Change And Continuity In The French Episcopate:

The French Wars of Religion, 1562-1629 Mack P. Holt, 2006-01-12 This is the 2005 second edition of a comprehensive study of the French wars of religion **Change and Continuity in the French Episcopate** Frederic J. Baumgartner, 1986

The Making of the French Episcopate, 1589-1661 Dr Joseph Bergin, Joseph Bergin, 1996-01-01 This major work written by one of the leading historians of France's ancien regime is the first in depth study of the French upper clergy during the key period of the Catholic Reformation following the Council of Trent In describing the creation character and role of these early French bishops it also sheds light on social mobility education the career patterns and prospects of particular groups the workings of patronage and clientage networks and the wider dimensions of royal policy and patronage at this time Joseph Bergin begins by analysing the structures of the French church and the process by which individuals were nominated and confirmed as bishops He then presents a collective profile of these bishops in terms of their social and geographical origins educational attainments and pre episcopal careers Bergin examines royal patronage in relation to episcopal office tracing the successive pressures with which the crown had to deal in the wider social and political world In particular he shows how the crown painfully and gradually recovered control of church patronage after the low point of the religious wars reducing the grip of the nobility on large numbers of dioceses He also examines how reforming pressures were brought to bear on the crown to appoint bishops who met the standards of the counter reformation church and how the crown became increasingly in tune with these reformist pressures He concludes by explaining particular features of the French episcopate within a wider European context The book the result of years of research in French and Italian archives includes an extensive biographical dictionary that will make it an invaluable reference for all French historians of the period The Emergence of

Pastoral Authority in the French Reformed Church (c.1555-c.1572) Gianmarco Braghi, 2021-07-19 In *The Emergence of Pastoral Authority in the French Reformed Church c 1555 c 1572* Gianmarco Braghi offers a broad overview of the issues and ambiguities connected to the implementation of the authority of the first generation of Geneva trained French Reformed pastors and of their implications for the character and identity of the early French Reformed movement at large using them as a prism for historical analysis of the transition from loose evangelicalism to a nascent synodal consistorial network of Reformed congregations scattered across the kingdom of France **The Politics of Print During the French Wars of**

Religion Gregory P. Haake, 2020-10-12 In *The Politics of Print During the French Wars of Religion* Gregory Haake examines how in late sixteenth century France authors and publishers used the new medium of the printed text to control the terms of public discourse and determine history or at least their narrative of it The creativity of the Renaissance ushered in new instability of discourse and a decline of traditional centres of authority Gregory Haake shows that poets authors printers and polemicists including historians such as Simon Goulart the great poets of the time such as Pierre de Ronsard or Agrippa d Aubign or anonymous authors of polemical texts rushed in to take advantage of discursive uncertainty to discredit their

enemies and shape the meaning of history as it unfolded **The Politics of Wine in Early Modern France** Mack P. Holt, 2018-09-13 Explores how workers in the local wine industry helped shape local politics and turn back Protestantism in early modern Burgundy *Episcopal Reform and Politics in Early Modern Europe* Jennifer Mara DeSilva, 2012-09-18 In the tumultuous period of the sixteenth and seventeenth centuries when ecclesiastical reform spread across Europe the traditional role of the bishop as a public exemplar of piety morality and communal administration came under attack In communities where there was tension between religious groups or between spiritual and secular governing bodies the bishop became a lightning rod for struggles over hierarchical authority and institutional autonomy These struggles were intensified by the ongoing negotiation of the episcopal role and by increased criticism of the cleric especially during periods of religious war and in areas that embraced reformed churches This volume contextualizes the diversity of episcopal experience across early modern Europe while showing the similarity of goals and challenges among various confessional social and geographical communities Until now there have been few studies that examine the spectrum of responses to contemporary challenges the high expectations and the continuing pressure bishops faced in their public role as living examples of Christian ideals Contributors include William V Hudon Jennifer Mara DeSilva Raymond A Powell Hans Cools Antonella Perin John Alexander John Christopoulos Jill Fehleison Linda Lierheimer Celeste McNamara Jean Pascal Gay **Queen's Apprentice** Joseph F. Patrouch, 2010 This study seeks to examine a number of themes relating to the roles of the women s court of the central European Habsburgs These include its role in helping consolidate their holdings in central Europe and the Holy Roman Empire and structure their relations with the rest of Europe **The Gondi** Joanna Milstein, 2016-03-09 One of the most striking features of French government in the second half of the sixteenth century was the influence of Italians Notwithstanding widespread French admiration for Italian culture Italian influence at the heart of French government aroused xenophobic antagonism amongst many in French society This study throws light on this complex relationship by offering the first detailed examination of the Gondi one of the most influential of the Italian families active during this period The Gondi family played a leading part in the finance government church and military affairs of the nation and were indispensable counsellors to the Queen Mother Catherine De Medici They were also the targets of anti Italian hostility much of it deliberately stirred by rivals in the French aristocracy who felt threatened by these powerful foreigners occupying positions they believed were rightfully theirs The book examines perceptions of the Gondi through examination of contemporary pamphlets diaries and ambassadors dispatches It investigates among other issues their notorious role in the plotting of the St Bartholomew s Day Massacre in 1572 Making use of many previously overlooked archival sources from France and Italy this book charts the Gondi s rise to power and demonstrates how their deft use of patronage and financial expertise allowed them to weave the intricate web of power and obligation that protected them against native hostility In so doing the book reveals much about government and society in late sixteenth century France **A Bishop's Tale** Craig

