Financing the Entrepreneurial Venture Paul A. Gompers,2024-06-04 Financing the

Entrepreneurial Venture focuses on financial management within entrepreneurial firms. Most of these are young firms, although some are more established. The book examines these firms at all phases of their life cycle from the initial idea generation to the ultimate harvesting of the venture. The book covers firms in a diverse set of industries including high technology, low technology, and services. A significant fraction of the cases focus on non-U.S. ventures. Additionally, the issues of gender and diversity are addressed in a number of settings.

Peacemakers in Israel-Palestine Robert

Hostetter, 2022-10-04. This book offers an analysis of the major sources of the Israeli-Palestinian conflict and suggests principles and processes for building a peacemaking platform. The primary aim of this book is to analyze the crucial roles and capacities of mid-level nongovernmental peacemakers as they provide unique approaches to transforming the Israeli-Palestinian conflict. It also aims to analyze and experience dialogue as the primary mode of peacemaking communication. The two-part format of this book creates a structural dialogue. Part One provides an academic introduction to the Israeli-Palestinian conflict, why it matters, the role of identities and strategies for transforming the conflict based on international law and human rights. Part Two is presented in a dialogue format providing further conflict analysis through storytelling and dialogues with peacemakers. This book will be of great interest to anyone engaged with peace and conflict transformation, ethnography, social justice, communication studies, and Middle Eastern studies, human rights, and international law.

Interpreting the Historical Books Robert B. Chisholm, This valuable reference tool for students and pastors explores the components of the narrative genre: setting, characterization, and plot, and then develops the major theological themes in each of the Old Testament historical books.

Israeli Innovation Economy Amelia Green, AI, 2025-02-27. The Israeli Innovation Economy explores the unique factors driving Israel's technological success. It argues that a thriving innovation economy arises from the convergence of defense technology, commercialization, and venture capital networks. Israel's historical emphasis on technology, fueled by security needs, unexpectedly spurred its civilian tech sector. The book highlights how repurposing military technologies for civilian use, supported by strategic investments, creates a self-sustaining cycle of innovation and economic growth, challenging traditional models dependent on large corporations. The book provides a fact-based analysis of Israel's startup ecosystem, examining the roles of government policy, academic research, and entrepreneurial culture. It delves into specific cases of defense technologies successfully commercialized and analyzes the investment strategies of Israeli venture capital firms. By synthesizing these elements, the book offers a framework for understanding the Israeli model and its potential applications elsewhere.
