Challenging The Mandate Of Heaven Social Protest And State Power In China:

Challenging the Mandate of Heaven Elizabeth J. Perry, 2002 Social science theories of contentious politics have been based almost exclusively on evidence drawn from the European and American experience and classic texts in the field make no mention of either the Chinese Communist revolution or the Cultural Revolution surely two of the most momentous social movements of the twentieth century Moreover China's record of popular upheaval stretches back well beyond this century indeed all the way back to the third century B C This book by bringing together studies of protest that span the imperial Republican and Communist eras introduces Chinese patterns and provides a forum to consider ways in which contentious politics in China might serve to reinforce refine or reshape theories derived from Western cases *Social Protest and Contentious Authoritarianism in China* Xi Chen, 2012 Xi Chen explores the dramatic rise in and routinization of social protests in China since the early 1990s **Contested Cities and Urban Activism** Ngai Ming Yip, Miguel Angel Martínez López, Xiaoyi Sun, 2018-10-13 This edited volume advances our understanding of urban activism beyond the social movement theorization dominated by thesis of political opportunity structure and resource mobilization as well as by research based on experience from the global north Covering a diversity of urban actions from a broad range of countries in both hemispheres as well as the global north and global south this unique collection notably focuses on non institutionalised or localised urban actions that have the potential to bring about radical structural transformation of the urban system and also addresses actions in authoritarian regimes that are too sensitive to call themselves movement It addresses localized issues cut off from international movements such as collective consumption issues like clean water basic shelter actions against displacement or proper venues for street vendors and argues that the integration of the actions in cities in the global south with the specificity of their local social and political environment is as pivotal as their connection with global movement networks or international NGOs A key read for researchers and policy makers cutting across the fields of urban sociology political science public policy geography regional studies and housing studies this text provides an interdisciplinary and international perspective on 21st century urban activism in the global north and south **The Politics of Collective Violence** Charles Tilly, 2003-03-17 Are there any commonalities between such phenomena as soccer hooliganism sabotage by peasants of landlords property incidents of road rage and even the events of September 11 With striking historical scope and command of the literature of many disciplines this book first published in 2003 seeks the common causes of these events in collective violence In collective violence social interaction immediately inflicts physical damage involves at least two perpetrators of damage and results in part from coordination among the persons who perform the damaging acts Professor Tilly argues that collective violence is complicated changeable and unpredictable in some regards yet that it also results from similar causes variously combined in different times and places Pinpointing the causes combinations and settings helps to explain collective violence and its variations and also helps to identify the best ways to mitigate violence and create democracies with a

minimum of damage to persons and property **State-Led Privatization in China** Jin Zeng, 2013-10-01 Large scale privatization did not emerge spontaneously in China in the late 1990s Rather the Chinese state led and carefully planned ownership transformation with timetables and measurable privatization quotas not for the purpose of extracting the state from the economy but in order to strengthen the rule of the Party While it is widely believed that authoritarian regimes are better suited than democracies to carry out economic reform this book provides a more nuanced understanding of reform in China demonstrating that the Chinese state's capacity to impose unpopular reform is contingent on its control over local state agents and its adaptability to societal demands Building on rich fieldwork data gathered in three Chinese cities Shenyang Shanghai and Xiamen this book offers the first comparative study of China's privatization processes at the local level Instead of focusing solely on political elites Jin Zeng adopts a multi level interaction approach to examine how the complex interplay of the central leadership grassroots officials and state owned enterprise managers and workers shaped the contour of privatization in China The book advances three central arguments First local economic structure and cadre evaluation system mediated local officials incentives to initiate privatization Second local officials relied on mobilization campaigns and various appeasement measures to implement privatization Finally the dynamics of privatization were fundamentally driven by the central government's reactions to social opposition and by the subsequent responses of local officials to the changed political regulatory environment As a detailed analysis of the dual transformation of the property regime and state society relations in China this book will be invaluable to students and scholars of Chinese politics economic reform as well as those interested in comparative political economy and economic development more broadly *Disruptions as Opportunities* Taiyi Sun, 2023-03-01 *Disruptions as Opportunities* Governing Chinese Society with Interactive Authoritarianism addresses the long standing puzzle of why China outlived other one party authoritarian regimes with particular attention to how the state manages an emerging civil society Drawing upon over 1 200 survey responses conducted in 126 villages in the Sichuan province as well as 70 interviews conducted with Civil Society Organization CSO leaders and government officials participant observation and online research the book proposes a new theory of interactive authoritarianism to explain how an adaptive authoritarian state manages nascent civil society Sun argues that when new phenomena and forces are introduced into Chinese society the Chinese state adopts a three stage interactive approach toward societal actors toleration differentiation and legalization without institutionalization Sun looks to three disruptions earthquakes internet censorship and social media based guerrilla resistance to the ride sharing industry to test his theory about the three stage interactive authoritarian approach and argues that the Chinese government evolves and consolidates its power in moments of crisis **Handbook of Protest and Resistance in China** Teresa Wright, 2019 Featuring contributions from top scholars and emerging stars in the field the Handbook of Protest and Resistance in China captures the complexity of protest and dissent in contemporary China while simultaneously exploring a number of unifying themes

