Changing Meanings Of Citizenship In Modern China:

Changing Meanings of Citizenship in Modern China Merle Goldman, Elizabeth J. Perry, 2002-06-30 This collection of essays addresses the meaning and practice of political citizenship in China over the past century raising the question of whether reform initiatives in citizenship imply movement toward increased democratization After slow but steady moves toward a new conception of citizenship before 1949 there was a nearly complete reversal during the Mao regime with a gradual reemergence beginning in the Deng era of concerns with the political rights as well as the duties of citizens The distinguished contributors to this volume address how citizenship has been understood in China from the late imperial era to the present day the processes by which citizenship has been fostered or undermined the influence of the government the different development of citizenship in mainland China and Taiwan and the prospects of strengthening citizens rights in contemporary China Valuable for its century long perspective and for placing the historical patterns of Chinese citizenship within the context of European and American experiences *Changing Meanings of Citizenship in Modern China* investigates a critical issue for contemporary Chinese society

Citizenship and Education in Contemporary China Yeow-Tong Chia, Zhenzhou Zhao, 2023-05-31 A key objective of education in China is to cultivate one's moral values with the ultimate objective of becoming fully human Unlike the West which regards moral cultivation as related to but separate from citizenship cultivation East Asia including China views moral and citizenship cultivation as synonymous The essays in this book offer various perspectives on and understandings of Chinese citizenship and education by a group of scholars of Chinese heritage situated inside and outside of China They offer compelling evidence and rich theoretical discussions about the practice of teaching citizenship in the state education the interplay between citizenship and China's cultural and religious traditions and the construction of citizenship from the groups from marginal positions The book uses citizenship as a lens to examine the pressing issues of identity democracy religion and cosmopolitanism and sheds new light on China's ongoing social and educational changes Thinking through citizenship and citizenship education may act as an important driving force to transform the culture and paradigms of governance in China and the new meanings of becoming fully human This book will be of interest to researchers and advanced students of Education Politics Sociology and Public Policy The chapters in this book were originally published in various Routledge journals

Not Just a Man's War Yihong Pan, 2024-09-01 In 1931 Japan began a brutal occupation of Manchuria and in 1937 China and Japan entered a full scale war that ended with Japan's defeat in 1945 The War of Resistance became the Chinese experience of the Second World War Yet women scarcely get a mention in most accounts of the fourteen year conflict Through interviews published reminiscences and oral histories *Not Just a Man's War* uncovers the extraordinary stories of ordinary Chinese women during the war Communist women speak of fighting as soldiers for a good war and contributing to the party's rise to power Nationalist women attribute their survival to the strength of the human spirit while acknowledging tremendous suffering Women from the working poor and the middle

classes describe the hardships of Japanese aggression and in their narratives refuse to be ignored as passive beings. In speaking up, the victims of sexual violence become survivor activists demanding justice. These women demonstrate a striking autonomy regardless of political association, socioeconomic status, or education. By attending to their insights, *Not Just a Man's War* produces a multi-faceted, inclusive narrative of China's War of Resistance. **Gender and Sexuality in Modern Chinese History** Susan L. Mann, 2011-09-19. Gender and sexuality have been neglected topics in the history of Chinese civilization despite the fact that there is a massive amount of historical evidence on the subject. China's late imperial government was arguably more concerned about gender and sexuality among its subjects than any other pre-modern state. How did these and other late imperial legacies shape twentieth-century notions of gender and sexuality in modern China? Susan Mann answers this by focusing on state policy, ideas about the physical body, and notions of sexuality and difference in China's recent history, from medicine to the theater to the gay bars, from law to art and sports. More broadly, the book shows how changes in attitudes toward sex and gender in China during the twentieth century have cast a new light on the process of becoming modern while simultaneously challenging the universalizing assumptions of Western modernity. **Manipulating Authoritarian Citizenship** Samantha A. Vortherms, 2024-10-15. The redistribution of political and economic rights is inherently unequal in autocratic societies. Autocrats routinely divide their populations into included and excluded groups, creating particularistic citizenship through granting some groups access to rights and redistribution while restricting or denying access to others. This book asks why would a government with powerful tools of exclusion expand access to socioeconomic citizenship rights? And when autocratic systems expand redistribution, whom do they choose to include? In *Manipulating Authoritarian Citizenship*, Samantha A. Vortherms examines the crucial case of China, where internal citizenship regimes control who can and cannot become a local citizen through the household registration system, *hukou*, and uncovers how autocrats use such institutions to create particularistic membership in citizenship. Vortherms shows how local governments explicitly manipulate local citizenship membership not only to ensure political security and stability but also crucially to advance economic development. Vortherms demonstrates how autocrats use differentiated citizenship to control degrees of access to rights and thus fulfill the authoritarian bargain and balance security and economic incentives. This book expands our understanding of individual state relations in both autocratic contexts and across a variety of regime types. **Gender and Education in China** Paul J. Bailey, 2007-02-12. Gender and Education in China analyzes the significance, impact, and nature of women's public education in China from its beginnings at the turn of the twentieth century. Educational change was an integral aspect of the early twentieth-century state building and modernizing reforms implemented by the Qing dynasty as a means of strengthening the foundations of dynastic rule and reinvigorating China's economy and society to ward off the threat of foreign imperialism. A significant feature of educational change during this period was the emergence of official and non-official schools for girls. Using primary evidence such as official documents, newspapers, and journals, Paul Bailey analyzes

