Change Matters Making A Difference In Education And Training:

Change Matters Geoff Scott, 2020-08-04 While many books address the what of change in education this addresses the how The pressure for continuous adaptation and innovation in education is relentless yet there is more failure in implementation of change than success These failures are damaging to staff and students as well as costly Change Matters offers a practical guide to change management for teachers and administrators across all education sectors and for training managers in workplace settings Change Matters assists educators to develop their abilities to manage their own change projects and also to help their organisations to manage their overall improvement and innovation activities Geoff Scott draws on successful experience to create a framework for the educational change process He shows how to initiate develop implement and evaluate a new learning program and how to manage continuous quality improvement and innovation at the organisational level The need for leadership is assessed and the particular circumstances of workplace trainers are discussed The book is illustrated with case studies and reflective exercises which can be used individually or with other educators An eminently readable and practical guide for those who want to make sure that the educational changes they attempt really do make a difference for their students Highly recommended Professor Michael Fullan Dean Ontario Institute for Studies in Education University of Toronto and author of *The New Meaning of Educational Change* and of the *What's Worth Fighting For* trilogy with Andy Hargreaves

Designing Courses For Higher Education Toohey, Susan, 1999-05-01 This book focuses not on teaching techniques but on the strategic decisions which must be made before a course begins It provides realistic advice for university and college teachers on how to design more effective courses without underestimating the complexity of the task facing course developers and offers course designers both an understanding and a framework within which to clarify their own teaching purposes
