that needs answering judging God is the process of identifying his character in order to ask the right questions and getting the right answer For far to long we have all been asking all the wrong people all the right question to only be turned away without our questions being fully answered Follow me on this journey for I assure you won t be disappointed just imagine me as a driver on my way to liberation I don t mind hitchhiker some will not make it to the end while some will enter an enlightenment witness like never before and other will not even last a mile which one will you be **Myths and Fictions**

Biderman, Scharfstein, 2021-11-22 Myths and Fictions the third in a series of books on comparative philosophy and religion is a collection of original essays none previously published on the theory and the actuality of myths and fictions in the different cultures of the world Through all the essays there runs the question of the relation of literal truth to truth conceived in other ways or dimensions Taken as a whole the book makes a serious attempt to get beyond the confines of any single culture and enter into the mythical imagination of the ancient Hindus Chinese Hebrews and Christians and by this act of imagination to escape in Italo Calvino's words the limited perspective of the individual ego not only to enter into selves like our own but to give speech to that which has no language

Can Religious Believers Accept Evolution? John Caiazza, 2000 That there is a conflict between religion and evolution there can be no doubt a conflict which arose during the Victorian era in England where Charles Darwin lived and where he published his famous book The Origin of Species The publication of Darwin's book evoked intense interest and public opinion quickly became polarized bringing strong support from scientists and people of a more liberal persuasion and bringing strong not to say vehement opposition from religious believers and people of a more conservative bent It was not a controversy over a slight matter a tempest in a Victorian teacup as it has been called for the issue was nothing less than the nature of man and his place in the universe among all other living beings topics which had effects on numerous other issues such as the existence of God the nature of social justice and the truth of the Bible

Proceedings, American Philosophical Society (vol. 127, No. 6, 1983) , Is Evolution Compatible with Christianity? Christopher Gieschen, 2019-09-30 All of these statements are false Christians are science

deniers when it comes to evolution Real science actually lines up more with evolution than creation as found in Genesis Fossils are evidence for evolution The Genesis account is fully compatible with evolution These questions need answers What exactly is the difference between evolution right and evolution wrong Is it possible to bend Genesis to fit evolution How can one defend belief in a six day creation from the onslaughts of the evolutionists How about any questions you have This book is a must for any Christian about to enter a public high school or university Accepting evolution as true is the basis for three of the ten reasons Christians give up saving faith It is time for you to arm yourself with the truth and stand your ground logically philosophically scientifically and most important biblically Ready Let s go The Spectator ,1885 **Don't Tell Me** Mark Schwieso,2022-08-19 Today we live in a complacent country where only certain answers are acceptable In this book the author dares to go against accepted wisdom considering questions such as Is the divorce rate really 50% and if it isn't what is it and why should we care Why is the media telling us COVID 19 is so bad Do we really know Charles Darwin's theory of evolution to be true Has the Bible been disproven and debunked Other topics include the Big Bang Theory biological differences between men and women politics and religion random mutations UFOs and global myths The author also explains that the best lies are 99% true liars practice their craft using the truth to mislead others Moreover he notes that no matter what you believe truth is still true For instance even if a person believes they can fly if they jump off a ten story building they will still die upon hitting the ground Join the author as he asks questions that the establishment would prefer you keep to yourself by reading Don't Tell Me Did God Really Say That? Harold A. Lerch, Sr.,Harold Lerch,2002-07

The World Perceived A. J. MACDONALD JR,2009-08-05 How are we to make sense of the Bible in the context of the modern world In this book you will discover a new way of perceiving the world a way in which the biblical view of the world can be seen as just as true for us as the modern scientific view of the world The World Perceived explores how we think about the world how we perceive the world and how we choose to live our lives in the world Using phenomenology as a philosophical framework for the construction of a biblical theology of appearances the author illustrates how the biblical description of reality is of far greater relevance to us than are the descriptions of reality given to us by modern science and popular science writers By exploring the epistemological bases of both science and theology as a forms of knowledge along with the assumptions implicit within both worldviews The World Perceived invites the reader upon an intellectual journey into the world of phenomenal reality The author makes a strong case for the validity of the biblical description of the world and reality by demonstrating how the modern scientific description of the world and reality are in no way superior to the biblical description Using three examples of conflicting scientific and biblical descriptions of the world i.e the geocentric versus the heliocentric conception of the universe creation versus evolution and absolute time versus relative time The World Perceived demonstrates the Bible's relevancy to the modern world which is often hostile to both religion and the Bible like no other book on the market today
