Social Conflict and the Political Order in Modern Britain James E Cronin, Jonathan Schneer, 2024-10-02 First Published in 1982 Social Conflict and the Political Order in Modern Britain offers a selection of work on British social history done by scholars working in a distinctly American context The authors strongly feel that the way forward in social history is not some retreat into still more detailed apolitical history nor a move away from social analysis back towards a study of the purely political Rather it seems that the most fruitful path to follow is to build upon the strengths and achievements of the previous social history with a view towards theorizing its political significance while struggling to create a new kind of political history that will be more integrally social The book brings important themes like Britain and the social movements strikes and the urban hierarchy in English industrial towns British dockers during First World War the British Labour and the Cold War and rethinking labour history and the importance of work This is a must read for scholars and researchers of labour history British history social history and history in general Labour, 2004

Reclaiming Participatory Governance Adrian Bua,Sonia Bussu,2023-05-12 Reclaiming Participatory Governance offers empirical and theoretical perspectives on how the relationship between social movements and state institutions is emerging and developing through new modes of participatory governance One of the most interesting political developments of the past decade has been the adoption by social movements of strategies seeking to change political institutions through participatory governance These strategies have flourished in a variety of contexts from anti austerity and pro social justice protests in Spain to movements demanding climate transition and race equality in the UK and the USA to constitutional reforms in Belgium and Iceland The chief ambition and challenge of these new forms of participatory governance is to institutionalise the prefigurative politics and social justice values that inspired them in the first place by mobilising the bureaucracy to respond to their claims for reforms and rights The authors of this volume assess how participatory governance is being transformed and explore the impact of such changes providing timely critical reflections on the constraints imposed by cultural economic and political power relations on these new empowered participatory spaces the potential of this new wave of participatory democracy to reimagine the relationship between citizens and traditional institutions towards more radical democratic renewal where and how these new democratisation efforts sit within the representative state and how tensions between the different demands of lay citizens organised civil society and public officials are being managed This book will be an important resource for students and academics in political science public administration and social policy as well as activists practitioners and policymakers interested in supporting innovative
