Environmental Crime in Transnational Context Toine Spapens, Rob White, Wim Huisman, 2016-06-10 Environmental crime is one of the most profitable and fastest growing areas of international criminal activity The increasing cross border scope of environmental crimes and harms is one of the reasons why governments and the enforcement community have trouble in finding the proper responses Law enforcement cooperation between western industrialized states is often time consuming and problematic and the problems increase exponentially when environmental criminals take advantage of situations where government and law enforcement are weak This book provides an overview of the developments and problems in the field of transnational environmental crimes and harms addressing these issues from perspectives such as enforcement deterrence compliance and emission trading schemes Divided into four parts the authors consider global issues in green criminology responses to transnational environmental crimes and harms alternative methods to combat

environmental crime and specific types of crimes and criminological research. Discussing these topics from the view of green criminology, sociology and governance, this book will be of great interest to all those concerned about the transnational dimensions of crime and the environment. *Philosophy, Crime, and Criminology* Bruce A. Arrigo, Christopher R. Williams, 2010-10-01. *Philosophy Crime and Criminology* represents the first systematic attempt to unpack the philosophical foundations of crime in Western culture. Utilizing the insights of ontology, epistemology, aesthetics and ethics, contributors demonstrate how the reality of crime is informed by a number of implicit assumptions about the human condition and unstated values about civil society. Charting a provocative and original direction, editors Bruce A. Arrigo and Christopher R. Williams couple theoretically oriented chapters with those centered on application and case study. In doing so, they develop an insightful, sensible and accessible approach for a philosophical criminology in step with the political and economic challenges of the twenty-first century. Revealing the ways in which philosophical conceits inform prevailing conceptions of crime, *Philosophy Crime and Criminology* is required reading for any serious student or scholar concerned with crime and its impact on society and in our lives. *The Italian Way* Douglas Harper, Patrizia Faccioli, 2010-01-15. Outside of Italy, the country's culture and its food appear to be essentially synonymous. And indeed, as *The Italian Way* makes clear, preparing, cooking and eating food play a central role in the daily activities of Italians from all walks of life. In this beautifully illustrated book, Douglas Harper and Patrizia Faccioli present a fascinating and colorful look at the Italian table. *The Italian Way* focuses on two dozen families in the city of Bologna, elegantly weaving together Harper's outsider perspective with Faccioli's intimate knowledge of the local customs. The authors interview and observe these families as they go shopping for ingredients, cook together and argue over who has to wash the dishes. Throughout, the authors elucidate the guiding principle of the Italian table: a delicate balance between the structure of tradition and the joy of improvisation. With its bite-sized history of food in Italy, including the five-hundred-year-old story of the country's cookbooks and Harper's mouth-watering photographs, *The Italian Way* is a rich repast, insightful, informative and inviting. **The Routledge Handbook of Research Methods in the Study of Religion** Steven Engler, Michael Stausberg, 2021-11-29. This substantially revised second edition of *The Routledge Handbook of Research Methods in the Study of Religion* remains the only comprehensive survey in English of methods and methodology in the discipline. Designed for non-specialists and upper undergraduate/graduate level students, it discusses the range of methods currently available to stimulate interest in unfamiliar methods and enable students and scholars to evaluate methodological issues in research. The Handbook comprises 39 chapters, 21 of which are new and the rest revised for this edition. A total of 56 contributors from 10 countries cover a broad range of topics, divided into three clear parts: Methodology, Methods, Techniques. The first section addresses general methodological issues, including comparison, research design, research ethics, intersectionality and theorizing analysis. The second addresses specific methods, including advanced computational methods, autoethnography, computational text analysis, digital ethnography, discourse analysis, experiments,

field research grounded theory interviewing reading images surveys and videography The final section addresses specific techniques including coding focus groups photo elicitation and survey experiments Each chapter covers practical issues and challenges theoretical bases and their use in the study of religion s illustrated by case studies The Routledge Handbook of Research Methods in the Study of Religion is essential reading for students and researchers in the study of religion s as well as for those in related disciplines