Examining how when and why individuals and groups have engaged in contentious acts and how the targets of their complaints have responded the volume sheds light on the stability of China's existing political system and its likely future trajectory

Culture and Gender in Leadership J. Rajasekar, L. Beh, 2013-10-18 The overall aim of this volume is to present the research studies carried out in the Middle East and Asia in the fields of culture and gender and their influence on leadership in particular The cultures and practices of these geographical regions are very much varied and this book Culture and Gender in Leadership Perspectives from the Middle East and Asia brings together analyses of these themes in selected countries of these two regions The chapter authors use detailed descriptions case studies and vignettes to speak to the cultural relativism and gender in leadership in these countries and provide a unique and comparative perspective drawn from their own cultures This volume also contributes to the development of theory and empirical research found in these regions and through the collective efforts presented in this book attempts to strengthen the body of knowledge and practice in the fields of culture and gender in leadership As Asia is becoming the engine of economic growth for the world and Arab Spring is opening up new vistas in the Middle East this book is a must read

Eating Bitterness Kimberley Ens Manning, Felix Wemheuer, 2011-01-01 When the Chinese Communist Party assumed power Mao Zedong declared that not even one person shall die of hunger A little over a decade later China was in the midst of the most devastating famine in modern history Between 1957 and 1962 the years commonly associated with Mao's Great Leap Forward some 30 million peasants died of starvation and exhaustion Rather than exploring why party leaders stumbled so badly in their attempts to modernize China the contributors to this landmark collection draw on newly available sources to show how men and women in rural and urban settings experienced the changes during this period Eating Bitterness lifts the curtain of officially propagated images of mass mobilization to expose the uneven and deeply contested nature of state society relations in Maoist China It also illuminates the role that history writing and memory have played in shaping narratives of the recent past

Christianity in Chinese Public Life: Religion, Society, and the Rule of Law J. and future of the People's Republic of China **China's Developmental Miracle** Alvin Y. So, 2016-07-08 In contrast to the failure to economic reforms in Eastern Europe China's economic reforms have been quite successful Decollectivization marketization state enterprise reforms and reintegration into the world economy have led to very rapid economic development in China over the past two decades These economic reforms in turn triggered profound social and political changes This collection examines the origins nature and impact as well as the future prospects of these reforms and changes The contributors are all active researchers from a variety of disciplines including economics sociology political science and geography Chinese Society Elizabeth J. Against the Law Ching Kwan Lee, 2007 This powerful study opens a critical perspective on the slow death of socialism and the rebirth of capitalism in the world's most dynamic and populous country Based on remarkable fieldwork and extensive interviews in Chinese textile apparel machinery and household appliance factories *Against the Law* dissects the world of Chinese workers today and finds a rising tide of labor unrest mostly hidden from the world's attention Intense working class agitation is being spurred by massive unemployment of Mao's socialist proletariat in the northern rustbelt and by the exploitation of millions of young workers in the southern sunbelt Providing a broad comparative political and economic analysis of the vast mosaic of this labor struggle together with unprecedented fine grained ethnographic detail the book portrays the multi faceted humanity of the Chinese working class as their stories unfold in bankrupt state factories and global sweatshops in crowded dormitories and remote villages at heroic moments of street protests as well as in quiet disenchantment with the corrupt officialdom and the fledgling legal system **Civil Society in China** Karla W

Simon, 2013-05-02 This is the definitive book on the legal and fiscal framework for civil society organizations CSOs in China from earliest times to the present day *Civil Society in China* traces the ways in which laws and regulations have shaped civil society over the 5 000 years of China's history and looks at ways in which social and economic history have affected the legal changes that have occurred over the millennia This book provides an historical and current analysis of the legal framework for civil society and citizen participation in China focusing not merely on legal analysis but also on the ways in which the legal framework influenced and was influenced in turn by social and economic developments The principal emphasis is on ways in which the Chinese people as opposed to high ranking officials or cadres have been able to play a part in the social and economic development of China through the associations in which they participate *Civil Society in China* sums up this rather complex journey through Chinese legal social and political history by assessing the ways in which social economic and legal system reforms in today's China are bound to have an impact on civil society The changes that have occurred in China's civil society since the late 1980's and most especially since the late 1990's are nothing short of remarkable This volume is an essential guide for lawyers and scholars seeking an in depth understanding of social life in China written by one its leading

Collective Resistance in China Yongshun Cai, 2010-02-17 Although academics have paid much attention to contentious politics in China and elsewhere research on the outcomes of social protests both direct and indirect in non-democracies is still limited In this new work Yongshun Cai combines original fieldwork with secondary sources to examine how social protest has become a viable method of resistance in China and more importantly why some collective actions succeed while others fail Cai looks at the collective resistance of a range of social groups peasants to workers to homeowners and explores the outcomes of social protests in China by adopting an analytical framework that operationalizes the forcefulness of protestor action and the cost-benefit calculations of the government He shows that a protesting group's ability to create and exploit the divide within the state mobilize participants or gain extra support directly affects the outcome of its collective action Moreover by exploring the government's response to social protests the book addresses the resilience of the Chinese political

system and its implications for social and political developments in China China's Democratic Future Bruce Gilley, 2004
