

**“La ciudad se  
entiende aquí como  
una arquitectura, y  
esta, a su vez, como  
construcción de la  
ciudad en el tiempo”**

# Arquitectura De La Ciudad La

**José Ramón Alonso Pereira**

## Arquitectura De La Ciudad La:

Introducción a la historia de la arquitectura José Ramón Alonso Pereira, 2005 Este libro recoge con una visión general y unitaria el devenir de la arquitectura occidental a través del tiempo desde sus orígenes remotos hasta nuestra misma contemporaneidad no es ni pretende ser una historia convencional de la arquitectura sino una introducción a su estudio que desvele sus claves y permita acceder a su realidad tanto al profesional como al aficionado y especialmente a quien se acerca a la arquitectura por primera vez *La arquitectura de la ciudad* Aldo Rossi, 1976 **Arquitectura, ciudad e ideología antiurbana** José Manuel Pozo Municio, Ignasi López Trueba, 2002 **Arquitectura, ciudad, medioambiente** Jaime López de Asiaín, 2001 Estudio del arquitecto Jaime López de Asiaín perteneciente a esta colección iniciada en el año 1991 fruto del convenio suscrito entre la Universidad de Sevilla y la Consejería de Obras Públicas y Transportes Tiene por objeto la publicación de trabajos de interés científico relacionados con las distintas materias que son competencia administrativa de la misma

*Architecture for Spain's Recovered Democracy* Manuel López Segura, 2023-03-30 Historical studies on the involvement of architecture in twentieth century politics have overlooked its contribution to building Spain's democracy This pioneering book seeks to fill that void Between the late 1970s and early 1990s Spain founded representative institutions launched its welfare state and devolved autonomy to its regions The study brings forth the architectural incarnation of that threefold program as it deployed in the Valencian Country a Catalan speaking region on Spain's Mediterranean shores There social democratic authorities mobilized architects planners and graphic artists to devise a newly open public sphere and to recover a local identity that Franco's dictatorship had repressed for decades The research follows the impetus of reform and its contradictions through urban projects designs for cultural amenities and the renovation of governmental and professional bodies Architecture for Spain's Recovered Democracy contributes to current debates on nationalism and the arts the environments of democratic socialism and postmodernism and neoliberalism As a result it widens our understanding of how peripheral regions may yield egalitarian architectures of resistance This book is written for students and researchers in architecture and planning art history spatial politics and Hispanic studies as well as for a general readership interested in inclusive politics in the built environment **Arquitectura y urbanismo valenciano en el franquismo (1939-1975)** Pascual Patuel Chust, 2021-01-18 Aunque los casi cuarenta años que duró el franquismo constituyen una etapa dominada por el autoritarismo político en el contexto de la arquitectura y el urbanismo desarrollados en el seno del mundo valenciano hay que valorar la labor de muchos arquitectos que supieron entroncar con la modernidad constructiva urbanística y convertirse en excelentes profesionales a pesar de los condicionantes y las directrices impuestos por un gobierno dirigista Guiados por el eje cronológico y la evolución de las tipologías constructivas y los diseños urbanísticos en el horizonte que se abre tras la Guerra Civil española se puede deslindar bien la presencia de dos periodos arquitectónicos que compartieron cronología inquietudes y lenguajes Tras la contienda se registra la misma vuelta al tradicionalismo que observamos en las artes plásticas

