The Prison Boundary Jennifer Turner, 2016-07-13 This book explores the idea of the prison boundary identifying where it is located which processes and performances help construct and animate it and who takes part in them Although the relationship between prison and non prison has garnered academic interest from various disciplines in the last decade the cultural performance of the boundary has been largely ignored This book adds to the field by exploring the complexity of the material and symbolic connections that exist between society and carceral space Drawing on a range of cultural examples including governmental legislation penal tourism prisoner work programmes and art by offenders Jennifer Turner attends to the everyday practised manifestations and negotiations of the prison boundary The book reveals how prisoners actively engage with life outside of prison and how members of the public may cross the boundary to the inside In doing so it shows the prison boundary to be a complex patchwork of processes people and parts The book will be of great interest to scholars and upper level students of criminology carceral geography and cultural studies
