Turned On Brie Stoner, 2025-01-07 The world is imbued with a life force a thrumming relational energy of creativity That life force is Eros and connecting with the erotic opens up a world full of possibility sensuality and creativity For far too long we have relegated the erotic to the bedroom when in reality it is a fundamental energy that helps us connect more deeply with ourselves each other the earth and the creative potential within us We also live in a world that equates our productivity with our worth leaving us feeling overtaxed exhausted burned out and completely disconnected from ourselves and others In *Turned On* artist and musician Brie Stoner redefines the erotic stating that it is more than just human intimacy it can be the antidote to feeling anxious disconnected and uninspired By reframing Eros as the energy of life and creativity itself Stoner invites us to reawaken presence playfulness and possibility as the gateways to transformation Just as physical relationships are contingent upon the right context good communication and embodied presence Stoner offers a similar contextual shift and the tools needed for us to access creativity through the body and in the present moment Fittingly she explores how the erotic has been minimized and misunderstood in modern life She then offers practical applications of how an erotically enlivened life is a creatively fulfilling one in which our relationships parenting work and creativity flourish For those of us who yearn for life to be more inspired adventurous and sensual *Turned On* is our guide to relighting the spark within us

Bell, 2017-10-27 As modernity gives way to postmodernity we are witnessing the emergence of a post political age Concepts and realities that anchored modern politics like nation states community freedom and law find themselves under duress from a pluriform terror Simultaneously we are witnessing a turn to religion by continental philosophers who seek resources for re-visioning a politics of resistance to this terror This work engages postmodern philosophers such as Agamben Badiou Derrida Deleuze Hardt Negri and Žižek seeking to divine both the promise and peril of this pagan plundering of Christianity on the way to articulating a Christian theopolitical vision that holds out the hope of resisting the terror that looms over us Violence to Eternity Grace M. Jantzen, 2008-11-14 In this volume Grace M Jantzen continues her groundbreaking analysis of death and beauty in western thought by examining the religious roots of death and violence in the Jewish and Christian tradition which underlie contemporary values She shows how man's fear of the female is often implicated in religious violence and in her critique of the Hebrew Bible and the Christian New Testament she examines a range of themes that show the western preoccupation with necrophilia She examines the relation of death to the Jewish covenant the nature of monotheism Holy War and the Christian covenant and kingdom However Jantzen recognises that submerged beneath these themes in Judaism and Christianity are traces of an alternative world of beauty and life Jantzen's internationally recognised feminist philosophy of religion puts forward a powerful analysis of patriarchy and violence and reveals the hidden power of natality Her work is a searching challenge for our times and one that gives hope in a violent world This work is the first of two posthumous publications to complete her impressive genealogy death and beauty of western thought Nietzsche's 'Thus Spoke Zarathustra' Keith Ansell-Pearson, Paul S. in the pivotal exchange of ideas between Eastern and Western European intellectuals in the early twentieth century This book shines critical new light on the story of Alexandre Kojève's intellectual origins and his role in the emigration of Russian philosophy into the West in the early twentieth century Trevor Wilson illustrates how Kojève at once adversarial to the insular communities of migr philosophy and yet dependent on their networks and ideas for professional success navigated the specters of the Russian tradition in pursuit of an autonomous self definition as a philosopher and intellectual Alexandre Kojève and the Specters of Russian Philosophy analyzes the philosopher's complicated relationship to the interwar diaspora and the complex role played by the Russian tradition in his intellectual formation Wilson examines Kojève's early writings in the migr press on Russian religious philosophy Soviet politics and Eurasianism and argues for their enduring relevance for understanding Kojève in his mature period Crucially he contextualizes Kojève's famed seminars on Hegel and examines how Kojève's thought became embedded in the politics of the Cold War Based on newly transcribed and translated archival material he highlights a previously unacknowledged transnational exchange of ideas between Eastern and Western European intellectuals and shows how it played a pivotal role in twentieth century intellectual history and its legacy in the twenty first