con un tipo de arquitectura historicista que retoma planteamientos anteriores a los años veinte La conexión en el ámbito internacional se produce a mediados de la década de los cincuenta y se sustantiva fundamentalmente en el movimiento moderno Atendiendo a esta situación el texto se ha vertebrado en dos bloques cronológicos que intentan ensamblar la relación dialéctica entre urbanismo y arquitectura El historicismo y la postguerra y La renovación racionalista de mediados de los cincuenta Una contribución fundamental al conocimiento de nuestra arquitectura reciente y el ámbito urbano en el que crecí insertos en sus contextos correspondientes porque es difícil apreciar algo que no se conoce suficientemente **The Urban Scene and the History of the Future**, 1995 *Congrès international, conservation, réhabilitation, recyclage* Université Laval. École d'architecture, Ordre des architectes du Québec, 1981 **Utopías de la ciudad. La construcción del sentido urbano desde los colectivos** Humberto Orozco Barba, 2016-10-17 Hay colectivos ciudadanos que sueñan con cambiar la urbe en la que viven pugnan por convertirla en un sitio más justo y equitativo para todos y luchan contra las acciones burocráticas y capitalistas que deterioran la calidad de vida de sus habitantes Estos movimientos ciudadanos constituyen utopías que implican confrontar a fuertes intereses económicos y políticos en aras de posicionar nuevos significados culturales de lo que representa habitar el espacio público y la convivencia social en la ciudad Esta obra trata precisamente sobre las utopías de los colectivos urbanos al participar en la disputa por la construcción social del sentido de la ciudad A través del testimonio de los utopistas se recupera la experiencia de colectivos que se integraron para incidir en la movilidad la ecología la defensa del habitat y de los derechos humanos el uso del suelo el agua el bosque y la recuperación del espacio público así como en la sustentabilidad y el mejoramiento de la calidad de vida y los reinterpreta desde el pensamiento filosófico ITESO **Apuntes de órdenes clásicos y composición de arquitectura** Jesús Galindo y Villa, 1898 **Derivas** Roberto Fernández, 2001 **Chile Underground** Andra B Chastain, 2024-11-12 A fascinating historical examination of the Santiago Metro system as a microcosm of Chilean national identity during the twentieth century The Santiago Metro the largest urban infrastructure project in Chile's history was designed in the 1960s in response to rapid urban growth Despite the upheavals of Salvador Allende's democratic socialism 1970-1973 and Augusto Pinochet's military dictatorship 1973-1990 the project survived and is now the largest metro system in South America What explains its success How did its meaning shift under democracy and dictatorship What does its history reveal about struggles for a more just city Drawing on Chilean and French archives Andra B Chastain demonstrates that Chilean French relations and French financing were crucial to the project's survival during the Cold War The Metro's history also illuminates the contested process of implementing neoliberalism and the unexpected continuities of state planning and visions for a rational city that persisted despite free market reforms Most important this story shows that the Metro came to symbolize the nation and became a critical site where planners workers and urban residents contested Chile's path to modernity [El arquitecto Francisco Gil González \(1905-1962\) y la arquitectura salmantina del segundo tercio del siglo XX](#) NÚÑEZ IZQUIERDO, Sara, 2014-08-01 ES Esta obra

se dedica al análisis del devenir arquitectónico de la ciudad de Salamanca desde 1933 hasta 1966 años en los que se produjo una profunda transformación del paisaje urbano Este arco temporal recorre capítulos de la arquitectura española que comprende desde la Generación del 25 el Art Deco el Racionalismo la desorientación de la posguerra que se manifiesta a través del historicismo y la arquitectura desornamentada para finalizar con los intentos renovadores que comenzaron en la década de los años cincuenta

EN The aim of this work is to analyze the development of the architecture of Salamanca from 1933 to 1966 years of urban deep transformation It is included in this period examples of the 1925 Generation architects the Art Deco the Rationalism and the postwar confusion with the Historicism and plain cases to end in the Fifties with the attempt of renovation Thus in one hand the author is focus in the detailed study of the architect Francisco Gil González 1905 1962 graduate in 1966 life and works This artist designed rationalism and historicism buildings that along with some of his modern proposals extolled him as one of the best architects of Salamanca during the XX Century In the other hand this work shows a complete display of the urban normative and also the study of the buildings that were erected during those years by others architects

As la autora se centra por un lado en el estudio pormenorizado de la vida y obra del arquitecto salmantino Francisco Gil González 1905 1962 titulado en 1966 Este facultativo destaca por la calidad de sus diseños de estilo racionalista e historicista y por la modernidad de algunas de sus propuestas lo que en conjunto le encumbró como uno de los mejores arquitectos de Salamanca del siglo XX Por otro lado la obra también incorpora una completa exposición de la normativa urbanística aprobada en esos años así como los inmuebles proyectados por un nutrido grupo de arquitectos a los que se han dedicado completas biografías en las que se incluyen sus etapas arquitectónicas

**Multi-scale Perspectives on Building Heritage Conservation and Sustainable Cities** Graziella Bernardo, Luis Manuel Palmero Iglesias, 2025-07-26 The book investigates modern architecture as an architectural and cultural heritage highlighting with a holistic view of sustainability the aspects that have led to epochal changes in the way cities are designed and lived Currently many of these buildings spread throughout the world are not recognized as architectural heritage due to the lack of knowledge of innovations in design approaches materials and building technologies and their social and economic implications in the development of contemporary cities The main objective is to raise awareness promote revalue and preserve the building heritage of the last century through their maintenance and adaptive reuse to the changing needs of the community according to new models of the circular economy and the use of digital technologies The topics treated with multidisciplinary approaches reconstruct a recent past of which memory has been lost and highlight how the heritage built is a resource of incalculable value that can greatly contribute to the sustainability of cities
