Foreign Policies of India's Prime Ministers Harish Kapur,2013-11-01 The book is on the Prime Ministers of India since Jawaharlal Nehru A chapter is devoted to each of them with a focus on their

foreign policies The broad organisational framework designed and deployed in this publication begins with a brief analysis of their formative years their perceptions of the international system and the architecture of their foreign policies before delving into their decisional process and before concluding with an evaluation of their role All the Prime Ministers were obviously not interested in international affairs Though the dimensional size of the country had unavoidably pushed all of them to deal with foreign affairs their role was variegated and their performance was unequal While the Nehru Gandhi family were the icons of Indian diplomacy there were others like Morarji Desai V P Singh H D Deve Gowda Chandra Shekar etc who were really marginal either because their mandate was limited by time or by interest The uniqueness of the book lies in the fact that the author has dealt with all the Prime Ministers including the ones for whom foreign policy was not crucial

Rudolph,Susanne Hoeber Rudolph,1987-04-15 The pursuit of Lakshmi the fickle goddess of prosperity and good fortune is a metaphor for the aspirations of the state and people of independent India In the latest of their distinguished contributions to South Asian studies scholars Lloyd I Rudolph and Susanne Hoeber Rudolph focus on this modern day pursuit by offering a comprehensive analysis of India s political economy India occupies a paradoxical plane among nation states it is both developed and underdeveloped rich and poor strong and weak These contrasts locate India in the international order The Rudolphs theory of demand and command polities provides a general framework for explaining the special circumstances of the Indian experience Contrary to what one might expect in a country with great disparities of wealth no national party right or left pursues the politics of class Instead the Rudolphs argue private capital and organized labor in India face a third actor the state Because of the dominance of the state makes class politics marginal the state is itself an element in the creation of the centrist oriented social pluralism that has characterized Indian politics since independence In analyzing the relationship between India s politics and its economy the Rudolphs maintain that India s economic performance has been only marginally affected by the type of regime in power authoritarian or democratic More important they show that rising levels of social mobilization and personalistic rule have contributed to declining state capacity and autonomy At the same time social mobilization has led to a more equitable distribution of economic benefits and political power which has enhanced the state s legitimacy among its citizens The scope and explanatory power of *In Pursuit of Lakshmi* will make it essential for all those interested in political economy comparative politics Asian studies and India *Indira Gandhi and the Constitution* P.
