The

Armenian Massacres of 1915–1916 a Hundred Years Later Flavia Lattanzi, Emanuela Pistoia, 2018-05-30 This peer reviewed book features essays on the Armenian massacres of 1915 1916 It aims to cast light upon the various questions of international law raised by the matter The answers may help improve international relations in the region In 1915 1916 roughly a million and a half Armenians were murdered in the territory of the Ottoman Empire which had been home to them for centuries Ever since a dispute between Armenians and Turkey has been ongoing over the qualification of the massacres The contributors to this volume examine the legal nature and consequences of this event Their investigation strives to be completely neutral and technical The essays also look at the broader issue of denial For instance in Turkey public speech on the matter can still trigger criminal prosecution whereas in other European States denial of genocide war crimes and crimes against humanity is criminalized However the European Court of Human Rights views criminal prosecution of denial of the Armenian massacres as unlawful In addition one essay considers a state's obligation to remember by looking at lessons learnt from the Inter American Court of Human Rights Another contributor looks at a collective right to remember and some ideas to move forward towards a solution Moreover the book explores the way the Armenian massacres have affected the relationship between Turkey and the European Union

Gunter, 2011-05-09 An analysis of the Turkish position regarding the Armenian claims of genocide during World War I and the continuing debate over this issue the author offers an equal examination of each side's historical position The book asks what is genocide and illustrates that although this is a useful concept to describe such evil events as the Jewish Holocaust in World War II and Rwanda in the 1990s the term has also been overused misused and therefore trivialized by many different groups seeking to demonize their antagonists and win sympathetic approbation for them The author includes the Armenians in this category because although as many as 600 000 of them died during World War I it was neither a premeditated policy perpetrated by the Ottoman Turkish government nor an event unilaterally implemented without cause Of course in no way does this excuse the horrible excesses committed by the Turks