The Seventh Major Understanding Jordan Gray, 2011-04-01 Global awakening is happening now Each of us is here to play our role in this adventure of transformation Learning and living *The Seventh Major Understanding* brings a modern Golden Age into focus Joshua a nonphysical being shares fascinating ideas about humanity's path out of the age of material accumulation into an age of peace love abundance and understanding Joshua's views about God reincarnation the ego karma judgment and other religious teachings differ from traditional wisdom He takes a fresh look at these concepts and he urges us to transcend the spiritual boundaries of both Eastern and Western religions Joshua builds upon our knowing that we create our personal and global reality Awakening to our oneness with All That Is is the path to a new way of life *The Seventh Major Understanding* shines a light on our path into a brighter personal and shared reality a new Golden Age **After God** Mark C. Taylor, 2009-03 With fundamentalists dominating the headlines and scientists arguing about the biological and neurological basis of faith religion is the topic of the day But religion Mark C Taylor shows is more complicated than either its defenders or critics think and indeed is much more influential than any of us realize Our world Taylor maintains is shaped by religion even when it is least obvious Faith and value he insists are unavoidable and inextricably interrelated for believers and nonbelievers alike Using scientific theories of dynamical systems and complex adaptive networks for cultural and theological analysis *After God* redefines religion for our contemporary age Taylor begins by asking a critical question What is religion He then proceeds to explain how Protestant ideas in particular undergird the character and structure of our global information society the Reformation Taylor argues was an information and communications revolution that effectively prepared the way for the media revolution at the end of the twentieth century Taylor's breathtaking account of religious ideas allows us to understand for the first time that contemporary notions of atheism and the secular are already implicit in

classical Christology and Trinitarian theology Weaving together theoretical analysis and historical interpretation Taylor demonstrates the codependence and coevolution of traditional religious beliefs and practices with modern literature art architecture information technologies media financial markets and theoretical biology After God concludes with prescriptions for new ways of thinking and acting If we are to negotiate the perils of the twenty first century Taylor contends we must refigure the symbolic networks that inform our policies and guide our actions A religion without God creates the possibility of an ethics without absolutes that leads to the promotion of creativity and life in an ever more fragile world Publisher description

Dramatic Experiments Eyal Peretz, 2013-09-26 Dramatic Experiments offers a comprehensive study of Denis Diderot one of the key figures of European modernity Diderot was a French Enlightenment philosopher dramatist art critic and editor of the first major modern encyclopedia He is known for having made lasting contributions to a number of fields but his body of work is considered too dispersed and multiform to be unified Eyal Peretz locates the unity of Diderot's thinking in his complication of two concepts in modern philosophy drama and the image Diderot's philosophical theater challenged the work of Plato and Aristotle inaugurating a line of drama theorists that culminated in the twentieth century with Bertolt Brecht and Antonin Artaud His interest in the artistic image turned him into the first great modern theorist of painting and perhaps the most influential art critic of modernity With these innovations Diderot provokes a rethinking of major philosophical problems relating to life the senses history and appearance and reality and more broadly a rethinking of the relation between philosophy and the arts Peretz shows Diderot to be a radical thinker well ahead of his time whose philosophical effort bears comparison to projects such as Gilles Deleuze's transcendental empiricism Martin Heidegger's fundamental ontology Jacques Derrida's deconstruction and Jacques Lacan's psychoanalysis *Urban Subversion and the Creative City* Oli Mould, 2015-03-27 Check out the author's video to find out more about the book <https://vimeo.com/124247409>

This book provides a comprehensive critique of the current Creative City paradigm with a capital C and argues for a creative city with a small c via a theoretical exploration of urban subversion The book argues that the Creative City with a capital C is a systemic requirement of neoliberal capitalist urban development and part of the wider policy framework of creativity that includes the creative industries and the creative class and also has inequalities and injustices in built The book argues that the Creative City does stimulate creativity but through a reaction to it not as part of it Creative City policies speak of having mechanisms to stimulate individual collective or civic creativity yet through a theoretical exploration of urban subversion the book argues that to be truly creative is to be radically different from those creative practices that the Creative City caters for Moreover the book analyses the role that urban subversion and subcultures have in the contemporary city in challenging the dominant political economic hegemony of urban creativity Creative activities of people from cities all over the world are discussed and critically analysed to highlight how urban creativity has become co-opted for political and economic goals but through a radical reconceptualisation of what creativity is that includes urban subversion we can begin to
