A Chance for Change United States. Office of Education, 1966 **A Chance for Change**, 1994 **Haiti: A Once-in-a-Century Chance for Change: Beyond reconstruction: re-envisioning Haiti with equity, fairness, and opportunity** Aimee Ansari, **A Chance for Change** Crystal R. Sanders, 2016-02-10 In this innovative study Crystal Sanders explores how working class black women in collaboration with the federal government created the Child Development Group of Mississippi CDGM in 1965 a Head Start program that not only gave poor black children access to early childhood education but also provided black women with greater opportunities for political activism during a crucial time in the unfolding of the civil rights movement Women who had previously worked as domestics and sharecroppers secured jobs through CDGM as teachers and support staff and earned higher wages The availability of jobs independent of the local white power structure afforded these women the freedom to vote in elections and petition officials without fear of reprisal But CDGM's success antagonized segregationists at both the local and state levels who eventually defunded it Tracing the stories of the more than 2 500 women who staffed Mississippi's CDGM preschool centers Sanders's book remembers women who went beyond teaching children their shapes and colors to challenge the state's closed political system and white supremacist ideology and offers a profound example for future community organizing in the South **A Chance for a Change** United States.
