

Chapter One

MOMENT OF DESTINY

THIS was the great moment the Chinese people had been suffering, fighting, and waiting for—year after bitter year. Japan collapsed and surrendered.

Enslaved China, so long under the Japanese heel, was free. And Free China, so long blockaded, was at last open to a new, peaceful world.

But that moment found the nation in greater danger and more deeply divided than ever—torn in two.

The drums of Japan's march of aggression ceased beating. But the angry rumble of China's internal conflict which had been ebbing and flowing as its steady accompaniment through fifteen years, did not die down. It rose. It threatened once again to swell into the frenzied fortissimo of open civil war.

Even before the Japanese laid down their arms, Chinese rushed to take them up to fight Chinese.

Would they still hesitate, desist? Would America and Russia unite in a decision to *make* them halt? Or would they fan the fire, unheeding of the consequences?

That fateful moment would decide the future of the hard-won peace of China—and of Asia and the world. . . .

The drama of disunity and confusion on China's political stage was floodlighted in a sudden, vivid flash—for all of us to see and, if possible, to comprehend its fateful meaning.

In the foreground—*Chungking*.

Body Worlds in which many of the bodies on display originated from Chinese prisons Rachel C Lee teases out the
preoccupation with human fragments and posthuman ecologies in the context of Asian American cultural production and
theory She unpacks how the designation of Asian American itself is a mental construct that is paradoxically linked to the
biological body Through chapters that each use a body part as springboard for reading Asian American texts Lee inaugurates
a new avenue of research on biosociality and biopolitics within Asian American criticism focused on the literary and cultural
understandings of pastoral governmentality the divergent scales of embodiment and the queer cross species being of racial
subjects She establishes an intellectual alliance and methodological synergy between Asian American studies and Science

analysis of a crucial and distinctive element of Chinese foreign policy Anne Marie Brady follows the development of the
Chinese Communist Party s foreign affairs system since 1921 focusing on waishi the external policies intended to influence
and control both foreigners themselves as well as Chinese citizens contact with and perception of outsiders The term also
comprises China s external relations both official state to state and so called unofficial or people to people diplomacy In effect
waishi activities encompass all matters related to foreigners and foreign things not merely diplomacy By managing the
foreign presence in China and China s contacts with the outside world and by controlling the Chinese population the author
argues that waishi has proven to be one of the most effective tools in the CCP s repertoire for building and then sustaining its
hold on power Drawing for the first time on policy documents that underpin the phenomena they describe Brady analyzes

trends and developments in waishi during each chronological period The book elucidates how the CCP s policies evolved In the 1930s the need for a broad united front in international relations warred with the desire to control the foreign presence in China in the 1940s and 1950s the Sino Soviet alliance and ridding China of the traces of the semi colonial past took precedence in the 1960s the Sino Soviet split led to China s claim as the center of world revolution and in the past twenty years of reform the focus has been the ongoing quest to create a modern nation state as China opens up to the outside world The author considers waishi s deeper meaning as an overriding approach to the foreign which links state to state diplomacy with the management of the foreign presence in China Her groundbreaking research is based on a previously unexplored genre of waishi materials almost all classified in Chinese extensive interviews with waishi officials and foreign participant