Harline, Eddy Put, 2008-10-01 This absorbing book takes us back to the busy colorful world of a Netherlandish Catholic bishop and his flock during the age of Reformation. It is drawn from a rare journal one of many kept by Mathias Hovius from 1596 to 1620 while he was Archbishop of Mechelen part of modern Belgium. Elegantly written the book focuses not only on the life of Mathias Hovius but also on key events and characters of his time. It portrays lived religion so that we see people from all sides getting involved in the constant negotiation of what it meant to be a good Catholic. Craig Harline and Eddy Put recreate the eventful life and times of Mathias Hovius a world in which other believers were outright heretics the nagging fevers of old age were the result of unbalanced bodily humors and a corruptible earth rested motionless at the center of the universe while God sat exalted on a throne just beyond the fixed stars. The authors also tell the stories of monks nuns priests millers pilgrims peasant women saints town and village councils and ordinary parishioners each story fascinating in its own right illustrates a major theme in the history of the Catholic Reformation. In the end Harline and Put have painted a picture teeming with life and energy.

The Church in the Republic: Gallicanism & Political Ideology in Renaissance France Church in the Republic Jotham Parsons, 2004-12 This book presents an examination of the ways in which Renaissance humanism and the Catholic and Protestant Reformations interacted to create the modern state. The path of pleasantness Giulia Vidori, 2021-04-14 Ippolito II d'Este 1509-1572 cardinal and prince of Ferrara played a crucial role in shaping the political and cultural connections between Italy and France. Seen by his contemporaries as staunchly French his life rather followed a difficult balance between the political and spatial entities Rome Paris and Ferrara through which he continuously moved and from which he derived his power. Following his career as cardinal protector of the Valois crown royal administrator of Siena on behalf of Henry II and papal legate to France on the eve of the Wars of Religion this book argues that Ippolito's apparent diplomatic success ultimately weakened his family's position in Italy and left it ill equipped to compete in the changing politics of the peninsula.

The First French Reformation Tyler Lange, 2014-04-14 This interpretation of the origins of French absolutism identifies Catholic Church reform as its foundation and failure of French Protestantism.

Strange Parallels: Volume 2, Mainland Mirrors: Europe, Japan, China, South Asia, and the Islands Victor Lieberman, 2009-10-30 Blending fine grained case studies with overarching theory this book seeks both to integrate Southeast Asia into world history and to rethink much of Eurasia's premodern past. It argues that Southeast Asia Europe Japan China and South Asia all embodied idiosyncratic versions of a Eurasian wide pattern whereby local isolates cohered to form ever larger more stable more complex political and cultural systems. With accelerating force climatic commercial and military stimuli joined to produce patterns of linear cum cyclic construction that became remarkably synchronized even between regions that had no contact with one another. Yet this study also distinguishes between two zones of integration one where indigenous groups remained in control and a second where agency gravitated to external conquest elites. Here then is a fundamentally original view of Eurasia during a 1 000 year

period that speaks to both historians of individual regions and those interested in global trends A Social and Cultural History of Early Modern France William Beik, 2009-05-14 A magisterial history of French society between the end of the middle ages and the Revolution by one of the world's leading authorities on early modern France Using colorful examples and incorporating the latest scholarship William Beik conveys the distinctiveness of early modern society and identifies the cultural practices that defined the lives of people at all levels of society Painting a vivid picture of the realities of everyday life he reveals how society functioned and how the different classes interacted In addition to chapters on nobles peasants city people and the court the book sheds new light on the Catholic church the army popular protest the culture of violence gendered relations and sociability This is a major new work that restores the ancien régime as a key epoch in its own right and not simply as the prelude to the coming Revolution **Heresy and Orthodoxy in Sixteenth-Century Paris: François**

