Ancient Trees Anna Lewington, 2030-01-01 Among all the varied productions with which Nature has adorned the surfaces of the earth none awakens our sympathies or interests our imagination so powerfully as those venerable trees which seem to have stood the lapse of ages John Muir 1868 A fascinating celebration of the some of the oldest living organisms on the planet from the grand Oaks of Europe and mighty Redwoods of California to Africa's upside down Baobab tree and from the Ginkgos of China and Korea to the Olive tree the worldwide symbol of peace Ancient Trees covers those species of tree that have lived for more than a thousand years the Redwood Bristlecone pine Montezuma Cypress the Monkey Puzzle Amazonian Ancients Yew Oak Sweet Chestnut Lime Olive Welwitschia the Baobab Kauri Totara Antarctic Beech the Fig Cedar and Ginkgo Anna Lewington the well known writer on all things botanical and leading wildlife photographer Edward Parker provide an illuminating and visually striking history of each tree species including where the long living species can still be found the tree's botanical details and its mythical associations

Meetings with Remarkable Trees ; Remarkable Trees of the World Thomas Pakenham, 2003

The Cultural Value of Trees Jeffrey Wall, 2022-06-01 This volume focuses on the tree as a cultural and biological form and examines the concept of folk value and its implications for biocultural conservation Folk value refers to the value of the more than human living world to cultural cohesion and survival as opposed to individual well being This field of value comprising cosmological aesthetic eco erotic sentimental mnemonic value and much more serves as powerful motivation for the local performance of environmental care The motivation to maintain and conserve ecology for the purpose of cultural survival will be the central focus of this book as the conditions of the Anthropocene urgently require the identification understanding and support of enduring self perpetuating biocultural associations The geographical scope is broad with chapters discussing different tree species from the Americas and the Caribbean East Asia Eurasia and Australia and Africa By focusing on the tree one of the most reliably cross culturally valued and cross culturally recognized biological forms and one which invariably defines expansive landscapes this work illuminates how folk value binds the survival of more than human life forms with the

survival of specific peoples in the era of biocultural loss the Anthropocene As such this collection of cross cultural cases of tree folk value represents a low hanging fruit for the larger project of exploring the power of cultural value of the more than human living world This book will be of great interest to students and scholars of conservation biodiversity biocultural studies and environmental anthropology

Tracking Giants Amanda Lewis, 2023-05-30 I learned I laughed I sighed I swooned What an absolutely delightful romp through the forest Kate Harris author of *Lands of Lost Borders* Intimate open hearted A personal introduction to one of the most profoundly alive places on earth John Vaillant author of *The Golden Spruce* A funny deeply relatable book about one woman s quest to track some of the world s biggest trees Amanda Lewis was an overachieving burned out book editor most familiar with trees as dead blocks of paper A dedicated indoorswoman she could barely tell a birch from a beech But that didn t stop her from pledging to visit all of the biggest trees in British Columbia a Canadian province known for its rugged terrain and gigantic trees The Champion trees on Lewis s ambitious list ranged from mighty Western red cedars to towering arbutus They lived on remote islands and at the center of dense forests The only problem Well there were many Climate change and a pandemic aside Lewis s lack of wilderness experience the upsetting reality of old growth logging the ever changing nature of trees and the pressures of her one year timeframe complicated her quest Burned out again and realizing that her checklist approach to life might be the problem she reframed her search for trees to something humbler and more meaningful getting to know forests in an interconnected way Weaving in insights from writers and artists Lewis uncovers what we re really after when we pursue the big things revealing that sometimes it s the smaller joys the mindsets we have and the companions we re with that make us feel more connected to the natural world

The Tree Experts Mark Johnston, 2021-08-02 Trees are now in the public eye as never before The

threat of tree diseases the felling of street trees and the challenge of climate change are just some of the issues that have put trees in the media spotlight At the same time the trees in our parks gardens and streets are a vital resource that can deliver environmental social and economic benefits that make our towns and cities attractive green and healthy places Ever since Roman times when amenity trees were first planted in Britain caring for those trees has required specialist skills This is mainly because of the challenges of successfully integrating large trees into the urban environment and the risks involved in working with them often at height and in close proximity to people buildings and roads But who are the people with the specialist expertise to care for our amenity trees While professionals such as horticulturists landscape architects conservationists and foresters have a role to play it is the arboriculturists who are the tree experts For centuries arboriculture was often synonymous with forestry or considered an aspect of horticulture until it emerged in the nineteenth century as a separate discipline There are now some 22 000 people employed in Britain s arboricultural industry including practical tree surgeons and arborists local authority tree officers and arboricultural consultants This is the first book to trace the history of Britain s professional tree experts from the Roman arborator to the modern chartered arboriculturist It also discusses the influences from continental Europe and North America that have helped to shape British arboriculture over the centuries The Tree Experts will have particular appeal to those interested in the natural and built environment heritage landscapes social history and the history of gardening RHS Gardens of Great Britain and Ireland Royal Horticultural Society, 2025-08-28 This compelling tour of Great Britain and Ireland s most beautiful gardens is THE guide to help you choose where to visit Wherever you visit across Great Britain and Ireland beautiful gardens abound From large stately homes to hidden gems small urban plots to informal country gardens every region has gardens worthy of a visit Profiling the well known and the unusual those created by home gardeners as well as professional designers plant havens and sculptural statements there are gardens to suit every taste in every style Broken down by region this accessible guide helps people to get the most from visiting any part of Great Britain and Ireland From the comfort of your armchair stunning photography location maps garden information and expert guidance bring the gardens to vibrant life *Irish Forestry*, 2002

Dictionary Of British And Irish Botanists And Horticulturalists Including plant collectors, flower painters and garden designers Ray Desmond, 2020-12-23 Over the past four centuries botanists and gardeners in the British Isles have gathered maintained and propagated many varying species of plants Their work has been documented in innumerable books and articles which are often difficult to trace The Dictionary of British and Irish Botanists and Horticulturalists represents a time saving reference source for those who wish to discover more about the lives and achievements of the horticulturalists listed The dictionary s utility comes not only from indicating the major publications of the named authors but also the location of their herbaria and manuscripts The previous 1977 edition of the Dictionary has for many years been a much used source of information for botanists botanic artists and archivists In this revised edition the scope has been expanded to include among

its 13 000 entries flower painters in addition to botanical artists over 1400 entries and for the first time garden designers Finally the Dictionary should have international appeal since so many botanists and gardeners worked on collective plants overseas in particular in North America and the British Commonwealth Each entry gives wherever possible details of dates and places of birth and death educational qualifications professional posts honours and awards publications location of plant collections manuscripts drawings and portraits Its main function however is to provide further biographical references to books and periodicals Comprehensive classified indices facilitate access by professions and activities countries and plant interests **Trees of Ireland** E.
