Art 32 Basel:

Art 32 Basel Samuel Keller, 2001 Art Basel is considered the world's leading fair for modern and contemporary art. The fair catalogue presents the most extensive overview of offerings on the international art market as well as information about this important annual art world event. An indispensable reference and popular collector's item for art lovers, the catalogue features over 600 illustrations, detailed information on the 250 leading galleries in Europe, North and South America, Asia, and Australia, an index of 1 000 prominent artists, and the galleries representing them, an index of art publications from all over the world, and essays on the development of art and the art market by important authors who have in the past included Harold Szeemann and Christian von Faber-Castell. This is an essential reference for all serious art professionals and collectors. *Art Now Gallery Guide*, 2003-05. *An Introduction to Transnational Criminal Law* Neil Boister, 2012-09-06. The suppression of cross border criminal activity has become a major global concern. *An Introduction to Transnational Criminal Law* examines how states acting together are responding to these forms of criminality through a combination of international treaty obligations and national criminal laws. Multilateral suppression conventions oblige states parties to criminalise a broad range of activities including drug trafficking, terrorism, transnational organised crime, corruption, and money laundering, and to provide for different types of international procedural cooperation like extradition and mutual legal assistance in regard to these offences. Usually regarded as a sub set of international criminal justice, this system of law is beginning to receive greater attention as a subject in its own right as the scale of the criminal threat and the complexity of synergizing the criminal laws of different states is more fully understood. The book is divided into three parts. Part A asks and attempts to answer what is transnational crime and what is transnational criminal law. Part B explores a selection of substantive transnational crimes from piracy through to cybercrime. Part C examines the main procedural mechanisms involved in establishing jurisdiction and then the exercise of jurisdiction through the effective investigation and prosecution of transnational crimes. Finally, Part D looks at the implementation of transnational criminal law and the prospects for transnational criminal justice. Until recently, this system of law has been largely the domain of professionals. *An Introduction to Transnational Criminal Law* provides a comprehensive introduction designed to fill that gap. *Principles of International Economic Law* Matthias Herdegen, 2024-05-07. Herdegen's *Principles of International Economic Law* has established itself as a leading textbook in the field. This fully updated third edition covers areas of growing relevance in international economic law, including corporate social responsibility challenges, for WTO law, the impact of human rights and environmental law, and cryptocurrencies. **The Carriage of Goods in Swiss Law** Vesna Polić Foglar, 2022-08-19.