Le Picart and the Beginnings of the Catholic Reformation Larissa Juliet Taylor, 2021-10-11 This is the story of Paris from the Reformation to the Religious Wars Through the works of François Le Picart the most popular preacher from 1530-1556 the book delineates the increasing tensions sparked by Reformation ideas Targeted by Calvin and Beza Le Picart was considered the reason Paris remained in the Catholic fold Exiled by Francis I for his incendiary preaching he would later serve as a professor and lecturer coming into close contact with the first Jesuits A fierce opponent of heresy he helped compile the Articles of Faith read heretical books lectured on scripture and presided at executions His 270 sermons the only substantial preaching source for this period offer glimpses of life during these increasingly troubled times that challenge works by Denis Crouzet suggesting that France was in the grip of eschatological anguish *Lord of the Sacred City: The Episcopus exclusus in Late Medieval and Early Modern Germany* Jeff J. Tyler, 2021-10-11 Urban histories have emphasized the rise of civic autonomy and proto democracy Based on chronicle and archival sources this volume focuses on German bishops former lords of the city and fierce opponents of civic freedom The author investigates how bishops contested exclusion from political economic and religious dimensions of civic life Episcopus exclusus which culminated in the Protestant Reformation Four chapters are devoted to episcopal expulsion throughout Germany and the cities of Constance and Augsburg in particular A remarkable section explores the puzzle of the bishop's civic survival in the later Middle Ages made possible through episcopal ritual The emphasis on city bishop and ritual will be of special interest to urban historians as well as to scholars of medieval religion the reformation church history church state relations and social history

Warrior Pursuits Brian Sandberg, 2010-11-15 How did warrior nobles practices of violence shape provincial society and the royal state in early seventeenth century France Warrior nobles frequently armed themselves for civil war in southern France during the troubled early seventeenth century These bellicose nobles practices of violence shaped provincial society and the royal state in early modern France The southern French provinces of Guyenne and Languedoc suffered almost continual religious strife and civil conflict between 1598 and 1635 providing an excellent case for investigating the dynamics

of early modern civil violence Warrior Pursuits constructs a cultural history of civil conflict analyzing in detail how provincial nobles engaged in revolt and civil warfare during this period Brian Sandberg s extensive archival research on noble families in these provinces reveals that violence continued to be a way of life for many French nobles challenging previous scholarship that depicts a progressive civilizing of noble culture Sandberg argues that southern French nobles engaged in warrior pursuits social and cultural practices of violence designed to raise personal military forces and to wage civil warfare in order to advance various political and religious goals Close relationships between the profession of arms the bonds of nobility and the culture of revolt allowed nobles to regard their violent performances as heroic gestures and beautiful warrior acts Warrior nobles represented the key organizers of civil warfare in the early seventeenth century orchestrating all aspects of the conduct of civil warfare from recruitment to combat according to their own understandings of their warrior pursuits Building on the work of Arlette Jouanna and other historians of the nobility Sandberg provides new perspectives on noble culture state development and civil warfare in early modern France French historians and scholars of the Reformation and the European Wars of Religion will find Warrior Pursuits engaging and insightful

Gender, Kabbalah and the Reformation: The Mystical Theology of Guillaume Postel (1510-1581) Yvonne Petry, 2004-04-01 This study examines the thought of Guillaume Postel 1510 1581 a French religious thinker who relied on Jewish Kabbalah and its mystical understanding of gender to argue that a female messiah had arrived who would heal the political and religious conflicts of sixteenth century Europe

Calvin and the Early Reformation Brian C. Brewer, David M. Whitford, 2019-12-09 Those who have a passing knowledge of John Calvin s theology and reforms in Geneva in the sixteenth century may picture the confident and mature theologian and preacher without appreciating the various events people and circumstances that shaped the man Before there was Protestantism s first and eminent systematic theologian there was the French youth the law student and humanist the Protestant convert and homeless exile the reluctant reformer and anguished city leader Snapshots of the young Calvin create a collage that give a bigger picture to the grey bearded Protestant reformer Eleven scholars of early modern history have joined in this volume to depict the people movements politics education sympathizers nemeses and controversies from which Calvin immersed in his young adulthood