Human Progress Amid Resistance to Change Joseph E. Pluta, 2011-04 In building their profession around carefully selected interpretations of the work of Adam Smith Alfred Marshall and others mainstream economists have embraced such concepts as the invisible hand equilibrium consumer rationality the marginal productivity theory the inevitability of diminishing returns and the fiction of pure competition In contrast the evolutionary economics of Thorstein Veblen and Clarence Ayres challenges all of these concept as unproven and capable of telling us little or nothing about the actual operation of the economy Using the evolutionary framework Human Progress Amid Resistance to Change argues that all cultures since prehistory have faced two opposing forces technology including human knowledge and institutions rooted in ceremonialism The former is dynamic forward looking accepting of change cumulative one discovery builds on another and the major cause of human progress The latter is static and consists of all customs traditions superstitions rituals ceremonies taboos and past binding religious beliefs that resist change The book illustrates in detail how these competing forces have interacted throughout the history of the human race and how mainstream economics fails to grasp the significance of their combined effects

Hong Kong Caroline Knowles, Douglas Harper, 2009-12-15 In 1997 the United Kingdom returned control of Hong Kong to China ending the city s status as one of the last remnants of the British Empire and initiating a new phase for it as both a modern city and a hub for global migrations Hong Kong is a tour of the city s postcolonial urban landscape innovatively told through fieldwork and photography Caroline Knowles and Douglas Harper s point of entry into Hong Kong is the unusual position of the British expatriates who chose to remain in the city after the transition Now a relatively insignificant presence British migrants in Hong Kong have become intimately connected with another small minority group there immigrants from Southeast Asia The lives journeys and stories of these two groups bring to life a place where the past continues to resonate for all its residents even as the city hurtles forward into a future marked by transience and transition By skillfully blending ethnographic and visual approaches Hong Kong offers a fascinating guide to a city that is at once unique in its recent history and exemplary of our globalized present

Ethnographic Methods Karen O'Reilly, 2012-03-12 This best selling book designed for researchers embarking on their first ethnographic project has been substantially revised and updated with lots of exercises and advice to guide the embodied and creative practice of ethnography New additions include cyber ethnography sensual visual and mobile ethnographies and field walking

Technology and Culture , 2003 *Studying Students* Nancy Fried Foster, Susan L. Gibbons, 2007 In particular we were interested in how students write their research papers and what services resources and facilities would be most useful to

them The information collected in this study would guide the libraries efforts to improve library facilities reference outreach and the libraries Web presence

Introduction

Putting the Barn Before the House Nancy Grey Osterud, 2012-04-15 Putting the Barn Before the House features the voices and viewpoints of women born before World War I who lived on family farms in south central New York As she did in her previous book Bonds of Community for an earlier period in history Grey Osterud explores the flexible and varied ways that families shared labor and highlights the strategies of mutuality that women adopted to ensure they had a say in family decision making Sharing and exchanging work also linked neighboring households and knit the community together Indeed the culture of cooperation that women espoused laid the basis for the formation of cooperatives that enabled these dairy farmers to contest the power of agribusiness and obtain better returns for their labor Osterud recounts this story through the words of the women and men who lived it and carefully explores their views about gender labor and power which offered an alternative to the ideas that prevailed in American society Most women saw putting the barn before the house investing capital and labor in productive operations rather than spending money on consumer goods or devoting time to mere housework as a necessary and rational course for families who were determined to make a living on the land and if possible to pass on viable farms to the next generation Some women preferred working outdoors to what seemed to them the thankless tasks of urban housewives while others worked off the farm to support the family Husbands and wives as well as parents and children debated what was best and negotiated over how to allocate their limited labor and capital and plan for an uncertain future Osterud tells the story of an agricultural community in transition amid an industrializing age with care and skill
