of Little Note Gender Race and Class in Historical Archaeology **Captives and Cousins** James F. Brooks, 2011-04-25 This sweeping richly evocative study examines the origins and legacies of a flourishing captive exchange economy within and among native American and Euramerican communities throughout the Southwest Borderlands from the Spanish colonial era to the end of the nineteenth century Indigenous and colonial traditions of capture servitude and kinship met and meshed in the borderlands forming a slave system in which victims symbolized social wealth performed services for their masters and produced material goods under the threat of violence Slave and livestock raiding and trading among Apaches Comanches Kiowas Navajos Utes and Spaniards provided labor resources redistributed wealth and fostered kin connections that integrated disparate and antagonistic groups even as these practices renewed cycles of violence and warfare Always attentive to the corrosive effects of the slave trade on Indian and colonial societies the book also explores slavery's centrality in intercultural trade alliances and communities of interest among groups often antagonistic to Spanish Mexican and American modernizing strategies The extension of the moral and military campaigns of the American Civil War to the Southwest in a regional war against slavery brought differing forms of social stability but cost local communities much of their economic vitality and cultural flexibility **Peacekeepers and Conquerors** Samuel J. Watson, 2013-04-23 In Jackson's Sword Samuel Watson showed how the U S Army officer corps played a crucial role in stabilizing the frontiers of a rapidly expanding nation In this sequel volume he chronicles how the corps responsibilities and leadership along the young nation's borders continued to grow In the process he shows officers reflected an increasing commitment to professionalism insulation from partisanship and deference to civilian authority all tempered in the forge of frustrating politically complex operations and diplomacy along the nation's frontiers Watson now focuses on the quarter century between the Army's reduction in force in 1821 and the Mexican War He examines a broad swath of military activity beginning with campaigns against southeastern Indians notably the dispossession of the Creeks remaining in Georgia and Alabama from 1825 to 1834 the expropriation of the Cherokee between 1836 and 1838 and the Second Seminole War He also explores peacekeeping on the Canadian border which exploded in rebellion against British rule at the end of 1837 prompting British officials to applaud the U S Army for calming tensions and demonstrating its government's support for the international state system He then follows the gradual extension of U S sovereignty in the Southwest through military operations west of the Missouri River and along the Louisiana Texas border from 1821 to 1838 and through dragoon expeditions onto the central and southern Plains between 1834 and 1845 Throughout his account Watson shows how military professionalism did not develop independent of civilian society nor was it simply a matter of growing expertise in the art of conventional warfare Indeed the government trusted career army officers to serve as federal international and interethnic mediators national law enforcers and de facto intercultural and international peacekeepers He also explores officers' attitudes toward Britain Oregon Texas and Mexico to assess their values and priorities on the eve of the first conventional war the United States had fought in more than three decades Watson's

detailed study delves deeply into sources that reveal what officers actually thought wrote and did in the frontier and border regions By examining the range of operations over the course of this quarter century he shows that the processes of peacekeeping coercive diplomacy and conquest were intricately and inextricably woven together Captives & Cousins (Volume 2 of 2) (EasyRead Super Large 18pt Edition) , **Captives & Cousins (Volume 2 of 2) (EasyRead Super Large 20pt Edition)** , **Home Lands** Virginia Scharff,Carolyn Brucken,2010-05-18 The storybook history of the American West is a male dominated narrative of drifters dreamers hucksters and heroes a tale that relegates women assuming they appear at all to the distant background Home Lands How Women Made the West upends this view to remember the West as a place of homes and habitations brought into being by the women who lived there Virginia Scharff and Carolyn Brucken consider history s long span as they explore the ways in which women encountered and transformed three different archetypal Western landscapes the Rio Arriba of northern New Mexico the Front Range of Colorado and the Puget Sound waterscape This beautiful book companion volume to the Autry National Center s pathbreaking exhibit is a brilliant aggregate of women s history the history of the American West and studies in material culture While linking each of these places peoples to one another over hundreds even thousands of years Home Lands vividly reimagines the West as a setting in which home has been created out of differing notions of dwelling and family and differing concepts of property community and history Copub Autry National Center of the American West **Captives & Cousins (Volume 2 of 3) (EasyRead Super Large 24pt Edition)** , **Archaeology and Preservation of Gendered Landscapes** Sherene Baugher,Suzanne M. Spencer-Wood,2010-03-11 Historical archaeology of landscapes initially followed the pattern of Classical Archaeology by studying elite men s gardens Over time particularly in North America the field has expanded to cover larger settlement areas but still often with ungendered and elite focus The editors of this volume seek to fill this important gap in the literature by presenting studies of gendered power dynamics and their effect on minority groups in North America Case studies presented include communities of Native Americans African Americans multi ethnic groups religious communities and industrial communities Just as the research focus has previously neglected the groups presented here so too has funding to preserve important archaeological sites As the contributors to this important volume present a new framework for understanding the archaeology of religious and social minority groups they also demonstrate the importance of preserving the cultural landscapes particularly of minority groups from destruction by the modern dominant culture A full and complete picture of cultural preservation has to include all of the groups that interacted form it Twenty Thousand Roads Virginia Scharff,2003 Virginia Scharff s wonderfully readable account of women in motion complicates and enriches our understanding of the nineteenth and twentieth century Wests Her gendered remapping of the regional landscape explodes traditional notions of western movement All students of women and gender travel and place the West and America would do well to read this excellent book David M Wrobel author of Promised Lands Promotion Memory and the Creation of the American West Virginia Scharff

Queering the Countryside Mary L. Gray,Colin R. Johnson,Brian J. Gilley,2016-03-15 This collection of original essays confronts the assumption that queer desires depend upon urban life for meaning By considering rural queer life the contributors challenge

readers to explore queer experiences in ways that give greater context and texture to modern practices of identity formation. The book's focus on understudied rural spaces throws into relief the overemphasis of urban locations and structures in the current political and theoretical work on queer sexualities and genders. It highlights the need to rethink notions of the closet and coming out and the characterizations of non-urban sexualities and genders as isolated and in need of outreach. Provided by publisher
