history geography religion and devotion to the Abbasid cause shared by the Turks and their rivals While extolling the Turks merits as soldiers al J i stresses unity and reconciliation over discord and division The result is a remarkable essay offering insight into social and political cohesion in the Abbasid empire at its height and the rifts that threatened its stability A bilingual Arabic English edition      **Deception in Medieval Warfare** James Titterton,2022 First full length study of the use and perception of deceit in medieval warfare Deception and trickery are a universal feature of warfare from the Trojan horse to the inflatable tanks of the Second World War The wars of the Central Middle Ages c 1000 1320 were no exception This book looks at the various tricks reported in medieval chronicles from the Normans feigning flight at the battle of Hastings 1066 to draw the English off Senlac Hill to the Turks who infiltrated the Frankish camp at the Field of Blood 1119 disguised as bird sellers to the Scottish camp followers descending on the field of Bannockburn 1314 waving laundry as banners to mimic a division of soldiers This study also considers what contemporary society thought about deception on the battlefield was it a legitimate way to fight Was cunning considered an admirable quality in a warrior Were the culturally and religious other thought to be more deceitful in war than Western Europeans Through a detailed analysis of vocabulary and narrative devices this book reveals a society with a profound moral ambivalence towards military deception in which authors were able to celebrate a warrior s cunning while simultaneously condemning their enemies for similar acts of deceit It also includes an appendix cataloguing over four hundred incidents of military deception as recorded in contemporary chronicle narratives

L. Gommans,2002 Mughal Warfare offers a much needed new survey of the military history of Mughal India during the age of imperial splendour from 1500 to 1700 Jos Gommans looks at warfare as an integrated aspect of pre colonial Indian society Based on a vast range of primary sources from Europe and India this thorough study explores the wider geo political cultural and institutional context of the Mughal military Gommans also details practical and technological aspects of combat such as gunpowder technologies and the animals used in battle His comparative analysis throws new light on much contested theories of gunpowder empires and the spread of the military revolution      *Egypt and the Eastern Mediterranean World* Jelle Bruining,Janneke H. charity and giving in monotheistic religions