the different rationales for women's education provided by officials, educators and reformers and charts the course and practice of women's education describing how young women responded to the educational opportunities made available to them. Demonstrating how the representation of women and assumptions concerning their role in the household, society and polity underpinned subsequent gender discourses throughout the rest of the century, *Gender and Education in China* will appeal to students and scholars of Chinese history, gender studies, women's studies as well as an interest in the history of education. *Chinese Society* Elizabeth J. Perry, Mark Selden, 2003-09-02. Written by an interdisciplinary and international team of Chinese scholars, this book offers an authoritative analysis of contemporary Chinese society, protest and resistance.

Citizenship Education and Lifelong Learning Michael Williams, Graham Humphrys, 2003. Across the globe, citizenship education is high on the reform agendas of policy makers and educators. The collapse of the Soviet Union and the entry of former Soviet bloc states into the European Union, the fragmentation of the former Yugoslavia, the major population movements from poor to rich countries and the increased threats of international terrorism and civil wars in many states have all added to the need to provide up-to-date and reflective approaches to citizenship education. Within nation states, the impact of globalisation on social, economic and political structures has caused power shifts across and within international borders, demanding greater citizenship awareness and participation. The effect of these changes and the practice and needs of citizenship are profoundly affected by the distinctive particulars of the places in which they occur. This is an essential ingredient in any understanding of what is happening and of any program addressing the resulting citizenship challenges. Too often, citizenship education has been perceived simply as a matter for schools. In this book, the discussion is extended to embrace post-school education. It is acknowledged that the educa... *The Palgrave Handbook of Chinese Language Studies* Zhengdao Ye, 2022-07-30. Media and Cultural Transformation in China Haiqing

Yu,2009-02-24 This book examines the role played by the media in China's ongoing cultural transformation. It demonstrates that the media is integral to China's changing culture in the age of globalization whilst also being part and parcel of the State and its project of re-imagining national identity **Embodying Middle Class Gender Aspirations** Kailing Xie,2021-04-25

This book takes a feminist approach to analyse the lives of well-educated urban Chinese women who were raised to embody the ideals of a modern Chinese nation and are largely the beneficiaries of the policy changes of the post-Mao era. It explores young women's gendered attitudes to and experiences of marriage, reproductive choices, careers and aspirations for a good life. It sheds light on what keeps mainstream Chinese middle-class women conforming to the current gender regime. It illuminates the contradictory effects of neoliberal techniques deployed by a familial authoritarian regime on these women striving for success in urban China and argues that paradoxically women's individualistic determination to succeed has often led them onto the path of conformity by pursuing exemplary norms which fit into the party-state's agenda **Burying**

Autumn Hu Ying,2020-05-11 Autumn wind, autumn rain fill my heart with sorrow; these were the last words of Qiu Jin (1875-1907) written before she was beheaded for plotting to overthrow the Qing empire. Eventually she would be celebrated as a Republican martyr and China's first feminist; her last words committed to memory by schoolchildren. Yet during her lifetime she was often seen as eccentric, even deviant. In her death and still more in the forced abandonment of her remains the authorities had wanted her to disappear into historical oblivion. *Burying Autumn* tells the story of the enduring friendship between Qiu Jin and her sworn sisters Wu Zhiying and Xu Zihua who braved political persecution to give her a proper burial. Formed amidst social upheaval, their bond found its most poignant expression in Wu and Xu's mourning for Qiu. The archives of this friendship—letters, poems, biographical sketches, steles and hand-copied sutra—vividly display how these women understood the concrete experiences of modernity, how they articulated those experiences through traditional art forms and how their artworks transformed the cultural traditions they invoked, even while maintaining deep cultural roots. In enabling Qiu Jin to acquire historical significance, their friendship fulfilled its ultimate socially transformative potential **Uneasy**

Reunions Nicole DeJong Newendorp,2008 This book is about the migrations for family reunion that have taken place in post-1997 Hong Kong between mothers and children living in mainland China and their long-absent husbands and fathers, residents of Hong Kong *The Transition Study of Postsocialist China* Wing-Chung Ho,2010 There is no denying that China has experienced and is still experiencing radical changes generally initiated by the vibrant market-driven economy that began in the late 1970s. The question remains, however, of what has happened to those who just a few decades before experienced pride and power in being part of the proletariat. How do they make sense of the past and face up to the uncertainties of the future? This book presents an anthropological investigation into their lives and memories in order to understand their situation. Presently a working-class neighborhood in Shanghai, Cucumber Lane, was in the 1960s a well-known socialist model community being transformed from an urban slum in the 1940s. The neighborhood was further recast

as a civilized small community in the 1990s Based on oral histories as well as ethnographic observations and pertinent historical materials this book portrays the ways the Chinese have been making sense of and coping with radical changes during a period punctuated by shifts in political priorities vicissitudes in ideological orientation changes in the way they conceive of their relationship with the state and enterprises the depoliticization of social identities the rise and fall of collectivism and the explosive vitality of the new market economy

Migration In East And Southeast Asia Samuel C Y Ku, Kristina Kironaka, 2016-10-07 There has been an undisputed increase in the importance of migration over the past decades It is one of the effects of an increasingly globalized world where capitalism and free trade are gaining prominence Migration in East and Southeast Asia aims to bring migration related problems in Asia to the forefront The first part of the book deals with migration in Greater China a region influenced by Confucianism The three Chinas used to have a close connection in the past and presently share much similarity The Hong Kongese and Taiwanese societies are based on migration from Mainland China However each society has endured significant social economic and political changes The second part of the book offers a closer look at migration flows in Southeast Asia Most of the intra ASEAN migration involves low skilled labor for construction agriculture and domestic work This book hopes to offer valuable insights into various topics related to migration in the region

Chinese Sojourners in Wartime Raj, 1942-45 Cao Yin, 2022 This book is about how the activities of the Chinese sojourners in wartime India caused great concerns to the British colonial regime and the Chinese Nationalist government alike and how these sojourners responded to the surveillance discipline and check imposed by the governments

Reconsidering Chinese Citizenship Canglong Wang, Zhenzhou Zhao, Zhonghua Guo, 2025-04-03 This book reconsiders the concept of Chinese citizenship through the lens of cultural traditions and their deep historical roots It challenges the state's monolithic interpretation of culture exploring how cultural practices influence citizenship in modern China The contributors to this volume examine how various actors from government forces to grassroots activists engage in culture informed citizenship practices They highlight the role of political ideology spirituality Confucianism and minority religious traditions in shaping citizenship discourse By broadening the understanding of Chinese citizenship beyond its Western centric frameworks this book delves into issues of socioeconomic injustice cultural recognition and the negotiation of civic rights Readers are offered new perspectives on how China's unique cultural heritage intertwines with its political structures providing a nuanced understanding of citizenship in rapidly changing societies This thought provoking analysis will engage anyone interested in Chinese politics culture and the development of citizenship in a global context The chapters in this book were originally published as a special issue of

Political Booms: Local Money And Power In Taiwan, East China, Thailand, And The Philippines Lynn T White, 2009-06-10 Why have Taiwan rich parts of China and Thailand boomed famously while the Philippines has long remained stagnant both economically and politically Do booms abet democracy Does the rise of middle classes promise future liberalization Why has Philippine democracy brought no boom and barely served the Filipino people This book unlike most previous studies shows that both the roots and results of growth are largely political rather than economic Specifically it pays attention to local not just national power networks that caused or prevented growth in the four places under consideration Violence has been common in these polities along with money Elections have contributed to socio-political problems that are also obvious in Leninist or junta regimes because elections are surprisingly easy to buy with corrupt money from government contracts Liberals should pay more serious theoretical attention to the effects of money on justice and Western political science should focus more clearly on the ways non-state local power affects elections By considering the effects on fair justice of local money and power largely from small and medium-sized firms that emerge after agrarian reforms this book asks democrats to face squarely the extent to which electoral procedures fail to help ordinary citizens Students and scholars of Asia will all need this book as will students of the West whose methods have become parochial
